Subject: Bureau of Reclamation/Sites Authority Press Release
Attachments: News Release- Reclamation and Sites Project Authority advances plan for new water storage FINAL.pdf
Categories: Record

Board members –

I've attached the joint press release from Reclamation and the Sites Authority indicating the Final EIR/EIS release. The joint document is now posted on the Sites Authority website and is available to the public. We are pleased that Secretary Crowfoot provided a quote for the release as this strengthens the message that Sites is a local-led project with State and Federal participation. Consideration of approval of the project and certification of the Final EIR is planned for the November 17 Board meeting starting at 9:00 a.m. in Maxwell. We encourage you to attend the board meeting in person.

As a side note, it is likely that the Authority will receive numerous public comments during the November 17 Board meeting. We do have other items and a closed session planned for the agenda. It is suggested that you schedule for this meeting to run longer than normal, possibly the entire day.

If you have any questions or concerns, please let me know.

Jerry
