

0:0:0.0 --> 0:0:2.690

Peter Foote

For all right, today. Yeah.

0:0:2.820 --> 0:0:3.670

Peter Foote

We could do it on Monday.

0:1:29.970 --> 0:1:30.690

Peter Foote

The.

0:5:38.160 --> 0:5:39.680

Peter Foote

Ohh today.

0:5:44.200 --> 0:5:44.640

Peter Foote

Ohh.

0:5:47.440 --> 0:5:48.870

Peter Foote

You get a new schedule, Roger.

0:15:32.590 --> 0:15:32.730

Peter Foote

But.

0:18:46.660 --> 0:18:48.140

Peter Foote

They yeah.

0:18:48.290 --> 0:18:54.300

Peter Foote

OK, before I go any further and seven PDF and I'll phone you message OK.

0:18:55.50 --> 0:18:57.150

Peter Foote

Yeah in that.

0:19:50.640 --> 0:19:50.960

Peter Foote

Yes.

0:20:12.30 --> 0:20:12.840

Peter Foote

It didn't. Yeah.

0:21:58.630 --> 0:21:59.460

Peter Foote

You have to love it.

0:23:38.20 --> 0:23:38.320

Peter Foote

Death.

0:23:38.330 --> 0:23:38.620

Peter Foote

Yeah.

0:23:38.630 --> 0:23:39.580

Peter Foote

Yeah, it didn't work.

0:23:41.640 --> 0:23:41.930

Peter Foote

And the.

0:23:44.170 --> 0:23:44.510

Peter Foote

We're done.

0:24:28.580 --> 0:24:29.20

Peter Foote

Alright.

0:24:29.760 --> 0:24:30.450

Peter Foote

Yeah.

0:24:30.560 --> 0:24:34.300

Peter Foote

Yeah, not sleep, but be like, OK, OK.

0:24:39.980 --> 0:24:40.270

Peter Foote

Alright.

0:25:0.330 --> 0:25:1.750

Peter Foote

But but they started saying that.

0:25:5.470 --> 0:25:7.790

Peter Foote

Right that the.

0:25:16.380 --> 0:25:17.410

Peter Foote

I think you love.

0:25:18.240 --> 0:25:19.410

Peter Foote

Morning, you know.

0:25:22.300 --> 0:25:23.40

Peter Foote

You don't play.

0:25:23.210 --> 0:25:24.140

Peter Foote

Give me fishing.

0:25:24.270 --> 0:25:28.80

Peter Foote

I or championship or not being sounds the whole passage right there.

0:25:28.130 --> 0:25:28.540

Peter Foote

Really.

0:25:28.550 --> 0:25:32.870

Peter Foote

Yeah, Brandon, from it's an SPF top 100 and sophomore year.

0:25:34.390 --> 0:25:35.130

Peter Foote

Yeah.

0:25:35.260 --> 0:25:37.630

Peter Foote

Yeah, you don't record it from both.

0:25:39.610 --> 0:25:39.790

Peter Foote

Right.

0:25:39.890 --> 0:25:43.860

Peter Foote

OK, well, so then I was sick like, you know, he's old.

0:25:43.940 --> 0:25:45.350

Peter Foote

More than happy, but there.

0:25:46.360 --> 0:25:47.320

Peter Foote
I'm still hoping.

0:25:47.820 --> 0:25:48.500

Peter Foote
Yeah, that's fair.

0:25:50.450 --> 0:25:53.850

Peter Foote
You have enough.

0:25:54.860 --> 0:25:55.410

Peter Foote
I'm just one.

0:25:55.900 --> 0:25:56.860

Peter Foote
No like that.

0:26:2.880 --> 0:26:3.220

Peter Foote
Good there.

0:26:3.330 --> 0:26:4.840

Peter Foote
Which of these thinking off the freeway?

0:26:5.90 --> 0:26:5.620

Peter Foote
Ohh really?

0:26:5.710 --> 0:26:6.290

Peter Foote
That's very good.

0:26:6.300 --> 0:26:7.270

Peter Foote
Paper from the school.

0:26:7.280 --> 0:26:9.180

Peter Foote
So that's all.

0:26:9.230 --> 0:26:10.900

Peter Foote
You cannot buy nobody.

0:26:15.400 --> 0:26:19.130

Peter Foote

It's the first year that they didn't normally could play out.

0:26:19.260 --> 0:26:20.270

Peter Foote

It's not going.

0:26:20.480 --> 0:26:21.160

Peter Foote

You better.

0:26:21.260 --> 0:26:21.680

Peter Foote

OK.

0:26:22.400 --> 0:26:22.740

Peter Foote

Yeah.

0:26:22.790 --> 0:26:27.880

Peter Foote

And then we will get so like that around and then they get fully affiliated. Yeah.

0:26:27.890 --> 0:26:32.230

Peter Foote

And so they decided to keep everybody kind of like that.

0:26:32.240 --> 0:26:41.550

Peter Foote

Their division run run a bit nominated when they bring their own vision, and the ***** volleyball, but you have to work program to make the call, but not there.

0:26:41.620 --> 0:26:42.0

Peter Foote

You're here.

0:26:43.750 --> 0:26:44.170

Peter Foote

They don't.

0:26:44.180 --> 0:26:47.660

Peter Foote

They're plant, they need 22 players while they're they're playing.

0:26:47.670 --> 0:26:50.80

Peter Foote

Full blown teams was dominating.

0:26:50.150 --> 0:26:53.320

Peter Foote

Two and half quarters and then everybody's developed the game still.

0:26:53.420 --> 0:26:54.160

Peter Foote

Yeah.

0:26:54.210 --> 0:26:55.450

Peter Foote

Even though I got my son, he's only.

0:26:55.910 --> 0:26:58.660

Peter Foote

Yeah, we're getting them after this year.

0:26:59.310 --> 0:27:5.560

Peter Foote

Getting moved up the higher division because the school had is what their health and you see that.

0:27:5.750 --> 0:27:6.740

Peter Foote

Yeah. Yeah.

0:27:6.900 --> 0:27:8.380

Peter Foote

Can we get back to American?

0:27:9.620 --> 0:27:9.780

Peter Foote

Hey.

0:27:10.130 --> 0:27:10.230

Peter Foote

Yeah.

0:27:10.640 --> 0:27:11.560

Peter Foote

What time I got it.

0:27:11.640 --> 0:27:12.290

Peter Foote

Where's David?

0:27:13.860 --> 0:27:17.320

Peter Foote

Yeah, man, that's that, that with that great.

0:27:17.400 --> 0:27:17.790

Peter Foote

OK.

0:27:18.520 --> 0:27:19.380

Peter Foote

Yeah.

0:27:19.440 --> 0:27:27.780

Peter Foote

Yeah, it's always been a very like the standings have always been between US and Russian Persian.

0:27:28.220 --> 0:27:31.510

Peter Foote

And so it's like every year goes back and forth with the standard.

0:27:32.440 --> 0:27:33.160

Peter Foote

Yeah.

0:27:33.870 --> 0:27:34.570

Peter Foote

Yep.

0:27:35.420 --> 0:27:35.710

Peter Foote

OK.

0:27:35.720 --> 0:27:36.360

Peter Foote

Thank you.

0:27:36.780 --> 0:27:37.980

Peter Foote

Good morning. Morning.

0:27:41.830 --> 0:27:42.990

Peter Foote

Getting find something new.

0:27:43.0 --> 0:27:43.540

Peter Foote

OK.

0:27:44.40 --> 0:27:44.220

Peter Foote

Yeah.

0:27:44.230 --> 0:27:44.640

Peter Foote

Yeah.

0:27:44.690 --> 0:27:45.630

Peter Foote

OK, just playing games.

0:27:46.900 --> 0:27:47.570

Peter Foote

OK.

0:27:47.640 --> 0:28:3.700

Peter Foote

Then I think the email for something you're working today and how we look at things that affect HTFS different, told you she was partially well, no, he's not because it was under the old number.

0:28:3.710 --> 0:28:5.130

Peter Foote

Yeah, you know how to do it or help.

0:28:5.140 --> 0:28:6.600

Peter Foote

Yeah, yeah.

0:28:6.640 --> 0:28:7.370

Peter Foote

HCSS.

0:28:7.380 --> 0:28:8.820

Peter Foote

No, I've never been right.

0:28:8.830 --> 0:28:9.50

Peter Foote

Right.

0:28:9.190 --> 0:28:10.810

Peter Foote

We didn't hear was the paper second.

0:28:13.450 --> 0:28:16.370

Peter Foote

Ask learning nothing.

0:28:20.480 --> 0:28:21.630

Peter Foote

I don't think they could do that.

0:28:21.680 --> 0:28:25.70

Peter Foote

I have come here to open the slider, but the place they're out? Yeah.

0:28:25.110 --> 0:28:29.80

Peter Foote

Or in town, plug their vaporizer if personal Archbishop.

0:28:30.150 --> 0:28:31.820

Peter Foote

You. Yeah.

0:28:31.830 --> 0:28:35.200

Peter Foote

Bucking melonia, she says.

0:28:41.820 --> 0:28:43.330

Peter Foote

OK, we got this.

0:28:52.120 --> 0:28:52.640

Peter Foote

7:00 AM.

0:29:4.490 --> 0:29:4.660

Peter Foote

But.

0:29:22.520 --> 0:29:22.850

Peter Foote

Hello.

0:29:22.960 --> 0:29:23.410

Peter Foote

Good morning.

0:29:23.870 --> 0:29:24.290

Peter Foote

There you go.

0:29:24.460 --> 0:29:27.130

Peter Foote

See everything Mr Rajiv was very well.

0:29:27.140 --> 0:29:27.370

Peter Foote

Thanks.

0:29:28.520 --> 0:29:30.810

Peter Foote

Got added some very little since they California.

0:29:31.30 --> 0:29:32.600

Peter Foote

I want this talking right now.

0:29:32.610 --> 0:29:33.0

Peter Foote

Yeah.

0:29:33.10 --> 0:29:36.960

Peter Foote

So that is the this this steps that need that's important.

0:29:37.480 --> 0:29:37.850

Peter Foote

I wasn't.

0:29:38.160 --> 0:29:43.990

Peter Foote

Yeah, like, you know, 9:00 AM working with paradise while I'm watching the scenes.

0:29:56.440 --> 0:29:59.740

Peter Foote

Yeah, two, you know, dark.

0:30:10.240 --> 0:30:13.300

Peter Foote

Also, we have the way they're happy for break, even set up.

0:30:13.400 --> 0:30:15.830

Peter Foote

It's got a little there.

0:30:16.640 --> 0:30:16.960

Peter Foote

Different.

0:30:16.970 --> 0:30:19.360

Peter Foote

Just don't put great.

0:30:19.460 --> 0:30:21.0

Peter Foote

Look, you said you don't have.

0:30:21.10 --> 0:30:23.50

Peter Foote

It will be working on.

0:30:23.200 --> 0:30:24.20

Peter Foote

Let me you know what?

0:30:24.30 --> 0:30:24.340

Peter Foote

Yeah.

0:30:24.350 --> 0:30:25.40

Peter Foote

Let me come here also.

0:30:25.280 --> 0:30:26.430

Peter Foote

You're not going to get it back.

0:30:26.610 --> 0:30:27.50

Peter Foote

Yeah.

0:30:27.110 --> 0:30:28.270

Peter Foote

OK, it's not there.

0:30:30.980 --> 0:30:31.260

Peter Foote

Even.

0:30:33.150 --> 0:30:33.340

Peter Foote

Yeah.

0:30:36.390 --> 0:30:36.720

Peter Foote

Ready.

0:30:36.900 --> 0:30:37.980

Peter Foote

She asked me to sign off.

0:30:41.100 --> 0:30:45.440

Peter Foote

And then this you can set it up OK.

0:30:45.450 --> 0:30:45.930

Peter Foote
I will do that.

0:30:47.690 --> 0:30:50.980

Peter Foote
Yeah, I will give them complaining.

0:30:51.730 --> 0:30:54.950

Peter Foote
I will give him a chair and.

0:30:57.690 --> 0:31:6.660

Peter Foote
That at the new estimator that I kept the people card you want to carry one power.

0:31:7.310 --> 0:31:9.940

Peter Foote
And so I would like to do probably.

0:31:15.170 --> 0:31:15.380

Peter Foote
Right.

0:31:15.680 --> 0:31:21.990

Peter Foote
I thought they last night and then I was like, wait, there's nothing too.

0:31:22.460 --> 0:31:24.60

Peter Foote
So one thing I will mention.

0:31:26.430 --> 0:31:28.430

Peter Foote
There is the process of managing.

0:31:31.380 --> 0:31:31.570

Peter Foote
So.

0:31:33.480 --> 0:31:34.30

Peter Foote
Decrease.

0:31:34.850 --> 0:31:37.600

Peter Foote
It won't be showing up that search, yeah.

0:31:39.720 --> 0:31:41.290

Peter Foote

You don't like, alright?

0:32:38.530 --> 0:32:39.180

Peter Foote

Yeah, it's nice.

0:32:40.350 --> 0:32:41.710

Peter Foote

I thought of that we need to.

0:32:44.440 --> 0:32:44.820

Peter Foote

Yeah.

0:33:9.370 --> 0:33:12.770

Peter Foote

Reminder, you know 9:30 last night to make sure give you a call back.

0:33:12.780 --> 0:33:13.10

Peter Foote

I'll call.

0:33:17.850 --> 0:33:18.390

Peter Foote

OK.

0:33:18.400 --> 0:33:19.80

Peter Foote

Have Friday.

0:33:19.170 --> 0:33:20.200

Peter Foote

OK. OK.

0:33:21.400 --> 0:33:25.130

Peter Foote

One, how do I find out Arizona tomorrow morning.

0:33:27.30 --> 0:33:28.140

Peter Foote

Because would would.

0:33:28.280 --> 0:33:29.910

Peter Foote

Would you will pop up the page and not?

0:33:36.810 --> 0:33:38.710

Peter Foote

That we want more we're talking about.

0:33:38.720 --> 0:33:39.860

Peter Foote

But anyway, everything good.

0:33:44.630 --> 0:33:45.40

Peter Foote

Don't worry.

0:34:4.540 --> 0:34:4.780

Peter Foote

You know.

0:34:6.580 --> 0:34:8.200

Peter Foote

It's different.

0:36:39.470 --> 0:36:39.850

Peter Foote

Thank you.

0:36:44.370 --> 0:36:44.800

Peter Foote

I did it.

0:37:18.340 --> 0:37:18.710

Peter Foote

Open.

0:37:40.680 --> 0:37:40.870

Peter Foote

Right.

0:37:41.840 --> 0:37:42.230

Peter Foote

I don't know.

0:37:43.870 --> 0:37:44.890

Peter Foote

Got maybe you know.

0:37:49.160 --> 0:37:49.580

Peter Foote

I'll let you know.

0:37:54.290 --> 0:37:54.490

Peter Foote

Yes.

0:42:0.500 --> 0:42:0.660

Peter Foote

Yeah.

0:42:35.240 --> 0:42:35.520

Peter Foote

Thank you.

0:42:47.520 --> 0:42:47.680

Peter Foote

And.

0:42:55.930 --> 0:42:56.60

Peter Foote

OK.

0:43:1.200 --> 0:43:3.200

Peter Foote

I think on the thread.

0:43:7.420 --> 0:43:8.360

Peter Foote

I don't think they will.

0:43:16.170 --> 0:43:16.450

Peter Foote

I'm.

0:43:19.370 --> 0:43:19.560

Peter Foote

It's.

0:43:29.550 --> 0:43:31.240

Peter Foote

Different, that's.

0:43:41.650 --> 0:43:42.660

Peter Foote

Well, no, I got you.

0:43:42.790 --> 0:43:45.370

Peter Foote

But operating yeah, that that should not.

0:43:45.660 --> 0:43:48.110

Peter Foote

And this is the problem I'm calling back.

0:43:48.220 --> 0:43:48.610

Peter Foote

Yeah.

0:43:49.620 --> 0:43:49.870

Peter Foote

It's.

0:43:50.30 --> 0:43:53.850

Peter Foote

I'm not there going under.

0:44:0.210 --> 0:44:0.580

Peter Foote

I don't think.

0:44:5.290 --> 0:44:5.940

Peter Foote

But yeah.

0:44:12.40 --> 0:44:13.50

Peter Foote

Ohh thank you.

0:44:21.60 --> 0:44:26.200

Peter Foote

It just feels so because now I mean.

0:44:36.360 --> 0:44:36.630

Peter Foote

I don't.

0:44:50.780 --> 0:44:51.330

Peter Foote

I know, OK.

0:44:58.460 --> 0:44:59.680

Peter Foote

No, but that's.

0:46:19.960 --> 0:46:20.230

Peter Foote

Yes.

0:46:32.30 --> 0:46:33.380

Peter Foote

Yeah, right.

0:46:52.580 --> 0:46:52.780

Peter Foote

Yeah.

0:47:18.50 --> 0:47:19.720

Peter Foote

I haven't what's up?

0:47:21.870 --> 0:47:22.40

Peter Foote

Yep.

0:47:26.650 --> 0:47:30.280

Peter Foote

I like in the morning this is maybe.

0:47:31.220 --> 0:47:32.680

Peter Foote

I love you.

0:47:50.10 --> 0:47:50.510

Peter Foote

Everyone.

0:48:1.130 --> 0:48:1.910

Peter Foote

That's another thing.

0:48:5.290 --> 0:48:5.670

Peter Foote

Got it.

0:48:7.850 --> 0:48:8.280

Peter Foote

Different.

0:48:13.660 --> 0:48:13.880

Peter Foote

Alright.

0:48:39.680 --> 0:48:42.60

Christopher (Guest)

Well rested for attempting to pray, to open prayer.

0:48:42.70 --> 0:48:44.20

Christopher (Guest)

Book that is in Hebrew on the Temple Mount.

0:48:43.350 --> 0:48:44.190

Peter Foote

The.

0:48:44.30 --> 0:48:48.420

Christopher (Guest)

Only Muslims can propound because he would have had a fatwa in against him.

0:48:48.510 --> 0:49:1.870

Christopher (Guest)

So your argument is actually my argument, which is that if I could not have accepted if he's still offered to him because the only people would have murdered him for having made any sort of physical, which by the way, I agree with, I think that's true of peace, state of peace deal that gave up the Temple Mount.

0:49:1.880 --> 0:49:2.770

Christopher (Guest)

And I would not lie there.

0:49:2.780 --> 0:49:3.620

Christopher (Guest)

That's that's that. OK.

0:49:3.630 --> 0:49:8.900

Christopher (Guest)

So the the, the the idea that first of all we should point out that haven't been on the temple multiple times.

0:49:9.330 --> 0:49:12.300

Christopher (Guest)

These have tried I dressed up as a Muslim to try and get them to the temple Mount.

0:49:12.520 --> 0:49:15.400

Christopher (Guest)

Well, you this by the way you.

0:49:19.580 --> 0:49:23.710

Christopher (Guest)

If, if, if, if, if you if you'd like to hook up, I can make it happen.

0:49:23.840 --> 0:49:24.630

Christopher (Guest)

It's not difficult.

0:49:24.700 --> 0:49:28.580

Christopher (Guest)

You all you have to do is walk up a particular tunnel and you can go out onto the temple.

0:49:28.590 --> 0:49:30.260

Christopher (Guest)

Mount anyone can, but only Muslims can pray.

0:49:31.460 --> 0:49:32.660

Christopher (Guest)

Only Muslims can pray in the temple.

0:49:32.670 --> 0:49:35.30

Christopher (Guest)

Now that is the error in the long day it was an open to.

0:49:37.980 --> 0:49:38.180

Peter Foote

Sure.

0:49:35.40 --> 0:49:39.230

Christopher (Guest)

Following this I mean I tried to tell it it is fact of the matter.

0:49:39.240 --> 0:49:44.70

Christopher (Guest)

I've seen people arrested for attempting to pray, to open a prayer book that is in Hebrew on the Temple Mount.

0:49:44.80 --> 0:49:48.450

Christopher (Guest)

Only Muslims can profound because he would have had a fatwa in against him.

0:49:48.620 --> 0:49:51.20

Christopher (Guest)

So your argument is actually my argument, which is.

0:49:51.30 --> 0:49:51.380

Christopher (Guest)

There aren't.

0:49:51.390 --> 0:49:56.630

Christopher (Guest)

I could not have accepted if he's still offered to him and let me ask you this not be missing, I'm gonna ask you.

0:49:56.640 --> 0:49:56.960

Christopher (Guest)

I'm gonna.

0:49:58.400 --> 0:49:59.50

Christopher (Guest)

I wanna ask you this.

0:49:59.190 --> 0:50:0.710

Christopher (Guest)

I'm just gonna ask you the last question.

0:50:0.720 --> 0:50:6.970

Christopher (Guest)

The same question I asked her which part of Palestine is occupied the entirety of Palestine, period.

0:50:6.980 --> 0:50:7.400

Christopher (Guest)

I'm not.

0:50:7.410 --> 0:50:9.320

Christopher (Guest)

Once again, I appreciate you.

0:50:9.330 --> 0:50:15.200

Christopher (Guest)

I appreciate you expressing your full genocidal intent for the Jewish people living between the genocide state.

0:50:15.210 --> 0:50:16.640

Christopher (Guest)

That is not apartheid.

0:50:16.850 --> 0:50:21.270

Christopher (Guest)

You can have a state where citizens have equal rights, Jews, and that's gonna go.

0:50:21.340 --> 0:50:21.830

Christopher (Guest)

These are the.

0:50:26.580 --> 0:50:27.180

Christopher (Guest)

Let me ask you this.

0:50:32.300 --> 0:50:33.810

Christopher (Guest)

I'm just gonna ask you the last question.

0:50:33.820 --> 0:50:39.510

Christopher (Guest)

The same question I asked her which part of Palestine is occupied the entirety of Palestine?

0:50:41.790 --> 0:50:42.70

Peter Foote

Then.

0:50:40.630 --> 0:50:42.750

Christopher (Guest)

Once again, I appreciate, I appreciate.

0:50:53.50 --> 0:50:54.100

Christopher (Guest)

That was scary.

0:50:58.890 --> 0:50:59.40

Christopher (Guest)

Yeah.

0:51:1.540 --> 0:51:2.110

Christopher (Guest)

I'm uninjured.

0:51:3.500 --> 0:51:4.20

Christopher (Guest)

Uninjured.

0:51:2.650 --> 0:51:4.130

Peter Foote

Like I want people.

1:21:4.710 --> 1:21:5.320

1:37:14.910 --> 1:37:18.690
f4062337-cefb-43b1-9412-9bafdceb0869
Hearing none, I'd entertain a motion for approval news.

f4062337-cefb-43b1-9412-9bafdceb0869
I'm Logan Logan.

f4062337-cefb-43b1-9412-9bafdceb0869
Thank you.

1:37:27.280 --> 1:37:28.610
f4062337-cefb-43b1-9412-9bafdceb0869
Alright, any other discussion?

1:37:29.570 --> 1:37:31.350
f4062337-cefb-43b1-9412-9bafdceb0869
All those in favor, please say aye.

Aye.

1:37:32.660 --> 1:37:35.460
f4062337-cefb-43b1-9412-9bafdceb0869
Anyone opposed motion carries.

1:37:35.470 --> 1:37:35.810
f4062337-cefb-43b1-9412-9bafdceb0869
Thank you.

1:37:36.660 --> 1:37:40.660
f4062337-cefb-43b1-9412-9bafdceb0869
OK, now I'd like to turn towards our legal counsel, Alan Dowd.

1:37:41.240 --> 1:37:43.30

f4062337-cefb-43b1-9412-9bafdceb0869

There's two items for closed sessions.

1:37:43.180 --> 1:37:47.270

f4062337-cefb-43b1-9412-9bafdceb0869

That versus negotiations concerning water, right permit terms and conditions.

1:37:47.740 --> 1:37:55.430

f4062337-cefb-43b1-9412-9bafdceb0869

The second is conference with real property negotiators concerning the APN's in Colusa County listed in the agenda.

1:37:55.440 --> 1:38:5.920

f4062337-cefb-43b1-9412-9bafdceb0869

Agenda the agency negotiators are Jerry Brown and Kevin Sesser to negotiating parties structurally, Jensen and and what is under negotiation or price in terms of.

1:38:8.700 --> 1:38:9.310

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you.

1:38:10.280 --> 1:38:14.530

f4062337-cefb-43b1-9412-9bafdceb0869

OK, now next on our agenda will be the period for public comment.

1:38:14.640 --> 1:38:23.520

f4062337-cefb-43b1-9412-9bafdceb0869

So if you would like to address the board for any issue other than item 2.1, which is the EIREIS now would be the time for you to.

1:38:25.160 --> 1:38:25.540

f4062337-cefb-43b1-9412-9bafdceb0869

Uh.

1:38:26.120 --> 1:38:29.850

f4062337-cefb-43b1-9412-9bafdceb0869

Present yourself or online as well you know.

1:38:30.920 --> 1:38:31.270

f4062337-cefb-43b1-9412-9bafdceb0869

I'll do.

1:38:31.280 --> 1:38:31.860

f4062337-cefb-43b1-9412-9bafdceb0869

I'll help you too.

1:38:36.300 --> 1:38:44.420

f4062337-cefb-43b1-9412-9bafdceb0869

Alright, seeing and hearing none, I will close this particular period of public comment, reserving the item 2.1.

1:38:46.220 --> 1:38:49.640

f4062337-cefb-43b1-9412-9bafdceb0869

Alright, next item will be considered OK.

1:38:49.650 --> 1:38:50.560

f4062337-cefb-43b1-9412-9bafdceb0869

Reservoir committee.

1:38:50.570 --> 1:38:56.20

f4062337-cefb-43b1-9412-9bafdceb0869

Would anybody like to pulling items off of the consent agenda, and if not, motion to approve?

1:38:58.630 --> 1:38:59.200

f4062337-cefb-43b1-9412-9bafdceb0869

Almost there.

1:38:59.210 --> 1:38:59.490

f4062337-cefb-43b1-9412-9bafdceb0869

Proof.

1:39:0.170 --> 1:39:2.490

f4062337-cefb-43b1-9412-9bafdceb0869

And we have a motion a second second.

1:39:4.50 --> 1:39:6.870

f4062337-cefb-43b1-9412-9bafdceb0869

The motion and second, all those in favor say aye.

1:39:7.550 --> 1:39:7.960

SC Well Conference Room

Online.

1:39:6.910 --> 1:39:10.0

f4062337-cefb-43b1-9412-9bafdceb0869

Aye, any opposed.

1:39:11.830 --> 1:39:13.590

f4062337-cefb-43b1-9412-9bafdceb0869

Because we're committee recommends approval.

1:39:14.810 --> 1:39:17.400

f4062337-cefb-43b1-9412-9bafdceb0869

I think you joint powers authority.

1:39:19.240 --> 1:39:23.650

f4062337-cefb-43b1-9412-9bafdceb0869

Is there anything that you would like to see from the consent agenda agenda for further discussion?

1:39:27.860 --> 1:39:31.280

f4062337-cefb-43b1-9412-9bafdceb0869

Seeing and hearing none, I'd entertain a motion to approve the consent agenda.

1:39:33.370 --> 1:39:37.180

f4062337-cefb-43b1-9412-9bafdceb0869

So moved looks in my Logan, so second.

1:39:40.170 --> 1:39:40.680

f4062337-cefb-43b1-9412-9bafdceb0869

Take talk.

1:39:41.360 --> 1:39:42.950

f4062337-cefb-43b1-9412-9bafdceb0869

No any other discussion.

1:39:44.310 --> 1:39:46.290

f4062337-cefb-43b1-9412-9bafdceb0869

All those in favor, please say aye, aye.

1:39:48.290 --> 1:39:48.790

f4062337-cefb-43b1-9412-9bafdceb0869

OK.

1:39:48.860 --> 1:39:49.500

f4062337-cefb-43b1-9412-9bafdceb0869

And when I post.

1:39:51.210 --> 1:39:52.100

f4062337-cefb-43b1-9412-9bafdceb0869

Motion carries.

1:39:52.270 --> 1:39:52.880

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you.

1:39:54.170 --> 1:40:0.680

f4062337-cefb-43b1-9412-9bafdceb0869

So that brings us to item 2.1, which is where we consider recommendation.

1:40:2.910 --> 1:40:10.80

f4062337-cefb-43b1-9412-9bafdceb0869

To our board for approval of resolution #2023-2.

1:40:10.570 --> 1:40:12.910

f4062337-cefb-43b1-9412-9bafdceb0869

Now this procedure we are gonna.

1:40:14.280 --> 1:40:18.540

f4062337-cefb-43b1-9412-9bafdceb0869

Uh Ali Forsyth will kind of be our leader through this.

1:40:18.550 --> 1:40:36.740

f4062337-cefb-43b1-9412-9bafdceb0869

She's prepared a presentation of the information about the EIREIS, and then there will be a slide explaining the process in which we will entertain comments from the public and Sarah Katz to my right here, will help us facilitate us through the public comment period.

1:40:37.440 --> 1:40:38.280

f4062337-cefb-43b1-9412-9bafdceb0869

Ally, excellent.

1:40:38.290 --> 1:40:38.870

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you, Mr.

1:40:38.880 --> 1:40:39.250

f4062337-cefb-43b1-9412-9bafdceb0869

Chair.

1:40:39.940 --> 1:40:48.690

f4062337-cefb-43b1-9412-9bafdceb0869

So as the as our chair did note, today we are looking to consider a resolution that's noted here on the screen in front of you.

1:40:48.700 --> 1:40:59.390

f4062337-cefb-43b1-9412-9bafdceb0869

2023 Dash 2 providing for all of the items identified on the screen, functionally finishing out our SQL process and adopting the project.

1:40:59.520 --> 1:41:0.300

f4062337-cefb-43b1-9412-9bafdceb0869

Next slide.

1:41:0.800 --> 1:41:4.690

f4062337-cefb-43b1-9412-9bafdceb0869

So I did what just want to share with folks how we're gonna move through this.

1:41:4.900 --> 1:41:10.850

f4062337-cefb-43b1-9412-9bafdceb0869

So everybody has a sense of kind of what, what the next hour or so is going to look like.

1:41:11.60 --> 1:41:13.240

f4062337-cefb-43b1-9412-9bafdceb0869

We will have a staff presentation first.

1:41:13.830 --> 1:41:15.900

f4062337-cefb-43b1-9412-9bafdceb0869

We'll move through that fairly quickly.

1:41:16.290 --> 1:41:41.180

f4062337-cefb-43b1-9412-9bafdceb0869

We'll then move into public comments when we get into public comments, we'll take those first in the room, then virtual, and then we'll take phone last for those things that don't have the opportunity to raise their virtual hand will we will take those last after that, we'll move into deliberations of our reservoir committee and Authority board and ultimately into their decision, whatever that may be.

1:41:41.230 --> 1:41:49.470

f4062337-cefb-43b1-9412-9bafdceb0869

Next slide, in terms of some more specifics for how to make public comments, just wanted to cover this.

1:41:49.480 --> 1:42:0.40

f4062337-cefb-43b1-9412-9bafdceb0869

If you were in the room and you would like to provide written comments, please provide those two Marcia, she's got her hand up and I'm sure many folks met her as you came in the door.

1:42:0.260 --> 1:42:8.90

f4062337-cefb-43b1-9412-9bafdceb0869

Also, if you'd like to provide verbal comments and you are in the room, please fill out a comment card, a speaker card.

1:42:8.100 --> 1:42:13.230

f4062337-cefb-43b1-9412-9bafdceb0869

Marcia has those and she can get one for you and pass it down if you'd like one.

1:42:13.320 --> 1:42:16.440

f4062337-cefb-43b1-9412-9bafdceb0869

If you want to raise your hands, I'm sure she can pass one through.

1:42:16.900 --> 1:42:20.770

f4062337-cefb-43b1-9412-9bafdceb0869

We'll need that filled out and we'll take those in the order received.

1:42:21.140 --> 1:42:42.310

f4062337-cefb-43b1-9412-9bafdceb0869

Virtual written comments can be emailed to info@sitesproject.org Umm if you're online and you'd like to make a verbal comment, please raise your virtual hand and put your name and email in the chat if you're on the phone and you would like to make a comment, we will take you last.

1:42:42.320 --> 1:42:46.140

f4062337-cefb-43b1-9412-9bafdceb0869

So just wait until prompted, but we will make sure to get there.

1:42:46.230 --> 1:42:56.190

f4062337-cefb-43b1-9412-9bafdceb0869

We do ask that if you represent a tribal government or represent an elected official and would like to make a comment that you let us know so that we can try and take you first.

1:42:56.250 --> 1:43:2.790

f4062337-cefb-43b1-9412-9bafdceb0869

Please overall we ask that comments be limited to three minutes and be relevant to the sequel process.

1:43:3.100 --> 1:43:6.700

f4062337-cefb-43b1-9412-9bafdceb0869

So with that, we will start in on the staff report.

1:43:11.350 --> 1:43:11.940

f4062337-cefb-43b1-9412-9bafdceb0869

Alright.

1:43:12.10 --> 1:43:16.20

f4062337-cefb-43b1-9412-9bafdceb0869

Well, the finally IRES was released back on November 2nd.

1:43:16.30 --> 1:43:20.840

f4062337-cefb-43b1-9412-9bafdceb0869

Just a couple of weeks ago, the Authority board is the sequel lead agency.

1:43:20.850 --> 1:43:24.220

f4062337-cefb-43b1-9412-9bafdceb0869

We are the agency that will own and operate sites.

1:43:24.230 --> 1:43:35.680

f4062337-cefb-43b1-9412-9bafdceb0869

Reservoir reclamation has been our knippa lead agency and a fantastic partner through this process and has conducted the EIS side of the activity today.

1:43:35.690 --> 1:43:48.580

f4062337-cefb-43b1-9412-9bafdceb0869

We are here adopting the EIR under SQL, so a lot of our terminology and our staff report in our findings is exclusive to the ER, because that is the action being taken by this board.

1:43:48.590 --> 1:43:58.720

f4062337-cefb-43b1-9412-9bafdceb0869

Just recognizing that it was released as a joint document, we did get notice out of the environmental document posted on our website recommendations website.

1:43:58.730 --> 1:44:4.900

f4062337-cefb-43b1-9412-9bafdceb0869

It was posted on the state clearinghouse, along with, of course, federal release in the Federal Register.

1:44:5.10 --> 1:44:14.180

f4062337-cefb-43b1-9412-9bafdceb0869

We also provided notice to adjacent land owners and land owners in the project footprint just to make sure that they were well aware that the document was available.

1:44:14.310 --> 1:44:14.840

f4062337-cefb-43b1-9412-9bafdceb0869

Next slide.

1:44:18.770 --> 1:44:21.860

f4062337-cefb-43b1-9412-9bafdceb0869

So the EIR culminates over 20 years of effort.

1:44:21.950 --> 1:44:23.650

f4062337-cefb-43b1-9412-9bafdceb0869

This has been a heck of an effort.

1:44:23.660 --> 1:44:29.430

f4062337-cefb-43b1-9412-9bafdceb0869

DWR started it back in 2001 with the release of a notice of preparation.

1:44:29.440 --> 1:44:40.260

f4062337-cefb-43b1-9412-9bafdceb0869

The authority took that over in 2017 with the supplemental notice of preparation we jointly released with reclamation, a draft environmental document in 2017.

1:44:40.470 --> 1:44:59.980

f4062337-cefb-43b1-9412-9bafdceb0869

After that, the authority took a pretty extensive effort, called our value planning process, to redefine the project to make it more affordable and permissible it really reduced the project footprint to minimize impacts and made the project more affordable for our membership here, as Reservoir Committee members.

1:45:0.260 --> 1:45:9.950

f4062337-cefb-43b1-9412-9bafdceb0869

With that, we revise the entire document and released a revised draft EIR Supplemental draft EIS back in 2021.

1:45:10.300 --> 1:45:18.540

f4062337-cefb-43b1-9412-9bafdceb0869

On that revised draft, we completely redid the document and revised all of it and read recirculated that for review.

1:45:18.670 --> 1:45:25.670

f4062337-cefb-43b1-9412-9bafdceb0869

We received 101 comment letters and approximately 1000 individual substantive comments that slide.

1:45:30.660 --> 1:45:33.790

f4062337-cefb-43b1-9412-9bafdceb0869

So the final ERP provides a robust analysis.

1:45:34.80 --> 1:45:40.520

f4062337-cefb-43b1-9412-9bafdceb0869

We have all of our revisions to the document in volumes one and two and comments and responses and volume three.

1:45:40.800 --> 1:45:46.70

f4062337-cefb-43b1-9412-9bafdceb0869

I've highlighted here just a few key changes that we made between the revised draft and the final.

1:45:46.80 --> 1:45:52.310

f4062337-cefb-43b1-9412-9bafdceb0869

We've changed our preferred alternative, which is now alternative three and allows additional reclamation investment in the project.

1:45:52.530 --> 1:46:1.140

f4062337-cefb-43b1-9412-9bafdceb0869

We've done substantial revisions to our diversion criteria along with revising our modeling, and those revisions are much more protective of fishery.

1:46:1.150 --> 1:46:27.430

f4062337-cefb-43b1-9412-9bafdceb0869

The fishery in the Sacramento River system and in the Delta, and we've made some clarifications and corrections needed and response to comments kind of most notably around water quality where we expanded the analysis quite a bit and really clarified that analysis based on public comments, we did not have any new or substantially greater impacts that would require additional the circulation of the of the environmental document.

1:46:27.440 --> 1:46:32.140

f4062337-cefb-43b1-9412-9bafdceb0869

And we do believe the document meets all of the requirements of Sequa next slide.

1:46:35.240 --> 1:46:49.750

f4062337-cefb-43b1-9412-9bafdceb0869

There's been an extensive outreach effort conducted throughout the development of the document, dating all the way back to 2001 time frame, but really this is focused on the efforts of the authority and reclamation over the last six years.

1:46:49.880 --> 1:47:0.250

f4062337-cefb-43b1-9412-9bafdceb0869

We doing a tremendous outreach effort with our local community and our land owners through our local community work Group Working Group along with one on one and small group discussions with land owners.

1:47:0.520 --> 1:47:14.280

f4062337-cefb-43b1-9412-9bafdceb0869

We've done a lot of outreach to non governmental organizations holding small working groups, talking through issues of concern to the NGO's and working through those, along with a lot of outreach to our sequel responsible and our nipa cooperating agencies.

1:47:14.290 --> 1:47:23.680

f4062337-cefb-43b1-9412-9bafdceb0869

These tend to be our permitting regulatory agencies and of course we've had a number of meetings here at our Joint Reservoir Committee and Authority board meetings.

1:47:24.410 --> 1:47:24.910

f4062337-cefb-43b1-9412-9bafdceb0869

Next slide.

1:47:28.200 --> 1:47:38.690

f4062337-cefb-43b1-9412-9bafdceb0869

So we I wanted to touch on 8052 because as we finish out the final ER and the sequel process, we are finishing out the a B52 process also.

1:47:39.20 --> 1:47:48.650

f4062337-cefb-43b1-9412-9bafdceb0869

So the a B52 outreach efforts through this, we reached out to five try specifically the traditional and cultural affiliation within the project area.

1:47:49.360 --> 1:47:54.410

f4062337-cefb-43b1-9412-9bafdceb0869

We've also reached out to tribes where we may affect changes in flows in the river.

1:47:54.420 --> 1:48:8.740

f4062337-cefb-43b1-9412-9bafdceb0869

So those five tribes, it's in the project area, but a number of tribes beyond that that are located along the American Sacramento and the Feather River system, we are in a B52 consultation with the cache all day.

1:48:8.750 --> 1:48:17.180

f4062337-cefb-43b1-9412-9bafdceb0869

He and the Yocha dehe they did timely respond to the consultation efforts, and that effort has been ongoing since 2017.

1:48:17.590 --> 1:48:24.920

f4062337-cefb-43b1-9412-9bafdceb0869

We have provided them extensive information and data and information that we have on known cultural resources in the valley.

1:48:25.210 --> 1:48:29.470

f4062337-cefb-43b1-9412-9bafdceb0869

We have not received very specific comments in both of the tribes to date.

1:48:29.810 --> 1:48:53.500

f4062337-cefb-43b1-9412-9bafdceb0869

We did recently begin discussions with the Paskenta band of No malarkey Indians and continue to have those discussions with the PASKENTA overall or I believe our IR and the Board's previous commitments reflected continued commitment to work with the tribes throughout the life of the project to really better understand and incorporate them in their perspective.

1:48:53.910 --> 1:48:54.390

f4062337-cefb-43b1-9412-9bafdceb0869

Next slide.

1:48:55.810 --> 1:48:59.660

f4062337-cefb-43b1-9412-9bafdceb0869

So key steps for today and what each one means.

1:48:59.990 --> 1:49:17.680

f4062337-cefb-43b1-9412-9bafdceb0869

Our first step is going to be certification of the final EIR and that means that we have completed the SQL process and we are in compliance with SQL that the board has reviewed and considered the information in the document and it reflects the board's independent analysis.

1:49:18.250 --> 1:49:25.500

f4062337-cefb-43b1-9412-9bafdceb0869

We will then move to adopt the SQL findings that identifies that this completes the environmental review process.

1:49:26.550 --> 1:49:36.700

f4062337-cefb-43b1-9412-9bafdceb0869

It makes findings on contents of the final EIR significant environmental impacts, mitigation measures and alternatives, and why we selected the alternatives we selected.

1:49:37.390 --> 1:50:0.130

f4062337-cefb-43b1-9412-9bafdceb0869

After that, we'll look to adopt the mitigation, monitoring and reporting program that will identify mitigation measures that we are committing to as a board to implement as part of the project and consistent with SB149 that will represent a binding commitment to the governor to implement mitigation measures related to disadvantaged communities that are called for in that legislation.

1:50:0.780 --> 1:50:8.680

f4062337-cefb-43b1-9412-9bafdceb0869

I do wanna note that the mitigation measures reflected in the MMRP are the same as are in the final EIR EIS.

1:50:9.890 --> 1:50:10.350

f4062337-cefb-43b1-9412-9bafdceb0869

Next slide.

1:50:11.760 --> 1:50:15.310

f4062337-cefb-43b1-9412-9bafdceb0869

After that, we'll look to adopt our statement of overriding considerations.

1:50:15.320 --> 1:50:27.390

f4062337-cefb-43b1-9412-9bafdceb0869

This is the reasons why the various social, economic, environmental benefit to the project outweigh those significant impacts that will result significant and unavoidable impacts.

1:50:27.400 --> 1:50:29.110

f4062337-cefb-43b1-9412-9bafdceb0869

Excuse me, that will result to the project.

1:50:29.120 --> 1:50:40.690

f4062337-cefb-43b1-9412-9bafdceb0869

So this is identifying why we think the benefits of this project are greater and important to move forward with in light of the fact that it will result in significant and unavoidable impacts.

1:50:41.290 --> 1:50:46.800

f4062337-cefb-43b1-9412-9bafdceb0869

Well then move to approve the project, deciding whether, and if so how to approve the project.

1:50:46.890 --> 1:51:24.870

f4062337-cefb-43b1-9412-9bafdceb0869

The project, as identified in the find package and approval package is alternative three as evaluated in the final EIR EIS, but we have included the TR W location so we have switched the location of QR personal regulating reservoir for the project findings package and project approval and that is the TROS location is the location that we feel is more operable from an environmental perspective and also from a construction perspective, it actually avoids a significant impact to our paleontological resources.

1:51:26.390 --> 1:51:41.160

f4062337-cefb-43b1-9412-9bafdceb0869

And lastly, we'll give direction to our trustee Executive director to take out a take on a certain number of actions followed findings Cuse ME filing the notice of determination paying fees and then certifying our admin record.

1:51:41.230 --> 1:51:45.100

f4062337-cefb-43b1-9412-9bafdceb0869

This sounds like a lot of steps, but the way we've structured it is that it will.

1:51:45.110 --> 1:51:50.720

f4062337-cefb-43b1-9412-9bafdceb0869

It is all in the resolution, so approval of the resolution will take all six of these steps.

1:51:50.730 --> 1:51:53.20

f4062337-cefb-43b1-9412-9bafdceb0869

We're not going to go through each one individually.

1:51:53.30 --> 1:51:54.510

f4062337-cefb-43b1-9412-9bafdceb0869

We will just approve the resolution.

1:51:55.660 --> 1:52:0.290

f4062337-cefb-43b1-9412-9bafdceb0869

Next slide, I did want to note that we've been preparing for this all year.

1:52:0.640 --> 1:52:4.570

f4062337-cefb-43b1-9412-9bafdceb0869

Eight public briefings have been provided since the beginning of this year alone.

1:52:5.200 --> 1:52:15.980

f4062337-cefb-43b1-9412-9bafdceb0869

Here at our reservoir committee and authority board meetings, of course, we've gone through all of the aspects of the final E IR and our action today throughout these eight public briefings previously.

1:52:16.150 --> 1:52:28.0

f4062337-cefb-43b1-9412-9bafdceb0869

And the public has had an opportunity to make comments at our monthly meetings on the environmental document, again outside of and in addition to the other public comments available out there.

1:52:29.650 --> 1:52:36.540

f4062337-cefb-43b1-9412-9bafdceb0869

Umm, next slide, I wanted to share a little bit about our SB149 application.

1:52:36.550 --> 1:52:43.340

f4062337-cefb-43b1-9412-9bafdceb0869

We were certified by the governor is qualifying for an infrastructure project on November 6th of this year.

1:52:43.790 --> 1:52:57.480

f4062337-cefb-43b1-9412-9bafdceb0869

It does require that the authority makes certain public notices that we're all completed, and it also requires that we make that binding commitment that I mentioned earlier to the governor, and that will be accomplished by adopting the findings and the MMRP.

1:52:57.490 --> 1:53:7.670

f4062337-cefb-43b1-9412-9bafdceb0869

Today we do also need to certify the record within 5 days of the project approval in today's action will delegate that authority to the regional to the Executive Director.

1:53:9.400 --> 1:53:16.530

f4062337-cefb-43b1-9412-9bafdceb0869

Next slide, I wanted just to notice that we've got a couple of comments that came in after release of the final.

1:53:16.720 --> 1:53:24.690

f4062337-cefb-43b1-9412-9bafdceb0869

And so we did receive 2 letters prior to issuance of the board package from the Cachil dehe and from Colusa County.

1:53:24.700 --> 1:53:26.670

f4062337-cefb-43b1-9412-9bafdceb0869

Those were included or I'm sorry.

1:53:26.680 --> 1:53:30.790

f4062337-cefb-43b1-9412-9bafdceb0869
Not Colusa County, Yolo County apologies.

1:53:30.800 --> 1:53:32.850

f4062337-cefb-43b1-9412-9bafdceb0869
There I was on A roll and said the wrong thing.

1:53:32.860 --> 1:53:34.330

f4062337-cefb-43b1-9412-9bafdceb0869
So thank you, Yellow County.

1:53:34.900 --> 1:53:38.890

f4062337-cefb-43b1-9412-9bafdceb0869
Those were included in our board packet and available on our website.

1:53:38.900 --> 1:53:55.370

f4062337-cefb-43b1-9412-9bafdceb0869
We also received 2 letters very recently from the Yocha DEHI and from Contra Costa Water District, and those have been filled out along with responses to our authority board and Reservoir Committee and will be available in our admin record here shortly.

1:53:56.370 --> 1:54:3.740

f4062337-cefb-43b1-9412-9bafdceb0869
And all of these letters raised concerns that we feel have already been addressed in the final ER and in our record of proceedings.

1:54:4.170 --> 1:54:13.770

f4062337-cefb-43b1-9412-9bafdceb0869
We do also note that the CCWD the Contra Costa Water District letter is largely not relevant to the SQL process, but is much more relevant to the water right proceeding.

1:54:15.870 --> 1:54:19.500

f4062337-cefb-43b1-9412-9bafdceb0869
And just a few errata and corrections that were in the board packet.

1:54:19.510 --> 1:54:33.300

f4062337-cefb-43b1-9412-9bafdceb0869
Next slide, we have two minor corrections to the final ER we're we wanted to correct in Chapter 28, it mentions that we sent letters to the tribes and August we ended up not doing that for a variety of reasons.

1:54:33.310 --> 1:54:46.670

f4062337-cefb-43b1-9412-9bafdceb0869
So we wanted to correct that and that is reflected in the board packet and available online along with correcting volume 3D responses to comments, some some water districts were put into ingeo categories.

1:54:46.680 --> 1:54:58.420

f4062337-cefb-43b1-9412-9bafdceb0869

We had a district public agency that was put in as an individual, so we just wanted to correct that briefly and move those organizations into the appropriate category and that was included in the board packet.

1:55:0.300 --> 1:55:1.890

f4062337-cefb-43b1-9412-9bafdceb0869

That concludes Ohh next slide.

1:55:1.940 --> 1:55:3.990

f4062337-cefb-43b1-9412-9bafdceb0869

That concludes my presentation.

1:55:4.320 --> 1:55:8.770

f4062337-cefb-43b1-9412-9bafdceb0869

I think we're happy to take any questions right now from our reservoir committee and authority.

1:55:9.380 --> 1:55:11.940

f4062337-cefb-43b1-9412-9bafdceb0869

We open it up for public comment.

1:55:13.770 --> 1:55:16.490

f4062337-cefb-43b1-9412-9bafdceb0869

Love to hear questions, but I have a couple comments, sure.

1:55:18.630 --> 1:55:33.420

f4062337-cefb-43b1-9412-9bafdceb0869

What kind of to try to put it in a little bit bigger context of of what we're doing today and what's before you, you know, back in December of 2020, we all sat around the table and we developed a strategic plan for the organization.

1:55:33.750 --> 1:55:44.320

f4062337-cefb-43b1-9412-9bafdceb0869

And one of the parts of the strategic plan is establishing a mission statement and emission statement is a supposed to be a concise explanation of what your purpose is.

1:55:44.370 --> 1:55:52.520

f4062337-cefb-43b1-9412-9bafdceb0869

Why do you exist as an organization and and I want to read the mission statement for you from that December 2020 strategic plan.

1:55:52.530 --> 1:55:56.940

f4062337-cefb-43b1-9412-9bafdceb0869

Just to give you a sense of what we're doing here today and why it's so important.

1:55:57.680 --> 1:56:10.940

f4062337-cefb-43b1-9412-9bafdceb0869

The site project authority will build and operate a climate resilience 21st century water storage system to responsibly manage and deliver water, improve the environment and provide flood control and recreational benefits.

1:56:12.200 --> 1:56:17.360

f4062337-cefb-43b1-9412-9bafdceb0869

That is exactly what the project that is proposed for President today does.

1:56:19.80 --> 1:56:21.490

f4062337-cefb-43b1-9412-9bafdceb0869

Does that mean we've accomplished our mission?

1:56:22.280 --> 1:56:28.290

f4062337-cefb-43b1-9412-9bafdceb0869

No, that means we're embarking on a journey to accomplish that mission.

1:56:28.540 --> 1:56:35.510

f4062337-cefb-43b1-9412-9bafdceb0869

A mission statement isn't an end result, and mission statement is an existence of an of an organization over the long term.

1:56:36.60 --> 1:56:38.970

f4062337-cefb-43b1-9412-9bafdceb0869

Today's action is not finality.

1:56:39.360 --> 1:56:45.610

f4062337-cefb-43b1-9412-9bafdceb0869

Today's action is really a start to a journey to fulfilling that mission over the next century.

1:56:47.20 --> 1:56:49.270

f4062337-cefb-43b1-9412-9bafdceb0869

That's what today's action is all about.

1:56:49.420 --> 1:57:23.690

f4062337-cefb-43b1-9412-9bafdceb0869

So I wanted to try to put that into context for you all relative to the the discussions that we've had previously in the direction that you gave to staff in terms of what it was that we wanted to create for our state, for our communities, for our farms, for our environment and make sure that we all understand that and remind ourselves of of that was important then and it's still important today and I'm sure this mission will stay important for those that come after us and are here 100 years from now.

1:57:26.700 --> 1:57:27.910

f4062337-cefb-43b1-9412-9bafdceb0869

So now any questions?

1:57:34.280 --> 1:57:37.990

f4062337-cefb-43b1-9412-9bafdceb0869

I don't see or hear any really. OK, excellent.

1:57:39.430 --> 1:57:40.170

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you, Mr.

1:57:40.180 --> 1:57:43.950

f4062337-cefb-43b1-9412-9bafdceb0869

Chair let's move to our public comment period.

1:57:43.960 --> 1:57:44.700

f4062337-cefb-43b1-9412-9bafdceb0869

Next slide please.

1:57:48.580 --> 1:57:51.460

f4062337-cefb-43b1-9412-9bafdceb0869

And then we'll go one more slide for public comments.

1:57:51.470 --> 1:57:56.230

f4062337-cefb-43b1-9412-9bafdceb0869

I'm going to hand it over to Sarah Katz, who will walk us through the public comment period.

1:57:56.760 --> 1:57:57.630

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you, Allie.

1:57:57.750 --> 1:58:16.420

f4062337-cefb-43b1-9412-9bafdceb0869

Again, consistent with what has been shared and what we see on the screen here, we're gonna invite those individuals that are in person present here today to the podium first to make their comments, we would like to start with any tribal representatives or elected officials, if any are in the room and have not filled out a speaker's list.

1:58:19.20 --> 1:58:23.850

f4062337-cefb-43b1-9412-9bafdceb0869

And seeing none, I have 7 requests to speak from individuals in the room.

1:58:23.860 --> 1:58:30.310

f4062337-cefb-43b1-9412-9bafdceb0869

If anybody else would still like to do so, just see Marcia and you can fill out a slip and we'd be happy to have you come to the podium.

1:58:31.60 --> 1:58:37.820

f4062337-cefb-43b1-9412-9bafdceb0869

OK, so for the first individual we have a marked Milner, Moliner, Mulliner Mulliner and you have 3 minutes Mark.

1:58:37.830 --> 1:58:38.320

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you.

1:58:38.880 --> 1:58:40.740

f4062337-cefb-43b1-9412-9bafdceb0869

Umm, I can talk for five.

1:58:40.750 --> 1:58:43.660

f4062337-cefb-43b1-9412-9bafdceb0869

So you better push the button you know.

1:58:43.670 --> 1:58:44.700

f4062337-cefb-43b1-9412-9bafdceb0869

Good morning everyone.

1:58:44.710 --> 1:58:49.320

f4062337-cefb-43b1-9412-9bafdceb0869

My name is Mark Mullen and I'm here on behalf of the State Building and Construction Trades Council of California.

1:58:49.460 --> 1:59:2.890

f4062337-cefb-43b1-9412-9bafdceb0869

We represent 500,000 union members and 83,000 state accredited apprenticeship apprentices and 70% of those identify as as brown and or mixed.

1:59:2.900 --> 1:59:12.0

f4062337-cefb-43b1-9412-9bafdceb0869

So we are very, very instrumental in in building relationships and and bringing in and working with commit communities.

1:59:12.560 --> 1:59:19.30

f4062337-cefb-43b1-9412-9bafdceb0869

The reason why I'm here this morning is because we've got a call that there might be a lot of enviros here that want that want to go against the project.

1:59:19.40 --> 1:59:35.830

f4062337-cefb-43b1-9412-9bafdceb0869

So you know, we came to support the project, so I want to put it on record that the State Building trades supports this project and I'm going to tell you why we've been here behind the scenes for 10 years working James Gallagher, my previous President of the State Building trades, Robbie Hunter.

1:59:35.990 --> 1:59:41.230

f4062337-cefb-43b1-9412-9bafdceb0869

And then of course, Andrew, Meredith and Andrew and I were here from the very beginning in this room.

1:59:41.640 --> 1:59:49.760

f4062337-cefb-43b1-9412-9bafdceb0869

Well, actually, before you own this building, we are here and we are dedicated to have a skilled and trained workforce working on this project.

1:59:49.770 --> 1:59:52.260

f4062337-cefb-43b1-9412-9bafdceb0869

We believe we are part of the mission statement.

1:59:52.710 --> 1:59:53.980

f4062337-cefb-43b1-9412-9bafdceb0869

That was a very good Jerry.

1:59:53.990 --> 1:59:55.280

f4062337-cefb-43b1-9412-9bafdceb0869

I love that mission statement.

1:59:55.730 --> 2:0:3.580

f4062337-cefb-43b1-9412-9bafdceb0869

Every one of these affiliates, we make up a 14 affiliates and we have the best training programs and the best training facilities in the world.

2:0:3.800 --> 2:0:26.730

f4062337-cefb-43b1-9412-9bafdceb0869

California building trades is the largest building trades in the whole United States, and when it comes to apprentices and it comes to trained and skilled Craftsman, nobody cannot do these people and we wanted to come here today to introduce ourselves and we formally haven't done that and that's where we wanna talk about anybody here that wants to talk about their training programs and or what they do for the local community.

2:0:26.980 --> 2:0:28.950

f4062337-cefb-43b1-9412-9bafdceb0869

I can tell you that I lived inclusive county.

2:0:28.960 --> 2:0:31.150

f4062337-cefb-43b1-9412-9bafdceb0869

I ran a large construction company.

2:0:31.400 --> 2:0:36.760

f4062337-cefb-43b1-9412-9bafdceb0869

We employed 40 people out at the airport from 07 to 2010.

2:0:37.290 --> 2:0:39.820

f4062337-cefb-43b1-9412-9bafdceb0869

Umm, I built Maxwell powerhouse.

2:0:39.830 --> 2:0:41.370

f4062337-cefb-43b1-9412-9bafdceb0869

I was a general Superintendent out there.

2:0:41.380 --> 2:0:43.430

f4062337-cefb-43b1-9412-9bafdceb0869

We brought in more local people.

2:0:43.440 --> 2:0:56.420

f4062337-cefb-43b1-9412-9bafdceb0869

We we believe in bringing in local people our apprenticeship programs, specifically MC3 goes out and tries to work with the local schools and the local communities to bring people into these programs.

2:0:57.370 --> 2:1:1.610

f4062337-cefb-43b1-9412-9bafdceb0869

This project has been a long time in the making, but it's going to happen.

2:1:2.920 --> 2:1:6.520

f4062337-cefb-43b1-9412-9bafdceb0869

And we now now self know that it's gonna happen.

2:1:6.570 --> 2:1:13.480

f4062337-cefb-43b1-9412-9bafdceb0869

And so the effort that our affiliate and the promise that the State Building trade is making is there's nobody gonna outdo us.

2:1:13.550 --> 2:1:18.360

f4062337-cefb-43b1-9412-9bafdceb0869

There's nobody gonna outwork us when it comes to bringing in and working with local people.

2:1:19.310 --> 2:1:22.900

f4062337-cefb-43b1-9412-9bafdceb0869

These jobs are these jobs should be union middle class.

2:1:22.990 --> 2:1:29.600

f4062337-cefb-43b1-9412-9bafdceb0869

Come into our programs top paid and the best programs, which is what the taxpayer should get.

2:1:29.810 --> 2:1:43.360

f4062337-cefb-43b1-9412-9bafdceb0869

They should get the highest skilled best bang for their buck, and that's the building trades and I just want to say that it's an honor to be here representing the State Building trades, being here with my affiliates, we actually work for our affiliates.

2:1:44.50 --> 2:1:45.200

f4062337-cefb-43b1-9412-9bafdceb0869

They don't work for us.

2:1:45.630 --> 2:1:47.0

f4062337-cefb-43b1-9412-9bafdceb0869

I just want to say thank you.

2:1:47.10 --> 2:1:47.670

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you so much.

2:1:49.250 --> 2:1:50.340

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you for your comments.

2:1:50.570 --> 2:1:52.510
f4062337-cefb-43b1-9412-9bafdceb0869
Our next speaker, Casey tall.

2:1:58.290 --> 2:1:59.220
f4062337-cefb-43b1-9412-9bafdceb0869
Morning, everybody.

2:1:59.320 --> 2:2:0.620
f4062337-cefb-43b1-9412-9bafdceb0869
Again, I'm Casey toll.

2:2:0.630 --> 2:2:4.720
f4062337-cefb-43b1-9412-9bafdceb0869
I'm a district Rep for Local 3, the operating engineers.

2:2:4.730 --> 2:2:10.260
f4062337-cefb-43b1-9412-9bafdceb0869
Our offices in Yuba City just wanted to tell you a little bit about us and some of our experience with local hire.

2:2:10.810 --> 2:2:13.830
f4062337-cefb-43b1-9412-9bafdceb0869
So in our local we have 40,000 members.

2:2:13.840 --> 2:2:16.400
f4062337-cefb-43b1-9412-9bafdceb0869
We cover three states in my district.

2:2:16.410 --> 2:2:18.600
f4062337-cefb-43b1-9412-9bafdceb0869
We have about 2200 Members.

2:2:19.370 --> 2:2:30.700
f4062337-cefb-43b1-9412-9bafdceb0869
Most of them residing in Yuba, Sutter Colusa, Glenn County and Butte County, we have a lot of experience with water projects, building dams, levy work, all kinds of stuff like that.

2:2:30.950 --> 2:2:32.540
f4062337-cefb-43b1-9412-9bafdceb0869
Have apprenticeship programs.

2:2:33.250 --> 2:2:35.100
f4062337-cefb-43b1-9412-9bafdceb0869
We have a skilled and trained workforce.

2:2:35.150 --> 2:2:47.311
f4062337-cefb-43b1-9412-9bafdceb0869

We try real hard and make an effort and bring in local people into our apprenticeship programs so that the money that is made on these projects stays in the Community and then they have a career to go to.

2:2:48.960 --> 2:2:51.40

f4062337-cefb-43b1-9412-9bafdceb0869

We have, it's probably.

2:2:53.280 --> 2:3:1.450

f4062337-cefb-43b1-9412-9bafdceb0869

8000 people here locally in California with the Sacramento area operating equipment that do all this kind of work.

2:3:1.460 --> 2:3:11.250

f4062337-cefb-43b1-9412-9bafdceb0869

So again, I just wanted to talk a little bit about our programs and our skilled and training programs and our apprenticeship programs and what we do for the community.

2:3:11.440 --> 2:3:17.90

f4062337-cefb-43b1-9412-9bafdceb0869

Everything that we do is for the communities, all the money that's made, all these projects stays in the community.

2:3:17.100 --> 2:3:18.90

f4062337-cefb-43b1-9412-9bafdceb0869

So thank you.

2:3:19.320 --> 2:3:19.990

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you.

2:3:20.380 --> 2:3:22.260

f4062337-cefb-43b1-9412-9bafdceb0869

Our next speaker, John tweet.

2:3:29.110 --> 2:3:30.150

f4062337-cefb-43b1-9412-9bafdceb0869

Good morning everybody.

2:3:30.790 --> 2:3:32.240

f4062337-cefb-43b1-9412-9bafdceb0869

My name is John Tweed.

2:3:32.250 --> 2:3:37.940

f4062337-cefb-43b1-9412-9bafdceb0869

I am the regional director for District Council, 16 painters, Glaziers and allied trade.

2:3:38.150 --> 2:3:45.200

f4062337-cefb-43b1-9412-9bafdceb0869

I'm also president of the Mid Valley Building trades, which is the building trades will be working on this project along with the Northeastern building trades.

2:3:45.910 --> 2:3:53.960

f4062337-cefb-43b1-9412-9bafdceb0869

I will talk directly about what District Council 16 does and how we train apprentices and what we offer.

2:3:54.780 --> 2:4:0.410

f4062337-cefb-43b1-9412-9bafdceb0869

Uh, we offer glazing, which is glass drywall finishing and painting.

2:4:0.780 --> 2:4:2.340

f4062337-cefb-43b1-9412-9bafdceb0869

The key to this is the painting.

2:4:2.600 --> 2:4:7.50

f4062337-cefb-43b1-9412-9bafdceb0869

We are certified with all of the special coatings to our industrial paintings.

2:4:7.300 --> 2:4:13.500

f4062337-cefb-43b1-9412-9bafdceb0869

Right now we're working on a lot of redo, a lot of refineries, bridges and repaints of tanks.

2:4:13.540 --> 2:4:21.210

f4062337-cefb-43b1-9412-9bafdceb0869

So we understand what it takes to make sure that the projects done correctly and per specifications.

2:4:21.760 --> 2:4:24.660

f4062337-cefb-43b1-9412-9bafdceb0869

One of the keys that I really want to bring out though is local hire.

2:4:25.510 --> 2:4:31.400

f4062337-cefb-43b1-9412-9bafdceb0869

Our goal is to make sure that the dollar stay in your communities in all of our communities.

2:4:31.750 --> 2:4:32.820

f4062337-cefb-43b1-9412-9bafdceb0869

I grew up in Red Bluff.

2:4:32.830 --> 2:4:36.160

f4062337-cefb-43b1-9412-9bafdceb0869

Graduated Red Bluff High started an apprenticeship.

2:4:36.490 --> 2:4:45.80

f4062337-cefb-43b1-9412-9bafdceb0869

Worked in the field became a business Rep, then a regional director, and then also was elected President of the Mid Valley Building Trades.

2:4:45.570 --> 2:5:0.860

f4062337-cefb-43b1-9412-9bafdceb0869

The real key is for us, for the the trades, to get out, help support the community, build relationships and make sure that the jobs are local and that we train and we keep those local dollars in the area.

2:5:1.360 --> 2:5:2.220

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you very much.

2:5:3.900 --> 2:5:4.610

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you, John.

2:5:5.120 --> 2:5:7.760

f4062337-cefb-43b1-9412-9bafdceb0869

Our next speaker is Matt Goody.

2:5:11.790 --> 2:5:12.330

f4062337-cefb-43b1-9412-9bafdceb0869

Good morning.

2:5:12.640 --> 2:5:13.610

f4062337-cefb-43b1-9412-9bafdceb0869

My name is Matt Goody.

2:5:13.620 --> 2:5:17.750

f4062337-cefb-43b1-9412-9bafdceb0869

I'm the business manager of local Union 22A, plumbers and pipe fitters.

2:5:18.220 --> 2:5:25.160

f4062337-cefb-43b1-9412-9bafdceb0869

We've been training our members in Yuba Sutter counties for over 107 years, so I'm here today.

2:5:25.170 --> 2:5:27.0

f4062337-cefb-43b1-9412-9bafdceb0869

I'm resident of Revlon off.

2:5:27.40 --> 2:5:41.320

f4062337-cefb-43b1-9412-9bafdceb0869

I've been a resident of revloc my whole life, so I've been witness to the adverse impacts that the lack of water storage that we've had in California for a number of years adversely impact the local communities.

2:5:44.680 --> 2:5:52.330

f4062337-cefb-43b1-9412-9bafdceb0869

Last year, Shasta Lake reached a critical low point because of the, in my opinion, the the lake was overdrafted.

2:5:52.760 --> 2:5:58.310

f4062337-cefb-43b1-9412-9bafdceb0869

This project will help mitigate that, which will obviously have a positive impact on the river system.

2:5:58.620 --> 2:6:3.70

f4062337-cefb-43b1-9412-9bafdceb0869

The temperature of that water coming down the Sacramento River last year was was very high.

2:6:3.670 --> 2:6:6.800

f4062337-cefb-43b1-9412-9bafdceb0869

Umm, also adversely affecting the salmon population.

2:6:6.810 --> 2:6:13.60

f4062337-cefb-43b1-9412-9bafdceb0869

So environmentally, this is a project that is, in my opinion, benefits the state greatly.

2:6:13.390 --> 2:6:24.480

f4062337-cefb-43b1-9412-9bafdceb0869

It's been a long time coming and also by taking the water out during high flows, we're also lessening the environmental impact of floods on on the local areas.

2:6:25.50 --> 2:6:34.220

f4062337-cefb-43b1-9412-9bafdceb0869

So and there's I have 103 members, and between Yuba, Sutter team inclusive Glenn counties, that would be benefactors of this project.

2:6:34.790 --> 2:6:38.760

f4062337-cefb-43b1-9412-9bafdceb0869

So I'm strongly encouraged to the board to approve this.

2:6:39.170 --> 2:6:39.670

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you.

2:6:39.710 --> 2:6:40.680

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you so much.

2:6:41.30 --> 2:6:42.910

f4062337-cefb-43b1-9412-9bafdceb0869

Our next speaker, Anastasia Allen.

2:6:46.830 --> 2:6:47.540

f4062337-cefb-43b1-9412-9bafdceb0869

Good morning.

2:6:48.330 --> 2:6:49.680

f4062337-cefb-43b1-9412-9bafdceb0869

I'm annastacia Allen.

2:6:49.690 --> 2:6:59.780

f4062337-cefb-43b1-9412-9bafdceb0869

I'm the Agriculture Commissioner, air pollution control officer for Colusa County, and today I stand before you to express my support for this project, this water storage project.

2:6:59.850 --> 2:7:18.610

f4062337-cefb-43b1-9412-9bafdceb0869

If Colusa County learned anything in the drought of 2022, is, Umm, is that water storage is necessary here for everyone in California and everyone in the world benefits from that in 2022 includes county experience, devastating and water allocations.

2:7:19.190 --> 2:7:32.720

f4062337-cefb-43b1-9412-9bafdceb0869

I think that we felt that here that if you want to produce agriculture, you want to produce food that feeds the entire world, that you need soil, you need water and you need sun.

2:7:32.730 --> 2:7:38.40

f4062337-cefb-43b1-9412-9bafdceb0869

When one of those three elements is gone in an instant, you can't produce anything.

2:7:38.50 --> 2:7:43.970

f4062337-cefb-43b1-9412-9bafdceb0869

We produce only 47% of our almost \$1 billion crop here in Colusa County.

2:7:44.110 --> 2:7:53.580

f4062337-cefb-43b1-9412-9bafdceb0869

We are rice, where the number one rice producing county in the state and our rice went down by 80%.

2:7:53.650 --> 2:8:2.380

f4062337-cefb-43b1-9412-9bafdceb0869

Rice is a staple that feeds the world, and water storage is something that is necessary to the existence of human civilization.

2:8:2.390 --> 2:8:5.620

f4062337-cefb-43b1-9412-9bafdceb0869

Civilization, because we haven't figured out how to exist without eating.

2:8:5.830 --> 2:8:10.780

f4062337-cefb-43b1-9412-9bafdceb0869

So if we can, we need to produce food and it's.

2:8:10.790 --> 2:8:22.40

f4062337-cefb-43b1-9412-9bafdceb0869

The number one factor, so from a local level, water storage is absolutely necessary and I'm here to support this because it's for the greater good of the entire world.

2:8:22.350 --> 2:8:23.460

f4062337-cefb-43b1-9412-9bafdceb0869

So thank you.

2:8:23.550 --> 2:8:24.460

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you so much.

2:8:25.70 --> 2:8:26.440

f4062337-cefb-43b1-9412-9bafdceb0869

Our next speaker, Randy Thomas.

2:8:40.360 --> 2:8:41.70

f4062337-cefb-43b1-9412-9bafdceb0869

Good morning.

2:8:41.80 --> 2:8:45.250

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you for giving us the opportunity to be able to come and speak in support of this project.

2:8:45.260 --> 2:8:52.470

f4062337-cefb-43b1-9412-9bafdceb0869

My name is Randy Thomas and I'm the business manager, Boilermakers Local 549 in Pittsburgh, California.

2:8:52.540 --> 2:8:59.960

f4062337-cefb-43b1-9412-9bafdceb0869

We have 713 Members in California and only have about three Members in this area and a lot of that is due to opportunities.

2:9:0.930 --> 2:9:19.750

f4062337-cefb-43b1-9412-9bafdceb0869

If we do a lot of outreach as far as trying to bring people in and and provide them with an opportunity to earn a college level degree in, in construction, we primarily work at Boilermaker works in refineries, power plants, water transfer lines and water treatment plants.

2:9:20.500 --> 2:9:30.740

f4062337-cefb-43b1-9412-9bafdceb0869

We're definitely not construction workers who are highly skilled Craftsman with the training regimen that is comparable to an associate's degree in mechanical engineering.

2:9:31.780 --> 2:9:37.860

f4062337-cefb-43b1-9412-9bafdceb0869

Uh, this is a I like the thought of resilience that we spoke about here, right?

2:9:37.870 --> 2:9:58.950

f4062337-cefb-43b1-9412-9bafdceb0869

Resilience as far as water is definitely something that we're looking for to be able to bend and move, but this gives us the opportunity to be able to build resilience into people, to train them and to give them the skills that are required in order to do this project and whatever California's energy and water needs are for the future.

2:9:59.140 --> 2:10:0.740

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you for giving us the time to speak.

2:10:1.220 --> 2:10:1.990

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you so much.

2:10:2.0 --> 2:10:3.440

f4062337-cefb-43b1-9412-9bafdceb0869

Our next speaker, David Guy.

2:10:6.610 --> 2:10:7.130

f4062337-cefb-43b1-9412-9bafdceb0869

Good morning.

2:10:7.180 --> 2:10:9.870

f4062337-cefb-43b1-9412-9bafdceb0869

Chair Durst, members of the authority, and everybody.

2:10:9.880 --> 2:10:10.470

f4062337-cefb-43b1-9412-9bafdceb0869

What a what?

2:10:10.480 --> 2:10:13.50

f4062337-cefb-43b1-9412-9bafdceb0869

A great day to be here to join you in Maxwell today.

2:10:13.650 --> 2:10:16.590

f4062337-cefb-43b1-9412-9bafdceb0869

I'm David guy with Northern California Water association.

2:10:16.600 --> 2:10:47.980

f4062337-cefb-43b1-9412-9bafdceb0869

I have the great pleasure to represent water suppliers and local governments throughout the region, from Sacramento to Redding, Sierra Nevada on the East Coast range on the West is just an amazing region and here today, to just to enthusiastically support the approval and the certification of your your project, I think we have a really nice opportunity here in front of us here in the Sacramento Valley and throughout the state to really work together on this idea of a healthy river and a healthy layout escape.

2:10:48.330 --> 2:10:55.380

f4062337-cefb-43b1-9412-9bafdceb0869

And I think there's a lot of momentum around that and a big part of that idea of healthy river and landscape, of course, is infrastructure.

2:10:55.390 --> 2:11:4.480

f4062337-cefb-43b1-9412-9bafdceb0869

We all know that and there's a lot of work being done through the floodplain coalitions through a lot of work for nature based solutions.

2:11:4.710 --> 2:11:11.240

f4062337-cefb-43b1-9412-9bafdceb0869

But there's also this course imperative for what the state of California is now calling backbone infrastructure.

2:11:11.250 --> 2:11:25.270

f4062337-cefb-43b1-9412-9bafdceb0869

Things like sites reservoir a great off stream reservoir that will really help and I think the movement forward of infrastructure is just such an essential part of this healthy river and landscape concept that I think we're all embracing across the the region.

2:11:26.500 --> 2:11:31.10

f4062337-cefb-43b1-9412-9bafdceb0869

The need for this new asset, I think is pretty pretty obvious in my view.

2:11:31.180 --> 2:11:35.430

f4062337-cefb-43b1-9412-9bafdceb0869

I look around the room and see many of you who are on the website here.

2:11:35.500 --> 2:11:46.750

f4062337-cefb-43b1-9412-9bafdceb0869

What you experienced in 2022 was just mentioned this devastation to communities, disadvantaged communities, farms, a Garter, snakes, fish, birds, the whole suite of things.

2:11:47.0 --> 2:11:51.430

f4062337-cefb-43b1-9412-9bafdceb0869

And I think as a region, we just have to commit that to never let that ever happen again.

2:11:51.680 --> 2:12:6.190

f4062337-cefb-43b1-9412-9bafdceb0869

We cannot let 2022 happen again and how Nice would it have been to have had an environmental water assets sitting in sites reservoir in 2022 to help at least avoid some of those issues that unfortunately we're ahead.

2:12:6.300 --> 2:12:16.410

f4062337-cefb-43b1-9412-9bafdceb0869

We have a lot of work ahead for we for sure, and I think the environmental asset and the water supply asset for many of you in sites will be so valuable as we look to the future in this state.

2:12:17.710 --> 2:12:19.60

f4062337-cefb-43b1-9412-9bafdceb0869

This has been a long journey.

2:12:19.190 --> 2:12:22.480

f4062337-cefb-43b1-9412-9bafdceb0869

Several of you've already mentioned that it's been a long journey for me.

2:12:22.490 --> 2:12:35.300

f4062337-cefb-43b1-9412-9bafdceb0869

I remember vividly talking with state Senator Mike Thompson when he was the chair of the Budget Committee and legislature are talking about rejuvenating sites reservoir at that time. Of course.

2:12:35.310 --> 2:12:40.500

f4062337-cefb-43b1-9412-9bafdceb0869

Now Congressman Thompson and there's been a lot of work along the way.

2:12:40.510 --> 2:12:43.190

f4062337-cefb-43b1-9412-9bafdceb0869

I look around the room and see a lot of colleagues.

2:12:43.200 --> 2:12:54.50

f4062337-cefb-43b1-9412-9bafdceb0869

A lot of folks who have been working so hard at this, and it's just so hard to build anything in California, we know that the man you were on a really nice trajectory and I just really applaud all the efforts in that.

2:12:54.560 --> 2:13:1.470

f4062337-cefb-43b1-9412-9bafdceb0869

I know there's still some critics of the project and I guess my plea to the folks who are critics is please come join us.

2:13:1.480 --> 2:13:14.780

f4062337-cefb-43b1-9412-9bafdceb0869

We are working our tail off for a healthy river, a healthy landscape in this region that includes the communities, the farms, the fish, the wildlife recreation, hydropower, the whole suite of things that you have to have with respect to water.

2:13:14.790 --> 2:13:17.970

f4062337-cefb-43b1-9412-9bafdceb0869

And I just hope that some of the folks who are critics will come and join us.

2:13:17.980 --> 2:13:25.390

f4062337-cefb-43b1-9412-9bafdceb0869

There's a lot of people working hard at this and we'd love to have your support and effort in and making things work out on the ground.

2:13:25.580 --> 2:13:44.110

f4062337-cefb-43b1-9412-9bafdceb0869

So just on behalf of the Northern California Water Association Board of Directors, we unanimously enthusiastically support your efforts moving forward and very much look forward to working and just love the mission, Jerry, that you mentioned because we had this to absolutely share that to mission statement.

2:13:44.120 --> 2:13:46.810

f4062337-cefb-43b1-9412-9bafdceb0869

And thank you graduations, getting here and thank you.

2:13:46.850 --> 2:13:47.770
f4062337-cefb-43b1-9412-9bafdceb0869
Thank you so much.

2:13:48.340 --> 2:13:53.880
f4062337-cefb-43b1-9412-9bafdceb0869
And the last submission that we have for in person input is from Troy.

2:13:54.170 --> 2:13:55.910
f4062337-cefb-43b1-9412-9bafdceb0869
Our arnsten arnson.

2:13:59.930 --> 2:14:2.290
f4062337-cefb-43b1-9412-9bafdceb0869
Good morning and thank you for the opportunity to speak.

2:14:2.950 --> 2:14:3.860
f4062337-cefb-43b1-9412-9bafdceb0869
I am, Stroyan said.

2:14:3.870 --> 2:14:18.40
f4062337-cefb-43b1-9412-9bafdceb0869
I'm a 30 year member of the Ironworkers Local 118 and an avid fisherman, so to to two reasons why I support this project, I represent iron workers from Modesto, CA all the way to the Oregon border.

2:14:18.50 --> 2:14:19.290
f4062337-cefb-43b1-9412-9bafdceb0869
Border, umm.

2:14:19.640 --> 2:14:34.920
f4062337-cefb-43b1-9412-9bafdceb0869
A day in the life of an ironworker that lives in the North End of the state is waking up at 3:00 o'clock in the morning to drive to Sacramento or the barrier to work and the opportunity to work in their community that they live is is greatly appreciated.

2:14:35.250 --> 2:14:47.740
f4062337-cefb-43b1-9412-9bafdceb0869
Uh for for two reasons that the travel is one of them, but just spend time with their family and be able to to be here and be back at home when they live in this area to see their kids grow up.

2:14:47.750 --> 2:14:49.880
f4062337-cefb-43b1-9412-9bafdceb0869
Is is a huge opportunity.

2:14:49.890 --> 2:15:1.660
f4062337-cefb-43b1-9412-9bafdceb0869
So just on the behalf of the iron workers, I appreciate all the efforts of you guys put through this project and to see it to the finish line would be very beneficial for us.

2:15:1.830 --> 2:15:2.300

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you.

2:15:2.490 --> 2:15:3.400

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you so much.

2:15:3.990 --> 2:15:10.120

f4062337-cefb-43b1-9412-9bafdceb0869

Are there any other individuals here present that would like to speak before we turn our attention to those participating virtually?

2:15:12.510 --> 2:15:19.130

f4062337-cefb-43b1-9412-9bafdceb0869

Seeing none, our first virtual well individual that would like to present is Mike Wade.

2:15:19.140 --> 2:15:20.600

f4062337-cefb-43b1-9412-9bafdceb0869

Mike, if you could unmute yourself.

2:15:23.170 --> 2:15:24.260

f4062337-cefb-43b1-9412-9bafdceb0869

Do I need to do that for you?

2:15:27.0 --> 2:15:27.890

Mike Wade

I think I've got it.

2:15:27.440 --> 2:15:28.30

f4062337-cefb-43b1-9412-9bafdceb0869

Mike, are you there?

2:15:27.900 --> 2:15:28.410

Mike Wade

Can you hear me?

2:15:29.640 --> 2:15:30.20

Mike Wade

Yes, hello.

2:15:29.520 --> 2:15:30.530

f4062337-cefb-43b1-9412-9bafdceb0869

We can thank you.

2:15:31.850 --> 2:15:32.720

Mike Wade

Terrific.

2:15:33.70 --> 2:15:34.200

Mike Wade

Well, thank you, everybody.

2:15:34.310 --> 2:15:34.870

Mike Wade

Good morning.

2:15:34.880 --> 2:15:37.940

Mike Wade

I'm Mike Wade with the California Farm Water coalition.

2:15:38.990 --> 2:15:49.530

Mike Wade

All Californians should have an adequate and dependable water supply, and that includes the farmers who provide a safe, healthy domestic food supply for the 39 million people who live here.

2:15:50.920 --> 2:15:59.270

Mike Wade

Californians often face numerous hurdles, and securing reliable water sources, particularly in times of drought and diminishing groundwater reserves.

2:15:59.820 --> 2:16:3.460

Mike Wade

Forecasters tell us to expect an El Nino weather pattern this winter.

2:16:4.420 --> 2:16:10.600

Mike Wade

If that happens without sights, reservoir California's unprepared to store as much water as we should.

2:16:11.390 --> 2:16:22.760

Mike Wade

If El Nino doesn't occur, it's just one more reminder that we need to do more to capture excess water during wet years and to do so in ways that deliver it to people in cities and towns.

2:16:22.990 --> 2:16:51.180

Mike Wade

The farmers who grow our food and for the environment, slight reservoir presents an opportunity to alleviate some of these challenges by capturing and storing excess winter runoff that would otherwise cause damaging floods or otherwise serve no beneficial use with the storage capacity of up to 1.5 million acre feet, sites frozen were offers a substantial update to California's water infrastructure, ensuring a more resilient water supply system.

2:16:52.250 --> 2:16:58.130

Mike Wade

Since 1982, California has experienced 5 periods with very wet conditions.

2:16:58.690 --> 2:17:6.270

Mike Wade

On average, those wet years delivered 6 million acre feet more water than the annual average over the past 40 years.

2:17:6.720 --> 2:17:12.990

Mike Wade

If sites reservoir had been operational last year, it could have saved 700,000 acre feet of water for the future.

2:17:13.320 --> 2:17:20.220

Mike Wade

The amount it takes to supply 1.4 million families for a year or to irrigate over 184,000 acres of farmland.

2:17:21.860 --> 2:17:26.810

Mike Wade

California will likely experience more drought and flood cycles before this project goes online.

2:17:27.120 --> 2:17:27.640

Mike Wade

Missing.

2:17:27.650 --> 2:17:31.590

Mike Wade

Who knows how many opportunities to store water for future droughts?

2:17:32.880 --> 2:17:38.670

Mike Wade

The sights project will provide flexibility for farm water supplies, offering more dependability.

2:17:38.680 --> 2:17:58.600

Mike Wade

That is essential for sustaining crop production and maintaining the livelihoods of farmers, farmworkers and rural communities by reducing reliance on groundwater, sites will also contribute to restoration and preservation of vital groundwater basins, safeguarding our state's precious water resources for generations to come.

2:18:0.350 --> 2:18:3.580

Mike Wade

Sites Reservoir also provides many environmental benefits.

2:18:4.130 --> 2:18:15.140

Mike Wade

It will enable increase flows and rivers and streams during dry spells, benefiting aquatic systems and endangered species, and it will be available to improve water quality and water supply for urban areas.

2:18:15.690 --> 2:18:21.910

Mike Wade

The project clearly demonstrates its alignment with California's goals of conservation and environmental stewardship.

2:18:23.390 --> 2:18:37.540

Mike Wade

California will likely experience more drought and flood cycles before sites reservoir goes online, missing opportunities to save additional water supplies only by completing this project will all the work finally pay off after decades of hope.

2:18:38.310 --> 2:18:38.690

Mike Wade

Thank you.

2:18:40.260 --> 2:18:40.750

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you, Mike.

2:18:42.20 --> 2:18:44.450

f4062337-cefb-43b1-9412-9bafdceb0869

Our next speaker on my screen, it says water.

2:18:44.460 --> 2:18:46.260

f4062337-cefb-43b1-9412-9bafdceb0869

Konrad, is that accurate?

2:18:47.870 --> 2:18:49.730

Konrad, Water Climate Trust (Guest)

Konrad with water climate trust.

2:18:51.70 --> 2:18:51.400

f4062337-cefb-43b1-9412-9bafdceb0869

OK.

2:18:51.410 --> 2:18:51.850

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you.

2:18:55.410 --> 2:18:55.700

f4062337-cefb-43b1-9412-9bafdceb0869

You have.

2:18:54.500 --> 2:18:57.730

Konrad, Water Climate Trust (Guest)

So yeah, thank you very much again, Konrad, with water climate trust.

2:18:58.420 --> 2:19:1.720

Konrad, Water Climate Trust (Guest)

I am a work work for this organization.

2:19:1.730 --> 2:19:10.300

Konrad, Water Climate Trust (Guest)

I'm also a water right holder in the upper Sacramento River watershed and my subsequent comments address a lot of what has been said already.

2:19:12.900 --> 2:19:13.370

Konrad, Water Climate Trust (Guest)

I didn't.

2:19:13.380 --> 2:19:14.280

Konrad, Water Climate Trust (Guest)

There there are.

2:19:17.110 --> 2:19:18.40

f4062337-cefb-43b1-9412-9bafdceb0869

Alright, Conrad.

2:19:18.590 --> 2:19:20.850

f4062337-cefb-43b1-9412-9bafdceb0869

Cheyenne, if you could just hold the timer for a second.

2:19:20.860 --> 2:19:25.210

f4062337-cefb-43b1-9412-9bafdceb0869

We've got a train going by that I think just giving background noise to Conrad.

2:19:30.160 --> 2:19:34.310

f4062337-cefb-43b1-9412-9bafdceb0869

OK, Conrad, if we wanna restart the timer and Conrad, you can go ahead.

2:19:34.390 --> 2:19:34.750

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you.

2:19:35.560 --> 2:19:36.0

Konrad, Water Climate Trust (Guest)

Umm.

2:19:34.760 --> 2:19:37.230

f4062337-cefb-43b1-9412-9bafdceb0869

I think that background noise is fun now.

2:19:37.460 --> 2:19:37.790

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you.

2:19:38.460 --> 2:19:39.130

Konrad, Water Climate Trust (Guest)

Thank you.

2:19:39.140 --> 2:19:49.590

Konrad, Water Climate Trust (Guest)

Not sure what if that's a sign, what it would be for, but again, I'm a water holder in the upper Sack watershed and the secret document does not adequately consider the no action alternative.

2:19:50.550 --> 2:19:51.50

Konrad, Water Climate Trust (Guest)

Umm.

2:19:51.250 --> 2:19:54.440

Konrad, Water Climate Trust (Guest)

If it had, it would have addressed a lot of what has been raised.

2:19:54.670 --> 2:20:0.320

Konrad, Water Climate Trust (Guest)

The bottom line is there are more cost effective ways to balance water supply and demand.

2:20:1.530 --> 2:20:1.950

Konrad, Water Climate Trust (Guest)

Umm.

2:20:2.10 --> 2:20:19.400

Konrad, Water Climate Trust (Guest)

So whether you're a taxpayer advocate or care about the fisheries and impact, the secret document should have more adequately address these, and specifically the more cost effective ways to balance supply and demand are conservation efficiency, Meadow restoration, basically creating more water and storing more water where it naturally was stored.

2:20:19.410 --> 2:20:28.140

Konrad, Water Climate Trust (Guest)

And the very biggest one, which I'm personally familiar with, is the elimination of waste in the far upper stack where I am an adjudicated water right holder.

2:20:28.150 --> 2:20:34.770

Konrad, Water Climate Trust (Guest)

There are consistently cows standing in 10 inches of water, which is more than they want, more than more than the grass once.

2:20:35.200 --> 2:20:45.290

Konrad, Water Climate Trust (Guest)

Where my family uses water on the acid canal in Redding, which is the first biggest diversion out of the sack under under the dam, there is tremendous waste.

2:20:45.300 --> 2:20:52.920

Konrad, Water Climate Trust (Guest)

You will consistently see yards flooded and again more water being used for flood irrigation than is needed to achieve its purpose.

2:20:53.210 --> 2:20:55.860

Konrad, Water Climate Trust (Guest)

So that is the alternative that needs to be analyzed.

2:20:56.710 --> 2:21:7.300

Konrad, Water Climate Trust (Guest)

It will apply to your water right application where you've got to comply with the reasonable use doctrine in public trust doctrine, which also forces an analysis of alternative ways to achieve the stated goal.

2:21:8.340 --> 2:21:8.940

Konrad, Water Climate Trust (Guest)

Umm.

2:21:9.380 --> 2:21:15.870

Konrad, Water Climate Trust (Guest)

And the other huge issue in the Bay Delta process, instream flow requirements have not been established under existing law.

2:21:15.880 --> 2:21:18.880

Konrad, Water Climate Trust (Guest)

So this is a little bit cart before the horse.

2:21:18.890 --> 2:21:24.390

Konrad, Water Climate Trust (Guest)

The government hasn't yet said how much water must legally stay in the river to comply with the Endangered Species Act and other laws.

2:21:26.40 --> 2:21:33.460

Konrad, Water Climate Trust (Guest)

And finally, the law here is a little squishier, but politically, I don't think any politicians or lawmakers want to be seen as allocating taxpayer money.

2:21:35.300 --> 2:21:40.820

Konrad, Water Climate Trust (Guest)

For pennies on the dollar in terms of acquiring water, this is an extremely expensive project.

2:21:40.830 --> 2:21:47.330

Konrad, Water Climate Trust (Guest)

There are better ways to get more water and to save more water and to conserve more water and basically overall balance supply and demand.

2:21:47.820 --> 2:22:0.730

Konrad, Water Climate Trust (Guest)

Finally, the to all the labor unions who have spoken, I empathize with you, and I believe the the missions of environmentalists, tribes and labor unions are more In Sync than you think.

2:22:1.80 --> 2:22:7.100

Konrad, Water Climate Trust (Guest)

Umm, the kind of conservation efficiency and elimination of waste projects I'm talking about are very labor intensive.

2:22:8.0 --> 2:22:24.260

Konrad, Water Climate Trust (Guest)

I don't have data on it, but I would guess there is more of the money would go to labor as opposed to owners of capital if we did the the kinds of work I'm talking about, it's more distributed, more smart, small scale, more of the money would go to labor than the owners of capital.

2:22:24.270 --> 2:22:26.160

Konrad, Water Climate Trust (Guest)

So please don't approve the secret document.

2:22:26.170 --> 2:22:27.710

Konrad, Water Climate Trust (Guest)

Please analyze alternatives properly.

2:22:29.820 --> 2:22:30.610

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you.

2:22:30.920 --> 2:22:33.200

f4062337-cefb-43b1-9412-9bafdceb0869

Our next speaker is Ashley overhauls.

2:22:37.540 --> 2:22:38.300

Ashley Overhouse

Hi, can you hear me?

2:22:39.410 --> 2:22:40.40

f4062337-cefb-43b1-9412-9bafdceb0869

Yes, we can.

2:22:40.730 --> 2:22:41.40

Ashley Overhouse

Great.

2:22:41.50 --> 2:22:41.740

Ashley Overhouse

Thank you.

2:22:42.540 --> 2:22:46.260

Ashley Overhouse

Hello Ashley Oberhaus, water policy adviser with defenders of wildlife.

2:22:46.270 --> 2:22:49.460

Ashley Overhouse

Thank you so much for the opportunity to give public comment today.

2:22:49.850 --> 2:22:56.520

Ashley Overhouse

On behalf of Defenders, I respectfully request that the board not certify the FTIR nor adopt its related findings and statement.

2:22:56.530 --> 2:23:8.20

Ashley Overhouse

Overriding considerations at this time, the San Francisco Bay Delta ecosystem is in crisis, in large part due to drastic reductions and alterations of river and estuary inflows overall.

2:23:8.30 --> 2:23:17.760

Ashley Overhouse

As currently designed, the proposed sites reservoir would reduce instream flows in Delta outflows, further reducing the abundance and productivity of California's native fish and degrading water quality conditions.

2:23:17.830 --> 2:23:26.620

Ashley Overhouse

The projects final environmental Impact report does not address the majority of the concerns or impacts the proposed project will have on the sensitive and biodiverse ecosystem.

2:23:27.170 --> 2:23:31.740

Ashley Overhouse

First, the FBI or does not fully disclose all the significant environmental impacts due to critical information.

2:23:31.750 --> 2:23:41.30

Ashley Overhouse

Still missing sites authority has had two years to conduct important wetland wildlife and vegetation surveys to provide additional data, as well as include a detailed operations plan.

2:23:42.130 --> 2:23:46.140

Ashley Overhouse

Second, the FBI Dir does not adequately mitigate environmental harms.

2:23:46.270 --> 2:23:51.510

Ashley Overhouse

For example, the FBI still underestimates potential impacts associated with sites induced diversions on the flow.

2:23:51.520 --> 2:24:8.400

Ashley Overhouse

Dependent Sacramento river riparian habitat in June 2023, this board commendably committed to producing calcium 3 modeling analysis, which will hopefully more accurately reveal the true impact of the proposed reservoirs operations and diversions on the Sacramento River, especially in dry and critically dry years.

2:24:8.690 --> 2:24:14.420

Ashley Overhouse

This is important to understand the true impacts that may or may not be mitigated by the Shasta Reservoir cold water pool exchange.

2:24:15.320 --> 2:24:18.630

Ashley Overhouse

3rd the project description and the FBI is still not defined.

2:24:19.90 --> 2:24:31.990

Ashley Overhouse

The Bureau of Reclamation has only committed publicly to investing 16 to 18% in the proposed project, which runs counter to the authorities, new preferred alternative alternative three, which requires 25% investment from the Bureau.

2:24:32.360 --> 2:24:37.100

Ashley Overhouse

This fundamentally changes the operational considerations and therefore required environmental analysis.

2:24:38.40 --> 2:24:41.420

Ashley Overhouse

Finally, there's additional information that is available for sites.

2:24:45.250 --> 2:24:58.310

Ashley Overhouse

EIS documents, for example, the state Water Board is in process of updating the Bay Delta Water Quality control plan to provide increased in stream flows through the Delta and tributaries in order to support imperiled species and improve water quality.

2:24:58.730 --> 2:25:4.860

Ashley Overhouse

In fact, a critical document for phase two, the Bay Delta plan phase two staff report, was released to the public in September.

2:25:5.290 --> 2:25:11.570

Ashley Overhouse

Additionally, new population report suggests that Sacramento River salmon runs are on the brink, including runs that could be on the edge of extinction.

2:25:12.630 --> 2:25:20.160

Ashley Overhouse

The proposed sites project would worsen conditions in the Sacramento River and then the Delta for out migrating salmon, including fall, winter and spring runs.

2:25:20.470 --> 2:25:25.100

Ashley Overhouse

These new dramatic declines could be taken into account in a research document.

2:25:25.430 --> 2:25:35.140

Ashley Overhouse

Again, Many thanks for the consistent engagement and public outreach to this process, to the staff, to

alley and thank you so much for the board for hearing our public comment today and considering our views.

2:25:35.270 --> 2:25:35.840

Ashley Overhouse
Thank you so much.

2:25:38.120 --> 2:25:39.150

f4062337-cefb-43b1-9412-9bafdceb0869
Thank you very much.

2:25:39.520 --> 2:25:42.770

f4062337-cefb-43b1-9412-9bafdceb0869
Our next speaker will be Aaron Wooley.

2:25:50.840 --> 2:25:51.580

f4062337-cefb-43b1-9412-9bafdceb0869
Aaron, are you there?

2:25:53.770 --> 2:25:54.480

Erin Woolley (Sierra Club CA)
Think I'm on.

2:25:55.330 --> 2:25:55.830

Erin Woolley (Sierra Club CA)
Thank you.

2:25:55.840 --> 2:25:56.840

Erin Woolley (Sierra Club CA)
My name is Erin Woolley.

2:25:56.850 --> 2:26:2.630

Erin Woolley (Sierra Club CA)
I'm a senior policy strategist at Sierra Club California, and I appreciate you taking the time to hear our comments today.

2:26:3.110 --> 2:26:10.400

Erin Woolley (Sierra Club CA)
Respectfully, I'm here to request that the sites authority not certify the final ER, additional findings and statements of overriding considerations.

2:26:11.160 --> 2:26:17.770

Erin Woolley (Sierra Club CA)
Sierra Club California is in support of advancing solutions to provide resilient water supplies for Californians and addressing the climate crisis.

2:26:18.80 --> 2:26:21.30

Erin Woolley (Sierra Club CA)
However, these solutions can't come at the expense of water quality.

2:26:21.40 --> 2:26:46.590

Erin Woolley (Sierra Club CA)

Ecologically, culturally and economically important species or ecosystem and public health, the sites project risks making these problems worse, not better for the beta, but healthier river is one that has sufficient and stream flow, so that imperiled fish, including spring run winter run Chinook salmon, longfin smelt, green sturgeon, white sturgeon, delta smelt, and others, can thrive and survive.

2:26:46.600 --> 2:27:11.420

Erin Woolley (Sierra Club CA)

Naturally, these species in the Bay Delta are either listed or proposed for listing and have been experiencing decades of decline due to insufficient instream flows in the Bay Delta watershed this year because of low salmon populations, the salmon fishing industry has been closed entirely for the third time in California's history causes a loss of jobs, economic impact to fishing communities, and others.

2:27:11.650 --> 2:27:15.950

Erin Woolley (Sierra Club CA)

The sites project risks to worsen these crisis for the badalta species.

2:27:17.180 --> 2:27:25.600

Erin Woolley (Sierra Club CA)

The project is proposing to increase unsustainable water diversions in the Sacramento River, and the IRS is under estimated the impacts of those proposed diversions.

2:27:25.760 --> 2:27:37.80

Erin Woolley (Sierra Club CA)

It doesn't accurately account for the state water boards recently updated UM water quality requirements through phase two, which will likely affect sites, diversions and operations.

2:27:37.530 --> 2:27:40.820

Erin Woolley (Sierra Club CA)

I'd also like to note that this meeting in particular is poorly timed.

2:27:41.30 --> 2:27:49.890

Erin Woolley (Sierra Club CA)

Is it's in direct conflict with the state water boards hearing on the adoption of the Phase two Bay Delta plan updates and many folks are struggling to participate in both meetings this morning.

2:27:50.850 --> 2:28:6.460

Erin Woolley (Sierra Club CA)

Umm, I would ask on that respect that the site authority not certify the ER today and holding additional public meeting, so members of the public who are participating in the phase two hearing today can also participate in this process.

2:28:8.640 --> 2:28:16.70

Erin Woolley (Sierra Club CA)

I appreciate you taking the time to hear comments today and for the engagement over the past year as this process continues.

2:28:16.80 --> 2:28:16.380

Erin Woolley (Sierra Club CA)

Thank you.

2:28:18.310 --> 2:28:19.220

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you so much.

2:28:19.490 --> 2:28:21.250

f4062337-cefb-43b1-9412-9bafdceb0869

Our next speaker is Charlie Wilson.

2:28:22.630 --> 2:28:22.870

Charley Wilson (Guest)

Hi.

2:28:22.880 --> 2:28:23.870

Charley Wilson (Guest)

Good morning and thank you.

2:28:23.880 --> 2:28:28.10

Charley Wilson (Guest)

I'm Charlie Wilson, the executive director of the Southern California Water Coalition.

2:28:28.400 --> 2:28:36.730

Charley Wilson (Guest)

We are a broad based coalition of both public and private interest, representing roughly Kern County to the north, to the Mexican border and out of state line.

2:28:37.480 --> 2:28:47.870

Charley Wilson (Guest)

Historically, we have been engaged in a variety of projects, regulations and legal activities around the larger California water resiliency.

2:28:47.880 --> 2:29:4.430

Charley Wilson (Guest)

Obviously, with an eye towards Southern California region, we have engaged though on this particular project that I wanna thank your Executive Director and chairman for engaging our Board of directors on multiple occasions to talk about the project, to talk about its merits, challenges and your subject.

2:29:4.440 --> 2:29:19.230

Charley Wilson (Guest)

Today, the environmental impact we see this in our board voted to engage on this project because we see this not as a silver bullet, but really as a critical element in the future of what California water management is going to look like.

2:29:19.320 --> 2:29:25.550

Charley Wilson (Guest)

Clearly, storage is a critical component of what we're gonna need in the future, and a piece of a larger mosaic.

2:29:26.480 --> 2:29:32.870

Charley Wilson (Guest)

We see this after our review of the documents and of your project to be a once in a generation water.

2:29:33.260 --> 2:29:48.950

Charley Wilson (Guest)

My water project designed, we think the in a real a very well balanced environmental value and water supply all in mind and that's a difficult balancing act we understand to try to achieve you need look no further than the last six years of the whip sawing.

2:29:48.960 --> 2:30:0.810

Charley Wilson (Guest)

We have gone through in this state between severely dry periods and those of all abundantly wet periods to know why, when, where and how a project like this matters and is important to our future.

2:30:0.940 --> 2:30:7.530

Charley Wilson (Guest)

We would encourage the board today to adopt A resolution with your certification of the IR and the findings etcetera.

2:30:7.640 --> 2:30:9.790

Charley Wilson (Guest)

We thank you for the opportunity to to speak today.

2:30:12.350 --> 2:30:13.160

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you, Charlie.

2:30:13.610 --> 2:30:15.640

f4062337-cefb-43b1-9412-9bafdceb0869

The last hand that I show uh.

2:30:16.170 --> 2:30:19.560

f4062337-cefb-43b1-9412-9bafdceb0869

Interested in participating virtually as Adrian Covert.

2:30:22.850 --> 2:30:23.500

Adrian Covert

Good morning.

2:30:23.570 --> 2:30:24.960

Adrian Covert

My name is Adrian Covert.

2:30:25.50 --> 2:30:34.60

Adrian Covert

I'm senior vice president of public policy for the Bay Area Council, representing 350 of the largest employers in the San Francisco Bay Area.

2:30:34.370 --> 2:30:49.780

Adrian Covert

In the past several years, several Bay Area communities have come perilously close to adopting building moratoria on desperately needed new housing for the lack of water security and the impacts of the prior to droughts.

2:30:50.100 --> 2:30:58.950

Adrian Covert

And now the Newsom administration is estimating that California is going to lose about 10% of its water supply due to climate change in the coming decades.

2:30:59.220 --> 2:31:5.110

Adrian Covert

So we must adapt and increase storage is part of that adaptation strategy.

2:31:5.480 --> 2:31:22.370

Adrian Covert

So it's reservoir is needed for the future resiliency of California's water supplies, including in the Bay Area, which is why organizations up and down the state, not just the Bay Area, representing a wide variety of interests, have come out in favor and support of this project.

2:31:43.30 --> 2:31:43.210

54e43e5a-a36f-44e6-87b7-228299736146

There.

2:31:22.560 --> 2:31:56.20

Adrian Covert

And in addition to providing critical water supplies during dry years, sides reservoir has been designed with environmental considerations in mind of the sites Project authority has conducted an extensive analysis, one of the most comprehensive ever done for a water supply project on the impact of sites reservoir on the environment, on people and communities during construction and operation of the reservoir, the project would provide benefits to water supply reliability and drought resilience benefits to surrounding ecosystems.

2:31:56.800 --> 2:32:3.110

Adrian Covert

Fish local regional communities on flood control and recreation and the economic benefits that those bring.

2:32:3.140 --> 2:32:3.840

54e43e5a-a36f-44e6-87b7-228299736146

That's great.

2:32:3.240 --> 2:32:23.940

Adrian Covert

So in the face of changing climate change and the threats that that brings to reliable water supplies, we believe that the sites reservoir project is essential for adapting California to those changes and we respectfully encourage the advancement of this project and the approval of the hour.

2:32:24.40 --> 2:32:24.380

Adrian Covert

Thank you.

2:32:26.60 --> 2:32:26.700

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you, Adrian.

2:32:28.230 --> 2:32:35.910

f4062337-cefb-43b1-9412-9bafdceb0869

We'll now go to individuals on their cell phones and I see one hand that's up and the last two numbers is 43.

2:32:41.950 --> 2:32:48.130

f4062337-cefb-43b1-9412-9bafdceb0869

Is there somebody by phone that would like to participate that has a 18 lots of stars and a four three?

2:32:49.0 --> 2:32:53.280

f4062337-cefb-43b1-9412-9bafdceb0869

This is an 818237 phone number.

2:32:55.300 --> 2:32:55.470

54e43e5a-a36f-44e6-87b7-228299736146

Hello.

f4062337-cefb-43b1-9412-9bafdceb0869

Yes.

2:32:57.610 --> 2:32:57.800

54e43e5a-a36f-44e6-87b7-228299736146

Hello.

2:32:58.830 --> 2:33:1.350

54e43e5a-a36f-44e6-87b7-228299736146

Yes, my name is Lionel Mara.

2:32:59.550 --> 2:33:1.510

f4062337-cefb-43b1-9412-9bafdceb0869

Yes, we, yes, we hear you could give it.

2:33:2.980 --> 2:33:4.350

54e43e5a-a36f-44e6-87b7-228299736146

Yes, my name is Laina Morris.

2:33:4.420 --> 2:33:6.350

54e43e5a-a36f-44e6-87b7-228299736146

I am a resident of California.

2:33:6.620 --> 2:33:11.510

54e43e5a-a36f-44e6-87b7-228299736146

I'm calling to oppose the Delta Tunnel project Ohm.

2:33:14.80 --> 2:33:20.170

54e43e5a-a36f-44e6-87b7-228299736146

It will create more harm to the habitat and wildlife, and it would.

2:33:22.70 --> 2:33:27.470

54e43e5a-a36f-44e6-87b7-228299736146

Cause unintended consequences on the water supply and there are other better measures.

2:33:28.230 --> 2:33:49.970

54e43e5a-a36f-44e6-87b7-228299736146

I'm like storm water capture another water conservation efforts that should be utilized and the duck tunnel will not have a positive effect on the environment and it will have longing standing consequences on the environment and to wildlife because we've seen research that the harm that it will create.

2:33:50.60 --> 2:34:1.980

54e43e5a-a36f-44e6-87b7-228299736146

So I urged the government to stay to find another solution and that and I, I and I post that does the tunnel project.

2:34:1.990 --> 2:34:2.350

54e43e5a-a36f-44e6-87b7-228299736146

Thank you.

2:34:4.300 --> 2:34:5.40

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you so much.

2:34:7.10 --> 2:34:20.240

f4062337-cefb-43b1-9412-9bafdceb0869

Barring anyone else in the room representing a member of the public, a tribal representative or elected official, or anyone else on the phone who would like to make comments or anyone else.

2:34:20.250 --> 2:34:24.300

f4062337-cefb-43b1-9412-9bafdceb0869

Virtually, I do not see any others do.

2:34:24.540 --> 2:34:28.610

f4062337-cefb-43b1-9412-9bafdceb0869

32nd pause just in case anybody online has any other things they want to say.

2:34:31.200 --> 2:34:32.260
f4062337-cefb-43b1-9412-9bafdceb0869
Remember, you might be on.

2:34:32.340 --> 2:34:33.90
f4062337-cefb-43b1-9412-9bafdceb0869
You might be on mute.

2:34:50.0 --> 2:34:50.560
f4062337-cefb-43b1-9412-9bafdceb0869
All right.

2:34:50.740 --> 2:34:52.730
f4062337-cefb-43b1-9412-9bafdceb0869
I think we're good hearing none, Mr.

2:34:52.850 --> 2:34:53.140
54e43e5a-a36f-44e6-87b7-228299736146
Umm.

2:34:52.740 --> 2:34:59.10
f4062337-cefb-43b1-9412-9bafdceb0869
Chairman, I believe that concludes the remarks that have been advanced today by members of the public.

2:35:0.880 --> 2:35:1.350
f4062337-cefb-43b1-9412-9bafdceb0869
Thank you.

2:35:1.440 --> 2:35:5.50
f4062337-cefb-43b1-9412-9bafdceb0869
We'll close the through the public comments Umm.

2:35:5.640 --> 2:35:9.510
f4062337-cefb-43b1-9412-9bafdceb0869
And now I'd like to ask for the staff response to these comments.

2:35:13.710 --> 2:35:14.360
f4062337-cefb-43b1-9412-9bafdceb0869
Thank you, Mr.

2:35:14.370 --> 2:35:14.640
f4062337-cefb-43b1-9412-9bafdceb0869
Chair.

2:35:14.650 --> 2:35:17.740
f4062337-cefb-43b1-9412-9bafdceb0869
I think that is the comments that we heard come in today.

2:35:18.330 --> 2:35:35.460

f4062337-cefb-43b1-9412-9bafdceb0869

We're all fantastic comments and really important comments really kind of shows how Vinny different folks are interested in sites and how they are all passionate in their own ways about sites for a variety of different reasons.

2:35:36.210 --> 2:35:41.620

f4062337-cefb-43b1-9412-9bafdceb0869

Including, you know, recognizing that some of those have some passionate oppositions decides reservoir.

2:35:41.690 --> 2:35:50.460

f4062337-cefb-43b1-9412-9bafdceb0869

There was nothing that we heard in the public comments here that raised new environmental impacts relevant to the ER and process.

2:35:50.790 --> 2:35:56.420

f4062337-cefb-43b1-9412-9bafdceb0869

I believe everything that we heard here has been addressed in the final document and in the administrative record, Mr.

2:35:56.430 --> 2:35:59.30

f4062337-cefb-43b1-9412-9bafdceb0869

Chair, thank you.

2:35:59.600 --> 2:36:0.160

f4062337-cefb-43b1-9412-9bafdceb0869

Nothing else.

2:36:0.170 --> 2:36:0.570

f4062337-cefb-43b1-9412-9bafdceb0869

Nothing.

2:36:1.240 --> 2:36:6.40

f4062337-cefb-43b1-9412-9bafdceb0869

Well, I would like to thank the staff for, I think this is one of the most expensive.

2:36:6.810 --> 2:36:21.220

f4062337-cefb-43b1-9412-9bafdceb0869

Uh, reviews of a project analysis of how this might operate and have effects upon wildlife and water flows, and I thank you very much for for all that you've done. Umm.

2:36:23.20 --> 2:36:28.170

f4062337-cefb-43b1-9412-9bafdceb0869

Like, yes, we should probably just formally close the public comment period if you don't mind.

2:36:28.320 --> 2:36:29.40

f4062337-cefb-43b1-9412-9bafdceb0869

OK.

2:36:29.390 --> 2:36:32.890

f4062337-cefb-43b1-9412-9bafdceb0869

So just you can just say we formally know as chair.

2:36:32.900 --> 2:36:34.690

f4062337-cefb-43b1-9412-9bafdceb0869

I now close the public comment period.

2:36:35.120 --> 2:36:35.670

f4062337-cefb-43b1-9412-9bafdceb0869

All right.

2:36:36.480 --> 2:36:47.20

f4062337-cefb-43b1-9412-9bafdceb0869

So as of right now, I formally closed the comment public comment period for these consideration of the adoption of the IRI.

2:36:48.800 --> 2:36:54.530

f4062337-cefb-43b1-9412-9bafdceb0869

We wanted to give him a gavel, but he didn't want one, so that's why I was knocking on the table like that.

2:36:57.310 --> 2:36:57.660

f4062337-cefb-43b1-9412-9bafdceb0869

Right.

2:36:57.670 --> 2:37:3.290

f4062337-cefb-43b1-9412-9bafdceb0869

So it's time for the reservoir, uh committee and the authority board to have any discussions.

2:37:5.260 --> 2:37:6.780

f4062337-cefb-43b1-9412-9bafdceb0869

So what is being proposed here today?

2:37:8.870 --> 2:37:10.760

f4062337-cefb-43b1-9412-9bafdceb0869

I I'd like to to start.

2:37:11.390 --> 2:37:17.780

f4062337-cefb-43b1-9412-9bafdceb0869

I just, you know, I wanna recreate what you said for it's this is the most expensive analysis undertaken.

2:37:19.50 --> 2:37:36.540

f4062337-cefb-43b1-9412-9bafdceb0869

As you know, a member of the reservoir committee, I appreciated, you know, the analysis and the information that's been presented to us that our joint meetings we've had about 8 discussions bringing along the east by piece that obviously open to the public that information is available on the website.

2:37:36.550 --> 2:37:45.250

f4062337-cefb-43b1-9412-9bafdceb0869

So I as a reservoir continue number that I have been thoroughly briefed and I appreciate Staffs effort.

2:37:50.270 --> 2:37:52.390

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you, rob.

2:37:56.290 --> 2:37:57.100

f4062337-cefb-43b1-9412-9bafdceb0869

Who's Robert Cundy?

2:37:57.110 --> 2:37:57.980

f4062337-cefb-43b1-9412-9bafdceb0869

Representing Willie rich.

2:37:57.990 --> 2:38:2.630

f4062337-cefb-43b1-9412-9bafdceb0869

Maricopa Walk Stories, district and agricultural water district South of Bakersfield.

2:38:3.600 --> 2:38:12.870

f4062337-cefb-43b1-9412-9bafdceb0869

I appreciate I give thanks to each of the 15 parties who participated in these public comments today, both in favor and and in opposition to the project.

2:38:13.600 --> 2:38:16.110

f4062337-cefb-43b1-9412-9bafdceb0869

This project is consistently encouraged.

2:38:16.120 --> 2:38:17.390

f4062337-cefb-43b1-9412-9bafdceb0869

Public participation?

2:38:17.960 --> 2:38:24.940

f4062337-cefb-43b1-9412-9bafdceb0869

I just want to particularly note the efforts of staff to reach out to local tribal communities in order to solicit their input.

2:38:25.750 --> 2:38:29.310

f4062337-cefb-43b1-9412-9bafdceb0869

It's not only required by state law, but it's also just good practice.

2:38:29.690 --> 2:38:36.360

f4062337-cefb-43b1-9412-9bafdceb0869

One of our principles is to create as much public involvement from the local community as possible.

2:38:37.550 --> 2:39:23.540

f4062337-cefb-43b1-9412-9bafdceb0869

I want to assure that the tribal communities that I did in fact read their letters that were submitted late

after the close of the public comment period, I carefully considered their comments before making the decision on that note in particular that although the a B52 process would be closed as a result of this, that sites has made a continuing commitment to address tribal concerns, including a staff proposal for UH-16 specific commitments on working with tribes going forward and that the ER itself contains 9 specific mitigation measures to minimize and avoid some of the impacts of the project that are avoidable.

2:39:25.400 --> 2:39:36.580

f4062337-cefb-43b1-9412-9bafdceb0869

And and I would respectfully urge our local tribal members to continue to engage with us to make this project successful and to.

2:39:39.100 --> 2:40:13.10

f4062337-cefb-43b1-9412-9bafdceb0869

Hopefully better address their future concerns and comments with respect to the project with respect to the staff proposal that was mentioned, response to the recently received letters that have nine specific proposed I'm sorry, that's 16 specific proposed measures going forward as one member of the reservoir committee, I'd like them to know that I support those staff proposals, although I have not yet been forming adopted pending further consultations. So.

2:40:15.850 --> 2:40:17.140

f4062337-cefb-43b1-9412-9bafdceb0869

This project is important.

2:40:17.150 --> 2:40:22.960

f4062337-cefb-43b1-9412-9bafdceb0869

It provides substantial environmental benefits, provides critical water supply, benefits and drugs.

2:40:24.490 --> 2:40:34.630

f4062337-cefb-43b1-9412-9bafdceb0869

The previous two years we had 5% allocations from the state water project book years without investments in infrastructure and banking projects wouldn't have survived those efforts.

2:40:35.50 --> 2:40:43.620

f4062337-cefb-43b1-9412-9bafdceb0869

This is an additional effort on the part of the district to provide drought your water supplies, which are not only agriculture and install water users, but also the environment.

2:40:44.170 --> 2:40:51.20

f4062337-cefb-43b1-9412-9bafdceb0869

So thank you again for every member of the public and and thank you to the staff and consultants for all the work they put in on this environmental impact report.

2:40:53.360 --> 2:40:53.730

f4062337-cefb-43b1-9412-9bafdceb0869

You're up.

2:40:58.460 --> 2:40:58.810

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you.

2:40:58.820 --> 2:41:2.350

f4062337-cefb-43b1-9412-9bafdceb0869

I didn't want to speak on behalf of sampled Inovalon until water district.

2:41:2.500 --> 2:41:17.390

f4062337-cefb-43b1-9412-9bafdceb0869

We're very honored to be part of this project and that I really want to highlight is the statewide collaboration of many, many different parties who have what used to be considered competing interests across our state.

2:41:17.860 --> 2:41:29.520

f4062337-cefb-43b1-9412-9bafdceb0869

But in reality, we are connected through our economy, through our water system, through the shared challenges that we all see climate change and other impacts in our society.

2:41:30.110 --> 2:41:33.670

f4062337-cefb-43b1-9412-9bafdceb0869

The reality is, is that every project has trade offs.

2:41:34.490 --> 2:41:49.400

f4062337-cefb-43b1-9412-9bafdceb0869

Every water project will have an impact, whether it's economic, community, environmental, all of those things have been made and we have the water manager have to find the projects that offer the win win when we can.

2:41:49.670 --> 2:41:51.160

f4062337-cefb-43b1-9412-9bafdceb0869

Ideally, it's win, win, win.

2:41:51.290 --> 2:41:59.980

f4062337-cefb-43b1-9412-9bafdceb0869

It's as many wins as you find with our dollars that we're working with in consideration of the impact that will occur.

2:41:59.990 --> 2:42:18.380

f4062337-cefb-43b1-9412-9bafdceb0869

And I believe that this project has done that I very much appreciate the staff, the Reservoir committee and the board taking the time to consider and rerun the analysis to rewrite the document, to do things the right way through the public engagement over years.

2:42:18.910 --> 2:42:22.640

f4062337-cefb-43b1-9412-9bafdceb0869

This was not a band aid approach to fixing up a project.

2:42:22.650 --> 2:42:41.610

f4062337-cefb-43b1-9412-9bafdceb0869

This was really thinking about how do we make this project better, to improve the lives of the community, to create jobs, to improve the environment, to create the reliable water supply that we need so that the state of California can be as strong, healthy and resilient as possible going into the future.

2:42:41.700 --> 2:42:51.580

f4062337-cefb-43b1-9412-9bafdceb0869

So I very much appreciate the staff and the the Authority board for taking the time to do this the right way and I believe that future generations will thank us.

2:42:59.80 --> 2:43:4.240

f4062337-cefb-43b1-9412-9bafdceb0869

Rob, I have a statement from their yard that I'd like to read into the record.

2:43:5.930 --> 2:43:8.170

f4062337-cefb-43b1-9412-9bafdceb0869

Hang on, we gotta get your microphone set up.

2:43:8.930 --> 2:43:9.950

f4062337-cefb-43b1-9412-9bafdceb0869

Fell off the table.

2:43:10.160 --> 2:43:10.560

f4062337-cefb-43b1-9412-9bafdceb0869

Stand by.

2:43:14.330 --> 2:43:18.800

f4062337-cefb-43b1-9412-9bafdceb0869

If that were here, he'd give me a hard time for having such a cheap audio visual system.

2:43:18.810 --> 2:43:20.190

f4062337-cefb-43b1-9412-9bafdceb0869

But we'll let that go.

2:43:23.900 --> 2:43:24.40

f4062337-cefb-43b1-9412-9bafdceb0869

OK.

2:43:26.140 --> 2:43:27.380

f4062337-cefb-43b1-9412-9bafdceb0869

Yeah, just hang on to it.

2:43:27.420 --> 2:43:34.550

f4062337-cefb-43b1-9412-9bafdceb0869

When the governor recently certified the Sites Reservoir project under SP149 to streamline sequel, he said.

2:43:34.560 --> 2:43:37.850

f4062337-cefb-43b1-9412-9bafdceb0869

And I quote, we're building more faster.

2:43:37.960 --> 2:43:47.710

f4062337-cefb-43b1-9412-9bafdceb0869

These are projects that will address our state's biggest challenges faster and the sites reservoir project is fully representative of the goal.

2:43:47.800 --> 2:43:55.580

f4062337-cefb-43b1-9412-9bafdceb0869

Making sure Californians have access to clean drinking water and making sure we're more resilient against future droughts.

2:43:55.810 --> 2:44:6.960

f4062337-cefb-43b1-9412-9bafdceb0869

End Quote as part of the state administration, DWR supports this process and its objectives and is working closely with the sites authority team on this project.

2:44:10.640 --> 2:44:11.80

f4062337-cefb-43b1-9412-9bafdceb0869

Thanks rob.

2:44:14.450 --> 2:44:15.30

f4062337-cefb-43b1-9412-9bafdceb0869

Any other?

2:44:15.150 --> 2:44:15.950

f4062337-cefb-43b1-9412-9bafdceb0869

Anyone else like this?

2:44:18.580 --> 2:44:19.290

f4062337-cefb-43b1-9412-9bafdceb0869

Like any comments?

2:44:22.570 --> 2:44:27.260

f4062337-cefb-43b1-9412-9bafdceb0869

Also, for the record, thank you Jason Holley, City manager, city of American Canyon City.

2:44:27.270 --> 2:44:43.390

f4062337-cefb-43b1-9412-9bafdceb0869

About 22,000 people located at the very southern end of the Napa Valley, also an agricultural region and about 100 miles from here, about a decade ago, our City Council began evaluating long term water supply options for our community.

2:44:43.400 --> 2:44:48.170

f4062337-cefb-43b1-9412-9bafdceb0869

We don't have a very stable long term source and so we evaluated that options.

2:44:48.180 --> 2:44:50.310

f4062337-cefb-43b1-9412-9bafdceb0869

We looked at at local surface water reservoir in the area.

2:44:50.320 --> 2:45:13.280

f4062337-cefb-43b1-9412-9bafdceb0869

We looked at groundwater wells, we looked at direct, potable reuse of all things and all of those things did not make as much sense as our participation in this project, despite being not as close by and in part our Council understood at the time the sustainable and resiliency elements of this project brings forward that, unlike many of its predecessors, and so they felt that that was a big part of the value.

2:45:13.890 --> 2:45:15.920

f4062337-cefb-43b1-9412-9bafdceb0869

We're very diverse community and we're proud of that.

2:45:15.930 --> 2:45:21.880

f4062337-cefb-43b1-9412-9bafdceb0869

We're building housing to support the barrier region and is very happy with the work that staff has done.

2:45:21.950 --> 2:45:28.920

f4062337-cefb-43b1-9412-9bafdceb0869

Very impressed with the work and the project team that has been completed over these years and we're happy to be a continued supporter of the product.

2:45:29.170 --> 2:45:29.530

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you.

2:45:31.730 --> 2:45:36.590

f4062337-cefb-43b1-9412-9bafdceb0869

That sort of Atlantic Arsenio pass water agency, you know what a?

2:45:38.400 --> 2:45:45.730

f4062337-cefb-43b1-9412-9bafdceb0869

Here Heather Dyers comments earlier also want to state that we've been part of the state water project since 1961.

2:45:46.50 --> 2:46:16.750

f4062337-cefb-43b1-9412-9bafdceb0869

We're really at the end of the line of the project and by the time the project got to us due to a lot of factors, it wasn't what we signed up for almost 60 plus years ago, participating in sites like the previous comments was really just makes the most sense and we have been elated being a participant over the last few years that not only does this help restore are much needed water supply, what we signed up for back in the 60s, but also there's great benefits here locally to the local community.

2:46:16.760 --> 2:46:32.520

f4062337-cefb-43b1-9412-9bafdceb0869

It's really a bridge of North and South and then also the tremendous this is a tremendous tool for

preserving cold water pool or environmental flows or moving water out during dry years that the environment can use while it's making its way down to Southern California.

2:46:32.580 --> 2:46:36.470

f4062337-cefb-43b1-9412-9bafdceb0869

It does look like a win, win, win, maybe a win, maybe a fourth win.

2:46:36.900 --> 2:46:43.960

f4062337-cefb-43b1-9412-9bafdceb0869

To me, we couldn't be more pleased to be here today in person to see this resolution goes through.

2:46:46.30 --> 2:46:46.510

f4062337-cefb-43b1-9412-9bafdceb0869

The plants.

2:46:50.0 --> 2:46:50.580

f4062337-cefb-43b1-9412-9bafdceb0869

Any other comments?

2:46:54.0 --> 2:47:18.820

f4062337-cefb-43b1-9412-9bafdceb0869

Well, I'll speak on behalf of RD108RD108 has been engaged in this process or way before the JPA was established and recognizing the fact that that we needed to do a better job managing our water in the state of California and 108 was very engaged in in environmental projects, not only in our water district but in the valley here.

2:47:19.70 --> 2:47:23.590

f4062337-cefb-43b1-9412-9bafdceb0869

And this project's gonna give a lot more flexibility to how we manage that water.

2:47:25.990 --> 2:47:35.560

f4062337-cefb-43b1-9412-9bafdceb0869

Oftentimes today in in the world, as as we heard from some of the folks commenting here that they're seeing efficiencies in the water and that we need to do a better job.

2:47:35.570 --> 2:47:40.790

f4062337-cefb-43b1-9412-9bafdceb0869

And I think such reservoir will allow us to do a better job managing that water, so.

2:47:42.850 --> 2:47:46.770

f4062337-cefb-43b1-9412-9bafdceb0869

We're we're definitely support this project and the CIREIS.

2:47:49.220 --> 2:47:49.850

f4062337-cefb-43b1-9412-9bafdceb0869

Fritz, but.

2:47:52.100 --> 2:47:54.330

f4062337-cefb-43b1-9412-9bafdceb0869

I wanna landmark day.

2:47:56.300 --> 2:48:1.560

f4062337-cefb-43b1-9412-9bafdceb0869

Appointment 2010 and took a long time.

2:48:1.570 --> 2:48:6.730

f4062337-cefb-43b1-9412-9bafdceb0869

I really wanna express my appreciation to staff all the consultants that have worked on this project.

2:48:6.740 --> 2:48:8.950

f4062337-cefb-43b1-9412-9bafdceb0869

This is this is a landmark.

2:48:8.960 --> 2:48:12.170

f4062337-cefb-43b1-9412-9bafdceb0869

We've accomplished so much, but we have so much more to do as well.

2:48:12.480 --> 2:48:13.240

f4062337-cefb-43b1-9412-9bafdceb0869

So thank you.

2:48:14.980 --> 2:48:30.440

f4062337-cefb-43b1-9412-9bafdceb0869

To the reservoir committee, the statewide commitment on this project, it wouldn't happen without bringing this type of uh energy and synergy to the project and then to fellow JPA board members 2010.

2:48:30.450 --> 2:48:33.400

f4062337-cefb-43b1-9412-9bafdceb0869

We were sitting around in our respective boardrooms.

2:48:33.510 --> 2:48:35.140

f4062337-cefb-43b1-9412-9bafdceb0869

We didn't have our own building.

2:48:35.530 --> 2:48:40.700

f4062337-cefb-43b1-9412-9bafdceb0869

We had an idea, an idea that actually we need to thank folks that came well before us.

2:48:40.710 --> 2:48:53.570

f4062337-cefb-43b1-9412-9bafdceb0869

This projects been around a great grandfather worked on this project in the 50s and the state legislature, so it's just kind of incredible to me that we're sitting here and and kind of having this several moment of moving forward.

2:48:53.580 --> 2:49:15.470

f4062337-cefb-43b1-9412-9bafdceb0869

So and and then to the locals, I can't think of this project that's very well and Jamie and and their family ranch and all the tours with folks from Southern California Water District over the years dragging my dad down when I worked in Southern California for meetings with Matt and and these ideas, the opportunity to make this a reality as a big deal.

2:49:15.480 --> 2:49:17.10

f4062337-cefb-43b1-9412-9bafdceb0869

So I'm very excited to be part of it today.

2:49:17.490 --> 2:49:17.840

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you.

2:49:24.80 --> 2:49:24.610

f4062337-cefb-43b1-9412-9bafdceb0869

Richard.

2:49:24.700 --> 2:49:24.970

f4062337-cefb-43b1-9412-9bafdceb0869

Yeah.

2:49:24.980 --> 2:49:25.370

f4062337-cefb-43b1-9412-9bafdceb0869

Fritz.

2:49:25.570 --> 2:49:27.330

f4062337-cefb-43b1-9412-9bafdceb0869

Richard Welsh Bureau reclamation.

2:49:28.260 --> 2:49:31.850

f4062337-cefb-43b1-9412-9bafdceb0869

As was mentioned earlier, uh, where the nipah.

2:49:31.860 --> 2:49:36.370

f4062337-cefb-43b1-9412-9bafdceb0869

Lee the obviously be a reclamation from a federal perspective.

2:49:38.440 --> 2:50:9.780

f4062337-cefb-43b1-9412-9bafdceb0869

Shasta Dam is a keystone for us to be able to operate the CVP, and it's become very obvious that the operations are strained trying to balance the requirements of the environmental regulatory requirements with meeting water demand for our M and I, refuges and agricultural contractors in this project here CITES offers an affords a lot of opportunities for reclamation, will enhance our operations.

2:50:9.790 --> 2:50:20.80

f4062337-cefb-43b1-9412-9bafdceb0869

I believe in the upper Sacramento River to meet competing demands for those water that water and I look forward to continued dialogue.

2:50:20.460 --> 2:50:34.10

f4062337-cefb-43b1-9412-9bafdceb0869

I recognize that this is a sequel process today, but as the federal lead agency, we're supportive of your actions today for the project and look forward to further dialogue and relationships in the project moving forward.

2:50:36.360 --> 2:50:36.900

f4062337-cefb-43b1-9412-9bafdceb0869

Thanks Richard.

2:50:39.810 --> 2:50:40.360

f4062337-cefb-43b1-9412-9bafdceb0869

Alright.

2:50:41.20 --> 2:50:41.660

f4062337-cefb-43b1-9412-9bafdceb0869

Any other comments?

2:50:44.410 --> 2:50:49.0

f4062337-cefb-43b1-9412-9bafdceb0869

I think it's it's time for us to take action here and with the reservoir committee.

2:50:49.90 --> 2:51:5.860

f4062337-cefb-43b1-9412-9bafdceb0869

OK, so for the reservoir committee, there is a resolution and 2023-02 for six items certify the final ER project under Sequah stop the sequel finding stop the statement of writing reconsideration.

2:51:6.480 --> 2:51:9.680

f4062337-cefb-43b1-9412-9bafdceb0869

Adopt the mitigation, monitoring and reporting program.

2:51:10.400 --> 2:51:16.480

f4062337-cefb-43b1-9412-9bafdceb0869

Approve the project as described in the sequel findings and directly director to take a number of related actions.

2:51:17.90 --> 2:51:25.100

f4062337-cefb-43b1-9412-9bafdceb0869

So for this process, the reservoir committee would take action to recommend approval of the resolution by the Authority board.

2:51:26.280 --> 2:51:35.620

f4062337-cefb-43b1-9412-9bafdceb0869

So hearing that, is there a motion from the committee to recommend approval so moved second, OK, we have a motion in the second.

2:51:36.40 --> 2:51:38.650

f4062337-cefb-43b1-9412-9bafdceb0869

All those in favor, please say aye, aye.

2:51:39.10 --> 2:51:39.360

SC Well Conference Room

Aye.

2:51:40.20 --> 2:51:40.250

Petya Vasileva

Right.

2:51:41.190 --> 2:51:41.630

f4062337-cefb-43b1-9412-9bafdceb0869

Toast.

2:51:44.250 --> 2:51:44.920

f4062337-cefb-43b1-9412-9bafdceb0869

OK.

2:51:44.970 --> 2:51:49.80

f4062337-cefb-43b1-9412-9bafdceb0869

So the Reservoir committee recommends that the authority board adopt this resolution.

2:51:49.630 --> 2:51:52.350

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you, authority board.

2:51:52.840 --> 2:52:4.320

f4062337-cefb-43b1-9412-9bafdceb0869

So I'm not going to repeat what Valerie read out here, but we are going to need approval of resolution #2023-02.

2:52:6.700 --> 2:52:10.900

f4062337-cefb-43b1-9412-9bafdceb0869

Can I just say we wanna make sure that the record reflects that?

2:52:10.910 --> 2:52:19.910

f4062337-cefb-43b1-9412-9bafdceb0869

Jeff Sutton, who is a primary representative for team exclusive canal or other JPA I during the public comment.

2:52:19.920 --> 2:52:20.390

f4062337-cefb-43b1-9412-9bafdceb0869

We can.

2:52:20.520 --> 2:52:26.990

f4062337-cefb-43b1-9412-9bafdceb0869

Yeah, just want to make sure everybody on online knows that I've been on all along, actually made sure I was noted.

2:52:27.0 --> 2:52:30.690

f4062337-cefb-43b1-9412-9bafdceb0869

Ohh you were in the chat, so would it before I could get here?

2:52:30.840 --> 2:52:31.850

f4062337-cefb-43b1-9412-9bafdceb0869

Yeah, I didn't see you.

2:52:31.860 --> 2:52:37.520

f4062337-cefb-43b1-9412-9bafdceb0869

OK, well that I will make a motion to pass resolution #2023.

2:52:37.640 --> 2:52:38.730

f4062337-cefb-43b1-9412-9bafdceb0869

This is gross.

2:52:40.630 --> 2:52:43.160

f4062337-cefb-43b1-9412-9bafdceb0869

I think, Jeff, we have a second. I'll second.

2:52:44.570 --> 2:52:45.240

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you, Logan.

2:52:45.990 --> 2:52:49.190

f4062337-cefb-43b1-9412-9bafdceb0869

Umm, uh, any other discussion, Mr.

2:52:49.200 --> 2:53:10.730

f4062337-cefb-43b1-9412-9bafdceb0869

Chairman, I just like to make a comment and it's been commented on by various folks, but I would think you would be hard pressed throughout the history of mankind to find any project that has been studied and analyzed or at least five decades than this one excellent comment.

2:53:10.740 --> 2:53:11.50

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you.

2:53:12.760 --> 2:53:13.950

f4062337-cefb-43b1-9412-9bafdceb0869

Any other comments, questions.

2:53:15.590 --> 2:53:15.900

f4062337-cefb-43b1-9412-9bafdceb0869

Hearing.

2:53:15.910 --> 2:53:16.360

f4062337-cefb-43b1-9412-9bafdceb0869

No, no.

2:53:17.510 --> 2:53:19.200

f4062337-cefb-43b1-9412-9bafdceb0869

All those in favor, please say aye.

2:53:19.430 --> 2:53:19.880

f4062337-cefb-43b1-9412-9bafdceb0869

Aye.

2:53:21.210 --> 2:53:24.230

f4062337-cefb-43b1-9412-9bafdceb0869

Anyone opposed motion carries.

2:53:24.350 --> 2:53:25.190

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you very much.

2:53:35.470 --> 2:53:36.880

f4062337-cefb-43b1-9412-9bafdceb0869

Yeah, this is a milestone.

2:53:36.890 --> 2:53:37.720

f4062337-cefb-43b1-9412-9bafdceb0869

I mean, I know, I know.

2:53:37.730 --> 2:53:51.370

f4062337-cefb-43b1-9412-9bafdceb0869

We're not moving any dirt yet and we still have a long way to go, but I thank everyone for their participation for being here today and I also want to thank all the people they have worked on this project over the years.

2:53:51.440 --> 2:54:4.490

f4062337-cefb-43b1-9412-9bafdceb0869

Kind of echoing Jeff's comments, I see a few members in the in the audience here who were previously very engaged in the in the process of working towards the IEIS.

2:54:4.560 --> 2:54:13.190

f4062337-cefb-43b1-9412-9bafdceb0869

Many other aspects of the project, and it really takes a team and I'm proud to be a member of this team and it's to Heather's point earlier.

2:54:13.360 --> 2:54:18.360

f4062337-cefb-43b1-9412-9bafdceb0869

It's great to see California working as a team despite all of the noise going on in the world.

2:54:18.520 --> 2:54:18.920

f4062337-cefb-43b1-9412-9bafdceb0869

OK.

2:54:18.960 --> 2:54:19.840
f4062337-cefb-43b1-9412-9bafdceb0869
So thank you.

2:54:20.430 --> 2:54:21.560
f4062337-cefb-43b1-9412-9bafdceb0869
And with that looks.

2:54:28.550 --> 2:54:29.450
f4062337-cefb-43b1-9412-9bafdceb0869
Take 5 minute break.

2:54:39.700 --> 2:54:39.840
f4062337-cefb-43b1-9412-9bafdceb0869
No.

3:13:52.700 --> 3:13:55.140
f4062337-cefb-43b1-9412-9bafdceb0869
OK, sorry.

3:13:59.940 --> 3:14:1.30
f4062337-cefb-43b1-9412-9bafdceb0869
Alright, well, let's see.

3:14:1.40 --> 3:14:1.650
f4062337-cefb-43b1-9412-9bafdceb0869
We're off.

3:14:2.100 --> 3:14:2.850
f4062337-cefb-43b1-9412-9bafdceb0869
We're ready to roll.

3:14:2.860 --> 3:14:3.830
f4062337-cefb-43b1-9412-9bafdceb0869
Can can you hear me?

3:14:3.960 --> 3:14:4.660
f4062337-cefb-43b1-9412-9bafdceb0869
Hear us online.

3:14:6.490 --> 3:14:6.630
Cheyanne Harris
Yes.

3:14:8.240 --> 3:14:9.350
f4062337-cefb-43b1-9412-9bafdceb0869
Thank you very much.

3:14:9.520 --> 3:14:15.860

f4062337-cefb-43b1-9412-9bafdceb0869

Alright, let's move to item 3.0, which is discussion and information items.

3:14:18.410 --> 3:14:21.780

f4062337-cefb-43b1-9412-9bafdceb0869

Beginning with the resident well, wait a minute.

3:14:21.790 --> 3:14:23.940

f4062337-cefb-43b1-9412-9bafdceb0869

We got one item, we got one item on there.

3:14:23.950 --> 3:14:25.250

f4062337-cefb-43b1-9412-9bafdceb0869

3.1 ohh.

3:14:25.700 --> 3:14:27.840

f4062337-cefb-43b1-9412-9bafdceb0869

Cover that and then feel free.

3:14:28.0 --> 3:14:55.760

f4062337-cefb-43b1-9412-9bafdceb0869

But 3.1, you'll recall three or four months ago, we established this conditions precedent reporting that we wanted to try to, uh, regularly come back to you with on tracking these critical elements that you have identified for us as necessary for your primarily for your investor commitment, but also related to construction.

3:14:55.770 --> 3:14:58.960

f4062337-cefb-43b1-9412-9bafdceb0869

So that's what attachment A represents.

3:14:58.970 --> 3:15:13.650

f4062337-cefb-43b1-9412-9bafdceb0869

Our essentially those things that have to be in place in order for you to go back to your home board and ask for their authorization to sign the benefits and obligations contract, which is the point of Vester commitment.

3:15:14.200 --> 3:15:18.990

f4062337-cefb-43b1-9412-9bafdceb0869

So this is a report that update you on the status of those important items.

3:15:19.0 --> 3:15:20.250

f4062337-cefb-43b1-9412-9bafdceb0869

That's attachment a.

3:15:21.10 --> 3:15:23.250

f4062337-cefb-43b1-9412-9bafdceb0869

You'll see that everything is on track.

3:15:23.260 --> 3:15:25.750

f4062337-cefb-43b1-9412-9bafdceb0869

There's been a couple of revisions.

3:15:25.800 --> 3:15:31.930

f4062337-cefb-43b1-9412-9bafdceb0869

One is the Sequoia determination which we just complete and was previously scheduled for October.

3:15:32.80 --> 3:15:53.390

f4062337-cefb-43b1-9412-9bafdceb0869

So that's done now and then the public benefit agreement got adjusted on the CDFW public event, AFIT agreement specifically and that was a result of a discussion we had with the state agencies around basically the workload within CDFW.

3:15:54.40 --> 3:15:58.170

f4062337-cefb-43b1-9412-9bafdceb0869

The priority for CFW from our perspective is incidental.

3:15:58.180 --> 3:16:2.860

f4062337-cefb-43b1-9412-9bafdceb0869

Take permit and then supporting and defending the.

3:16:4.790 --> 3:16:10.710

f4062337-cefb-43b1-9412-9bafdceb0869

Proposal in the water, right hearing and then then comes the public benefit agreement.

3:16:10.720 --> 3:16:16.750

f4062337-cefb-43b1-9412-9bafdceb0869

And so, because they have limited staff, we said if we could take them in that order, we would be OK with that.

3:16:16.820 --> 3:16:23.240

f4062337-cefb-43b1-9412-9bafdceb0869

So that's why you see an adjustment to that item attachment a now.

3:16:23.330 --> 3:16:31.170

f4062337-cefb-43b1-9412-9bafdceb0869

We've also now incorporated as well and attachment B uh, which has a lot of lines.

3:16:31.180 --> 3:16:48.520

f4062337-cefb-43b1-9412-9bafdceb0869

If you print it out, but we still gotta work on this some more, this is a work in progress and and what this is intended to do is say OK, attachment a tells us all the you as local agencies need for your investor commitment attachment B.

3:16:48.580 --> 3:16:59.690

f4062337-cefb-43b1-9412-9bafdceb0869

He has those things listed, but also then brings in the state government and the federal government and says, what do those folks need in order to make their commitment?

3:16:59.700 --> 3:17:12.90

f4062337-cefb-43b1-9412-9bafdceb0869

Because remember, when we talk about investor commitment in 2025, it's it's all three of those bodies saying yes to the project at the same time.

3:17:12.180 --> 3:17:23.960

f4062337-cefb-43b1-9412-9bafdceb0869

So we have to have all those, all the things that each of those entities needs ready to go, so that that commitment can be can occur somewhat simultaneously.

3:17:24.570 --> 3:17:26.400

f4062337-cefb-43b1-9412-9bafdceb0869

So this is a attachment.

3:17:26.410 --> 3:17:29.880

f4062337-cefb-43b1-9412-9bafdceb0869

Bee is we're working with the state and federal agencies right now.

3:17:29.970 --> 3:17:31.420

f4062337-cefb-43b1-9412-9bafdceb0869

We wanted to bring that to you.

3:17:31.430 --> 3:17:55.190

f4062337-cefb-43b1-9412-9bafdceb0869

So you could see what what our assessment is of what they need probably in a couple months you'll come back to you and say we've talked to the state and federal government and this is what they're feeling is as to what they need because, for example, there are specific things in prop one that the California Water Commission has to check off before that body can give the final funding award for Prop.

3:17:55.200 --> 3:17:58.330

f4062337-cefb-43b1-9412-9bafdceb0869

One that's \$875 million of the project.

3:17:58.560 --> 3:18:2.990

f4062337-cefb-43b1-9412-9bafdceb0869

So that's the coordination that is occurring with the state government.

3:18:3.0 --> 3:18:19.90

f4062337-cefb-43b1-9412-9bafdceb0869

We're going to do the same thing with the federal government and then hopefully by the next time we do a quarterly report to you, we will then have this kind of compilation of all of these requirements together so that you can see how things compare and stack up to each other.

3:18:19.420 --> 3:18:25.10

f4062337-cefb-43b1-9412-9bafdceb0869

And so it's all going to come together in this simultaneous approval.

3:18:26.170 --> 3:18:28.200
f4062337-cefb-43b1-9412-9bafdceb0869
Are there any questions or comments?

3:18:29.130 --> 3:18:30.70
f4062337-cefb-43b1-9412-9bafdceb0869
Yes, Sir, Mr. Kennedy.

3:18:33.730 --> 3:18:33.940
f4062337-cefb-43b1-9412-9bafdceb0869
So.

3:18:35.330 --> 3:18:37.310
f4062337-cefb-43b1-9412-9bafdceb0869
Presentation here these 379.

3:18:40.100 --> 3:18:40.380
f4062337-cefb-43b1-9412-9bafdceb0869
OK.

3:18:44.830 --> 3:18:47.340
f4062337-cefb-43b1-9412-9bafdceb0869
GTA in the.

3:18:49.130 --> 3:18:49.420
f4062337-cefb-43b1-9412-9bafdceb0869
No.

3:18:50.200 --> 3:18:51.950
f4062337-cefb-43b1-9412-9bafdceb0869
Required for the you know to take effect.

3:18:52.800 --> 3:18:56.900
f4062337-cefb-43b1-9412-9bafdceb0869
A similar phrase for the water right through four.

3:18:58.170 --> 3:19:1.470
f4062337-cefb-43b1-9412-9bafdceb0869
How do I say, gosh really, I thought those were both conditions.

3:19:1.480 --> 3:19:2.40
f4062337-cefb-43b1-9412-9bafdceb0869
Precedent.

3:19:2.50 --> 3:19:5.470
f4062337-cefb-43b1-9412-9bafdceb0869
Not sort of conditional, so clarify the meaning.

3:19:7.660 --> 3:19:7.950

f4062337-cefb-43b1-9412-9bafdceb0869

Yeah.

3:19:9.790 --> 3:19:15.240

f4062337-cefb-43b1-9412-9bafdceb0869

Yeah, it's really your call, I guess for lack of better terms we're trying.

3:19:15.330 --> 3:19:17.50

f4062337-cefb-43b1-9412-9bafdceb0869

We've heard from agencies.

3:19:17.490 --> 3:19:19.170

f4062337-cefb-43b1-9412-9bafdceb0869

Those are you around the table, not.

3:19:19.270 --> 3:19:22.240

f4062337-cefb-43b1-9412-9bafdceb0869

Let's forget about the federal and state components for a minute.

3:19:22.550 --> 3:19:39.380

f4062337-cefb-43b1-9412-9bafdceb0869

We've heard from agencies that maybe if we're close on the uh, uh bylaws JPA revisions or foreclose on the water, right, they might be willing to go ahead and execute the benefits and obligations contract.

3:19:39.670 --> 3:19:44.400

f4062337-cefb-43b1-9412-9bafdceb0869

So there we're trying to leave some flexibility for that circumstance, right?

3:19:45.220 --> 3:19:50.450

f4062337-cefb-43b1-9412-9bafdceb0869

If everyone unanimously came to us and said we need no, we need these things.

3:19:50.460 --> 3:19:51.970

f4062337-cefb-43b1-9412-9bafdceb0869

So take that off of those.

3:19:52.460 --> 3:19:54.550

f4062337-cefb-43b1-9412-9bafdceb0869

Take them off and that'll be the understanding.

3:19:54.880 --> 3:20:3.720

f4062337-cefb-43b1-9412-9bafdceb0869

But right now, we're just trying to maintain that flexibility for those that if they choose to go forward with the B&O before those things are locked down, they can.

3:20:7.880 --> 3:20:8.580

f4062337-cefb-43b1-9412-9bafdceb0869

Wheeler Ridge.

3:20:8.590 --> 3:20:11.470

f4062337-cefb-43b1-9412-9bafdceb0869

It's very clear you need both of those things understood.

3:20:13.790 --> 3:20:14.200

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you for.

3:20:19.350 --> 3:20:20.780

f4062337-cefb-43b1-9412-9bafdceb0869

I make my head spin.

3:20:20.850 --> 3:20:29.120

f4062337-cefb-43b1-9412-9bafdceb0869

You look at all those lines on there, there's a lot of work, a lot of work that you know, we're gonna ask if folks in this room and others as well in the future.

3:20:29.750 --> 3:20:35.950

f4062337-cefb-43b1-9412-9bafdceb0869

Uh, you know, today was a milestone, but we still got a steep mountain to climb here. Wow.

3:20:41.210 --> 3:20:41.650

f4062337-cefb-43b1-9412-9bafdceb0869

What else?

3:20:41.660 --> 3:20:42.730

f4062337-cefb-43b1-9412-9bafdceb0869

What are the good news you have?

3:20:43.110 --> 3:20:43.980

f4062337-cefb-43b1-9412-9bafdceb0869

What other good news?

3:20:43.990 --> 3:20:49.680

f4062337-cefb-43b1-9412-9bafdceb0869

Well, that that is it for item 3.1, I have nothing else on that.

3:20:49.910 --> 3:21:1.740

f4062337-cefb-43b1-9412-9bafdceb0869

Uh, that's again, that's not overwhelming, but just goes to show that shows the project and all of the things that are required of us to have a successful operating facility.

3:21:2.850 --> 3:21:5.260

f4062337-cefb-43b1-9412-9bafdceb0869

And there's probably some we haven't even.

3:21:6.510 --> 3:21:9.820

f4062337-cefb-43b1-9412-9bafdceb0869

Maybe we have thought of, but they just haven't been added to the list as well.

3:21:12.520 --> 3:21:12.850
f4062337-cefb-43b1-9412-9bafdceb0869
Right.

3:21:12.860 --> 3:21:14.280
f4062337-cefb-43b1-9412-9bafdceb0869
Any other discussion on this item?

3:21:17.140 --> 3:21:17.370
f4062337-cefb-43b1-9412-9bafdceb0869
Correct.

3:21:19.160 --> 3:21:20.220
f4062337-cefb-43b1-9412-9bafdceb0869
When do we get to see some?

3:21:20.500 --> 3:21:21.40
f4062337-cefb-43b1-9412-9bafdceb0869
They struggle.

3:21:23.330 --> 3:21:26.970
f4062337-cefb-43b1-9412-9bafdceb0869
We have to wait for the contract, but then, you know, we're really have a project.

3:21:28.950 --> 3:21:29.360
f4062337-cefb-43b1-9412-9bafdceb0869
Cleaner.

3:21:33.810 --> 3:21:35.800
f4062337-cefb-43b1-9412-9bafdceb0869
There's a lot of shovels in the ground with Jews.

3:21:35.810 --> 3:21:36.140
f4062337-cefb-43b1-9412-9bafdceb0869
Jews.

3:21:36.150 --> 3:21:38.610
f4062337-cefb-43b1-9412-9bafdceb0869
Yeah, lot of holes in the ground.

3:21:38.620 --> 3:21:49.90
f4062337-cefb-43b1-9412-9bafdceb0869
The construction line on the schedule starts in early 2026, so make your plans, yeah.

3:21:52.100 --> 3:21:53.50
f4062337-cefb-43b1-9412-9bafdceb0869
Just around the corner.

3:21:58.620 --> 3:21:58.920
f4062337-cefb-43b1-9412-9bafdceb0869
Alright.

3:21:59.190 --> 3:21:59.780
f4062337-cefb-43b1-9412-9bafdceb0869
Umm.

3:22:0.430 --> 3:22:2.970
f4062337-cefb-43b1-9412-9bafdceb0869
So let's move on to reports that at this point, so.

3:22:5.970 --> 3:22:7.200
f4062337-cefb-43b1-9412-9bafdceb0869
Just looking over in my calendar.

3:22:7.210 --> 3:22:12.120
f4062337-cefb-43b1-9412-9bafdceb0869
Gosh, I've been so much going on, I can't remember what was the last thing we talked about. Umm.

3:22:15.980 --> 3:22:16.490
f4062337-cefb-43b1-9412-9bafdceb0869
I have.

3:22:16.560 --> 3:22:21.740
f4062337-cefb-43b1-9412-9bafdceb0869
I don't think I've had any birth shaking meetings with anybody here recently.

3:22:22.310 --> 3:22:32.380
f4062337-cefb-43b1-9412-9bafdceb0869
Umm, I've had a lot of discussions with individuals, politicians, umm, some project participants as well and everyone's been positive.

3:22:32.390 --> 3:22:38.800
f4062337-cefb-43b1-9412-9bafdceb0869
Most everyone curiosity's been around a B149 and how is this going to help the project?

3:22:38.810 --> 3:22:46.820
f4062337-cefb-43b1-9412-9bafdceb0869
To help the project and I think there were a lot of people who were misled in terms of what a B149 really meant.

3:22:47.130 --> 3:22:51.160
f4062337-cefb-43b1-9412-9bafdceb0869
They they thought it meant we were, you know, the governor used the word streamlining.

3:22:51.440 --> 3:23:0.110
f4062337-cefb-43b1-9412-9bafdceb0869

Umm, but I think uh, they many people think the thought that we were gonna skip through and and overlook many aspects of the sequel act.

3:23:0.420 --> 3:23:4.50

f4062337-cefb-43b1-9412-9bafdceb0869

But so the way it works so 17 minutes.

3:23:4.400 --> 3:23:5.710

f4062337-cefb-43b1-9412-9bafdceb0869

Ohh, vice chair.

3:23:5.780 --> 3:23:6.570

f4062337-cefb-43b1-9412-9bafdceb0869

Knee report.

3:23:7.380 --> 3:23:13.390

f4062337-cefb-43b1-9412-9bafdceb0869

I did attend the the contractor outreach on the 26th of October.

3:23:13.400 --> 3:23:18.690

f4062337-cefb-43b1-9412-9bafdceb0869

I think it was for the the mitigation cardi was pleased at the number of folks that were there.

3:23:18.700 --> 3:23:21.330

f4062337-cefb-43b1-9412-9bafdceb0869

There was 5560 folks there.

3:23:22.40 --> 3:23:34.660

f4062337-cefb-43b1-9412-9bafdceb0869

The tenor was when, as opposed to if and very respectful of, the of the, the mitigation aspect towards the local community and so very impressed.

3:23:34.670 --> 3:23:35.140

f4062337-cefb-43b1-9412-9bafdceb0869

Thanks stop.

3:23:39.30 --> 3:23:40.460

f4062337-cefb-43b1-9412-9bafdceb0869

And then I will report.

3:23:40.790 --> 3:23:42.680

f4062337-cefb-43b1-9412-9bafdceb0869

Jerry loaded for the last month.

3:23:42.690 --> 3:23:43.50

f4062337-cefb-43b1-9412-9bafdceb0869

Give us.

3:23:43.60 --> 3:23:56.880

f4062337-cefb-43b1-9412-9bafdceb0869

We had a meeting with the state leadership team, so it was Natural Resources, Secretary Wade Crowfoot, Deputy Secretary Nancy Vogel, Fish and Wildlife Chuck Bonham and then also the executive director of the California Water Commissioner.

3:23:56.890 --> 3:24:2.950

f4062337-cefb-43b1-9412-9bafdceb0869

Specific about this project is very focused meeting everyone was on the same page.

3:24:3.210 --> 3:24:8.580

f4062337-cefb-43b1-9412-9bafdceb0869

Umm, you know, we all know that we're committed to getting the project done, but the state seemed committed as well.

3:24:9.180 --> 3:24:17.650

f4062337-cefb-43b1-9412-9bafdceb0869

Umm Jerry alluded to there was a talk about rising workloads with Fish and Wildlife, which probably aren't appreciated as well.

3:24:18.20 --> 3:24:24.380

f4062337-cefb-43b1-9412-9bafdceb0869

To make sure we do the necessary approvals and you know, we discussed that you know.

3:24:25.690 --> 3:24:34.820

f4062337-cefb-43b1-9412-9bafdceb0869

Got it right that time because we're going to run out of money, you know, this is our last cash call so to speak.

3:24:34.970 --> 3:24:36.740

f4062337-cefb-43b1-9412-9bafdceb0869

And the state did not push back on that.

3:24:37.610 --> 3:24:43.110

f4062337-cefb-43b1-9412-9bafdceb0869

So I felt it was a good meeting at the focus and I'm sure Fritz or Jerry can add to that.

3:24:44.990 --> 3:24:46.200

f4062337-cefb-43b1-9412-9bafdceb0869

I think you need it.

3:24:46.250 --> 3:24:47.180

f4062337-cefb-43b1-9412-9bafdceb0869

Did it very well.

3:24:47.240 --> 3:24:47.550

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you.

3:24:48.820 --> 3:24:50.70

f4062337-cefb-43b1-9412-9bafdceb0869

That's the meaning I was looking for.

3:24:50.80 --> 3:24:52.750

f4062337-cefb-43b1-9412-9bafdceb0869

I can I go to all these different meetings and I report on the meetings?

3:25:8.70 --> 3:25:8.300

f4062337-cefb-43b1-9412-9bafdceb0869

OK.

3:25:8.310 --> 3:25:9.560

f4062337-cefb-43b1-9412-9bafdceb0869

Any other committee?

3:25:10.810 --> 3:25:11.520

f4062337-cefb-43b1-9412-9bafdceb0869

Yeah. Go ahead.

3:25:11.590 --> 3:25:11.880

f4062337-cefb-43b1-9412-9bafdceb0869

Yeah.

3:25:11.890 --> 3:25:15.220

f4062337-cefb-43b1-9412-9bafdceb0869

Reservoir Committee Work Group reports.

3:25:16.110 --> 3:25:25.780

f4062337-cefb-43b1-9412-9bafdceb0869

Bob Valerie is probably recording this so the operations and those numbers, but the ad hoc under.

3:25:29.210 --> 3:25:31.840

f4062337-cefb-43b1-9412-9bafdceb0869

For discussions included.

3:25:35.40 --> 3:25:35.270

f4062337-cefb-43b1-9412-9bafdceb0869

So.

3:25:39.540 --> 3:25:41.610

f4062337-cefb-43b1-9412-9bafdceb0869

Recommendation on a work plan.

3:25:41.740 --> 3:25:45.750

f4062337-cefb-43b1-9412-9bafdceb0869

Budget for working with RDO 108, Lucia Basin.

3:25:45.760 --> 3:25:46.320
f4062337-cefb-43b1-9412-9bafdceb0869
Drain matters.

3:25:47.820 --> 3:25:51.420
f4062337-cefb-43b1-9412-9bafdceb0869
Umm, some hydraulic modeling was discussed with respect to exclusive basin drain.

3:25:53.250 --> 3:26:2.800
f4062337-cefb-43b1-9412-9bafdceb0869
Uh, there's also talking about prioritization of agreements, where where do we need to focus first in the collusive basin, drain versus something we can put off for a bit.

3:26:3.670 --> 3:26:14.360
f4062337-cefb-43b1-9412-9bafdceb0869
So that group typically meets every other month inclusive basin drain is obviously central to the conveyance capacity needed for many of the reservoir committee members.

3:26:14.370 --> 3:26:16.600
f4062337-cefb-43b1-9412-9bafdceb0869
So that work is ongoing.

3:26:16.610 --> 3:26:18.340
f4062337-cefb-43b1-9412-9bafdceb0869
JP is little staff lead on that.

3:26:22.70 --> 3:26:24.320
f4062337-cefb-43b1-9412-9bafdceb0869
Everything is going great, right, JP? Yes.

3:26:27.880 --> 3:26:42.650
f4062337-cefb-43b1-9412-9bafdceb0869
I'll just report that the Lithia ad Hoc subcommittee just met on Wednesday and to discuss a couple of issues that have been identified in the B&O that needed further vetting, and we had a very good in depth discussion.

3:26:42.660 --> 3:26:51.130
f4062337-cefb-43b1-9412-9bafdceb0869
I think we reached a resolution so that will be coming out in the future meeting, but the concerns that people brought up regarding this issues were apparent.

3:26:53.200 --> 3:26:54.650
f4062337-cefb-43b1-9412-9bafdceb0869
To create an extra 20 minutes.

3:26:54.660 --> 3:26:57.710
f4062337-cefb-43b1-9412-9bafdceb0869
Then it was allowed to be able to come to closure on that.

3:26:57.840 --> 3:26:59.380
f4062337-cefb-43b1-9412-9bafdceb0869
OK, yeah.

3:27:3.730 --> 3:27:5.700
f4062337-cefb-43b1-9412-9bafdceb0869
Play with you.

3:27:5.770 --> 3:27:7.840
f4062337-cefb-43b1-9412-9bafdceb0869
This is.

3:27:7.960 --> 3:27:11.480
f4062337-cefb-43b1-9412-9bafdceb0869
As long as you're so it's the ad hoc subcommittee.

3:27:11.480 --> 3:27:15.250
f4062337-cefb-43b1-9412-9bafdceb0869
And there there's the I can pull it up.

3:27:15.260 --> 3:27:16.750
f4062337-cefb-43b1-9412-9bafdceb0869
Or so yeah, it was.

3:27:16.760 --> 3:27:16.990
f4062337-cefb-43b1-9412-9bafdceb0869
It was.

3:27:17.260 --> 3:27:18.90
f4062337-cefb-43b1-9412-9bafdceb0869
It's OK.

3:27:18.540 --> 3:27:28.70
f4062337-cefb-43b1-9412-9bafdceb0869
The discussion we focused on really pertains to the participants and what's that being of contract says in order for it to be accepted by.

3:27:30.870 --> 3:27:32.960
f4062337-cefb-43b1-9412-9bafdceb0869
By the by, we financed by the leaders.

3:27:32.970 --> 3:27:33.270
f4062337-cefb-43b1-9412-9bafdceb0869
Yeah.

3:27:33.430 --> 3:27:33.980
f4062337-cefb-43b1-9412-9bafdceb0869
OK.

3:27:33.990 --> 3:27:39.380

f4062337-cefb-43b1-9412-9bafdceb0869

So we were getting into the nitty gritty of the terms of the contraction and what they meant.

3:27:39.390 --> 3:27:40.250

f4062337-cefb-43b1-9412-9bafdceb0869

We got clarification.

3:27:40.260 --> 3:27:43.660

f4062337-cefb-43b1-9412-9bafdceb0869

So that's kind of an ad hoc finance.

3:27:44.10 --> 3:27:49.500

f4062337-cefb-43b1-9412-9bafdceb0869

OK, I was thinking actually I was thinking for outreach in the connection there.

3:27:49.640 --> 3:27:50.550

f4062337-cefb-43b1-9412-9bafdceb0869

So now this is like.

3:27:51.180 --> 3:27:51.650

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you.

3:27:51.660 --> 3:27:52.630

f4062337-cefb-43b1-9412-9bafdceb0869

Just want to clarify.

3:27:52.640 --> 3:27:53.380

f4062337-cefb-43b1-9412-9bafdceb0869

Appreciate it.

3:27:54.120 --> 3:28:14.910

f4062337-cefb-43b1-9412-9bafdceb0869

And then Jamie, significantly out of that group, staff was looking for direction on how to, it's not finalized, but for raft proposal to EPA so that they can start working on their end for the, for the contract and the that subcommittee did provide direction to staff.

3:28:14.920 --> 3:28:21.850

f4062337-cefb-43b1-9412-9bafdceb0869

So that that could be timely submitted to EPA for their initial review, recognizing that it was a draft of the contract.

3:28:22.540 --> 3:28:31.720

f4062337-cefb-43b1-9412-9bafdceb0869

So the thing about it with my LED committee chair hat on, which really isn't relevant now that I know that, but that was a significant outcome, yeah.

3:28:35.350 --> 3:28:36.880
f4062337-cefb-43b1-9412-9bafdceb0869
Valerie, it's alright.

3:28:36.890 --> 3:28:39.650
f4062337-cefb-43b1-9412-9bafdceb0869
I'd like to add to Rob's report about the word collusion.

3:28:39.660 --> 3:28:40.400
f4062337-cefb-43b1-9412-9bafdceb0869
Mason drain.

3:28:40.410 --> 3:28:46.860
f4062337-cefb-43b1-9412-9bafdceb0869
We've had our second meeting and I will be hard for people to say it, but I think they're going really well.

3:28:46.930 --> 3:28:47.880
f4062337-cefb-43b1-9412-9bafdceb0869
I think there's a lot of.

3:28:48.840 --> 3:28:58.310
f4062337-cefb-43b1-9412-9bafdceb0869
Uh respects being given to the locals and they're being very receptive and it's an honest conversation about, you know, how we can get this done and how we can work together.

3:28:58.480 --> 3:29:11.400
f4062337-cefb-43b1-9412-9bafdceb0869
So I really want to express appreciation for gay Pi, think MBA has breaking a lot of trust with the locals as well, and so they've been there to talk about, you know, these institutional agreements and operations that have been happening down there.

3:29:11.410 --> 3:29:14.260
f4062337-cefb-43b1-9412-9bafdceb0869
And so I just typically here.

3:29:14.300 --> 3:29:22.470
f4062337-cefb-43b1-9412-9bafdceb0869
I don't know if you get into this kind of detail, but I just want to report to the whole board that I think we're building the types of relationships to get this thing done.

3:29:22.480 --> 3:29:28.510
f4062337-cefb-43b1-9412-9bafdceb0869
And I think there's, you know, local improvements that'll encourage folks to be cooperative.

3:29:28.640 --> 3:29:31.460
f4062337-cefb-43b1-9412-9bafdceb0869
You know, we'll end up with a better footprint than we have now.

3:29:33.550 --> 3:29:34.10
f4062337-cefb-43b1-9412-9bafdceb0869
Good to hear.

3:29:36.200 --> 3:29:36.710
f4062337-cefb-43b1-9412-9bafdceb0869
I wouldn't.

3:29:36.770 --> 3:29:51.870
f4062337-cefb-43b1-9412-9bafdceb0869
And that conveyance group I typically participate sometimes trying to look at you know, is there some, is there a red flag here in terms of some particular activity that may be a stumbling block or delay or something like that in that meeting?

3:29:51.880 --> 3:29:54.870
f4062337-cefb-43b1-9412-9bafdceb0869
My conclusion was no red flags yet.

3:29:56.780 --> 3:30:0.210
f4062337-cefb-43b1-9412-9bafdceb0869
But cause it's there's a number of folks involved.

3:30:2.970 --> 3:30:4.880
f4062337-cefb-43b1-9412-9bafdceb0869
Farmer says I have three years.

3:30:5.170 --> 3:30:11.480
f4062337-cefb-43b1-9412-9bafdceb0869
Sometimes things can go a little sideways and so, but so far no red flags.

3:30:11.490 --> 3:30:14.200
f4062337-cefb-43b1-9412-9bafdceb0869
And that's good because that's probably.

3:30:16.150 --> 3:30:16.920
f4062337-cefb-43b1-9412-9bafdceb0869
Dirty mind, right?

3:30:18.280 --> 3:30:27.880
f4062337-cefb-43b1-9412-9bafdceb0869
Please you know little bit saying that about these meetings with folks and the great group, very problem solving oriented.

3:30:27.940 --> 3:30:47.780
f4062337-cefb-43b1-9412-9bafdceb0869
I feel like it's extremely collaborative and and I I just wanted to thank you know your staff for providing those facility but also the connections and and bringing that experience to bear and thank also the Reservoir committee and board for entering their office agreement with already anyway.

3:30:47.790 --> 3:30:49.720

f4062337-cefb-43b1-9412-9bafdceb0869

So we can realize that.

3:30:50.470 --> 3:30:55.590

f4062337-cefb-43b1-9412-9bafdceb0869

Benefit from that relationship and from your extensive experience, so really appreciate it.

3:30:56.60 --> 3:30:57.390

f4062337-cefb-43b1-9412-9bafdceb0869

Umm, let's say that.

3:31:0.280 --> 3:31:4.100

f4062337-cefb-43b1-9412-9bafdceb0869

Three, I'll give you a quick uh outreach legend. Outreach.

3:31:4.110 --> 3:31:4.340

f4062337-cefb-43b1-9412-9bafdceb0869

Yep.

3:31:4.350 --> 3:31:7.780

f4062337-cefb-43b1-9412-9bafdceb0869

Yeah, just really short report on that.

3:31:7.910 --> 3:31:10.320

f4062337-cefb-43b1-9412-9bafdceb0869

This is Yep, there is that.

3:31:10.330 --> 3:31:15.220

f4062337-cefb-43b1-9412-9bafdceb0869

Ask anything you wanted to add or Kevin, but just on the ledge.

3:31:15.230 --> 3:31:15.420

f4062337-cefb-43b1-9412-9bafdceb0869

Stuff.

3:31:15.430 --> 3:31:26.840

f4062337-cefb-43b1-9412-9bafdceb0869

We're gonna kind of put out of our priorities and through 2024, you know, to committee members don't think we have a lot where it's kind of right over efforts.

3:31:26.850 --> 3:31:35.150

f4062337-cefb-43b1-9412-9bafdceb0869

But there any suggest revisions or whatnot then run by factory folks, we are going to dispense with the need for meetings because we don't have much on the Internet.

3:31:35.180 --> 3:31:40.790

f4062337-cefb-43b1-9412-9bafdceb0869

And that and then if all that goes well, we'll come back with the recommendation.

3:31:42.570 --> 3:31:44.60

f4062337-cefb-43b1-9412-9bafdceb0869

So I have the four per second.

3:31:44.70 --> 3:32:1.100

f4062337-cefb-43b1-9412-9bafdceb0869

I'd also mentioned briefly JP, thank you for the work you and staff have done on Ohh R What do you call cooperating agreement with us and CID on some of that forward Wheeling agreement efforts has been great.

3:32:1.510 --> 3:32:4.620

f4062337-cefb-43b1-9412-9bafdceb0869

And then also kudos county.

3:32:6.740 --> 3:32:8.770

f4062337-cefb-43b1-9412-9bafdceb0869

As well, uh.

3:32:9.300 --> 3:32:14.70

f4062337-cefb-43b1-9412-9bafdceb0869

The Booze County flood control and Water Conservation District, where there's a shortened name now.

3:32:14.580 --> 3:32:23.400

f4062337-cefb-43b1-9412-9bafdceb0869

No, that's not full umm at trying to kicked off and I think finally got some the monumental needed moving forward.

3:32:23.410 --> 3:32:32.950

f4062337-cefb-43b1-9412-9bafdceb0869

And I think that's exciting and I can be critical for us as a board and staff to try to work very collaboratively with through to see that effort taking off.

3:32:40.280 --> 3:32:41.690

f4062337-cefb-43b1-9412-9bafdceb0869

Sarah. Kevin.

3:32:41.700 --> 3:32:47.460

f4062337-cefb-43b1-9412-9bafdceb0869

I would just add that today we had our last local Community working Group meeting for 2023.

3:32:47.900 --> 3:32:53.860

f4062337-cefb-43b1-9412-9bafdceb0869

You'll remember it's kind of a long process of bringing this group together with our final meeting of the year.

3:32:54.800 --> 3:33:9.470

f4062337-cefb-43b1-9412-9bafdceb0869

We're going to bring to the board in January, report out on the discussions that came out of that group

and also a list of some potential recommendations for the board to consider to address some of the local concerns and not a whole lot of local concerns.

3:33:9.480 --> 3:33:17.600

f4062337-cefb-43b1-9412-9bafdceb0869

There's a lot of opportunities that we've been talking about how we could work communities with projects that fit the community, but great turnout.

3:33:17.940 --> 3:33:29.480

f4062337-cefb-43b1-9412-9bafdceb0869

You originally only planned to do it for a year for 2023, but just been such a good group and a lot of good collaboration that we're going to do it for another year, we're going to do a series of meetings in 2024.

3:33:29.870 --> 3:33:35.160

f4062337-cefb-43b1-9412-9bafdceb0869

They'll be quarterly as opposed to bimonthly, but a lot of good feedback.

3:33:35.780 --> 3:33:37.160

f4062337-cefb-43b1-9412-9bafdceb0869

It's not a big cross section.

3:33:38.660 --> 3:33:41.470

f4062337-cefb-43b1-9412-9bafdceb0869

The local government to local organizations.

3:33:43.410 --> 3:33:47.10

f4062337-cefb-43b1-9412-9bafdceb0869

Good, good opportunity for us to communicate with all of those.

3:33:47.20 --> 3:33:48.600

f4062337-cefb-43b1-9412-9bafdceb0869

And that's a pretty good idea.

3:33:48.850 --> 3:33:54.800

f4062337-cefb-43b1-9412-9bafdceb0869

We're going to bring to you all here in a couple of months, so great stuff and I'll just round that out.

3:33:55.20 --> 3:34:0.840

f4062337-cefb-43b1-9412-9bafdceb0869

The press release is already out, you know, celebrating the milestone today.

3:34:0.890 --> 3:34:2.880

f4062337-cefb-43b1-9412-9bafdceb0869

We've been getting a lot of media coverage.

3:34:3.170 --> 3:34:16.740

f4062337-cefb-43b1-9412-9bafdceb0869

I normally send that all to Kevin and Ally and others, but if anyone interested in that sort of putting

together a summary of the coverage and sending it off to you for just your own personal reviewer or pleasure reading, we'd be happy to do that.

3:34:17.650 --> 3:34:24.350

f4062337-cefb-43b1-9412-9bafdceb0869

We've also got a toolkit of all of the different information that we prepared for the environmental document, the executive summary on it.

3:34:24.360 --> 3:34:38.30

f4062337-cefb-43b1-9412-9bafdceb0869

We have it the narrative and bilingual have to do well and then also three videos that I think Jerry has sent out once, but we made sure that again with the hopes that we can get some more traction from our investors to push them out on their own platform.

3:34:39.540 --> 3:34:42.910

f4062337-cefb-43b1-9412-9bafdceb0869

Linda Water supply the purpose of of a site.

3:34:43.60 --> 3:34:48.630

f4062337-cefb-43b1-9412-9bafdceb0869

Another one is about unprecedented collaboration, which has been mentioned here, and the third is about the environmental benefits.

3:34:48.860 --> 3:34:53.170

f4062337-cefb-43b1-9412-9bafdceb0869

Because this is in fact much of environmental logic, as it is a water supply project.

3:34:53.180 --> 3:35:2.720

f4062337-cefb-43b1-9412-9bafdceb0869

So to the extent you can put those on your platform, push it out on your own releases and in your own distribution, we would really, really appreciate that.

3:35:3.70 --> 3:35:6.390

f4062337-cefb-43b1-9412-9bafdceb0869

And then in January, we'll be debuting our virtual tour.

3:35:7.100 --> 3:35:27.910

f4062337-cefb-43b1-9412-9bafdceb0869

Umm, recognizing that we can't get everyone to come up from that as well and take a tour, but we keep trying, but in but we'll also have a fall back over to where which HR has been very helpful in putting together a lot of the simulations on what it would look like once it's all full with water and having recreation going on around the reservoir itself.

3:35:27.920 --> 3:35:29.60

f4062337-cefb-43b1-9412-9bafdceb0869

It's really a nice piece.

3:35:29.200 --> 3:35:31.650

f4062337-cefb-43b1-9412-9bafdceb0869

And so we're going to get a lot of mileage out of that.

3:35:31.660 --> 3:35:35.600

f4062337-cefb-43b1-9412-9bafdceb0869

And again, we'll pass that along in January until it gets pushed out far and wide.

3:35:36.930 --> 3:35:37.270

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you.

3:35:38.550 --> 3:35:41.630

f4062337-cefb-43b1-9412-9bafdceb0869

Doing finally tell Mary not to replace that screen door.

3:35:44.610 --> 3:35:46.640

f4062337-cefb-43b1-9412-9bafdceb0869

We might need to pull that off, yeah.

3:35:48.800 --> 3:35:51.710

f4062337-cefb-43b1-9412-9bafdceb0869

Sarah, did you say you sent the press release to all the directors?

3:35:52.580 --> 3:35:56.840

f4062337-cefb-43b1-9412-9bafdceb0869

The press release today transaction has been sent to the media.

3:35:58.680 --> 3:36:2.910

f4062337-cefb-43b1-9412-9bafdceb0869

I can see it thinking Marcia distributing it to all of you good. OK.

3:36:4.780 --> 3:36:8.350

f4062337-cefb-43b1-9412-9bafdceb0869

Actually, a specific request from a landowner I wanna know as soon as possible.

3:36:12.300 --> 3:36:12.730

f4062337-cefb-43b1-9412-9bafdceb0869

Great.

3:36:12.780 --> 3:36:13.310

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you.

3:36:13.350 --> 3:36:16.400

f4062337-cefb-43b1-9412-9bafdceb0869

Have any other any work group or any reports?

3:36:18.750 --> 3:36:20.250
f4062337-cefb-43b1-9412-9bafdceb0869
It's hearing none.

3:36:20.310 --> 3:36:23.370
f4062337-cefb-43b1-9412-9bafdceb0869
Let's move on to we participants.

3:36:23.380 --> 3:36:23.640
f4062337-cefb-43b1-9412-9bafdceb0869
Have any?

3:36:25.950 --> 3:36:26.380
f4062337-cefb-43b1-9412-9bafdceb0869
It works.

3:36:27.700 --> 3:36:29.70
f4062337-cefb-43b1-9412-9bafdceb0869
Just talk.

3:36:29.690 --> 3:36:47.450
f4062337-cefb-43b1-9412-9bafdceb0869
We're getting some movement in our area and also in operating, umm, Habitat for Humanity out of the Yuba, people are getting ramped up here about housing and pay OA campgrounds and stuff like that for this project.

3:36:47.460 --> 3:36:56.350
f4062337-cefb-43b1-9412-9bafdceb0869
So, uh, we have to have a place for all these guys that were sitting behind us to stay when they're working on this project for seven to 10 years.

3:36:56.390 --> 3:37:15.280
f4062337-cefb-43b1-9412-9bafdceb0869
So, umm, I hate to see that our timeline is gone out a little bit, but it's helps us for housing because and well as we have a couple housing complexes that were built, one was built when they built i5, 9590% of those houses were bought for people that worked on my.

3:37:16.120 --> 3:37:20.580
f4062337-cefb-43b1-9412-9bafdceb0869
The second one was built when Johns Manville, the insulation company, went out there.

3:37:20.850 --> 3:37:24.240
f4062337-cefb-43b1-9412-9bafdceb0869
90% of those houses were built when we on Bill came in the count.

3:37:25.130 --> 3:37:30.440
f4062337-cefb-43b1-9412-9bafdceb0869
So there's an opportunity now in Colusa.

3:37:30.550 --> 3:37:37.700

f4062337-cefb-43b1-9412-9bafdceb0869

They're even talking about it in Yuba Sutter area for housing because it's not that far of a commute from the project.

3:37:37.710 --> 3:37:46.450

f4062337-cefb-43b1-9412-9bafdceb0869

So something we need to push out there because I mean our hotels are completely full sometimes just because of the race track.

3:37:46.640 --> 3:37:50.320

f4062337-cefb-43b1-9412-9bafdceb0869

So, umm, we need to accommodate that.

3:37:50.370 --> 3:37:52.340

f4062337-cefb-43b1-9412-9bafdceb0869

People are talking about restaurants now.

3:37:52.670 --> 3:38:0.900

f4062337-cefb-43b1-9412-9bafdceb0869

This is a great opportunity to spike the economy in our stagnant little communities we have here.

3:38:0.910 --> 3:38:3.260

f4062337-cefb-43b1-9412-9bafdceb0869

So it's an opportunity.

3:38:3.320 --> 3:38:9.100

f4062337-cefb-43b1-9412-9bafdceb0869

So we continue to push and it's I've got private private people that want to build apartment building now.

3:38:10.170 --> 3:38:14.120

f4062337-cefb-43b1-9412-9bafdceb0869

So, and luckily the price of building is coming down.

3:38:14.130 --> 3:38:22.450

f4062337-cefb-43b1-9412-9bafdceb0869

So it's an opportunity for all this area here to take advantage and then for future for our communities.

3:38:25.240 --> 3:38:25.860

f4062337-cefb-43b1-9412-9bafdceb0869

Great comment.

3:38:25.870 --> 3:38:26.170

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you.

3:38:28.630 --> 3:38:32.70
f4062337-cefb-43b1-9412-9bafdceb0869
OK, let's move on Jerry's report real quick.

3:38:32.210 --> 3:38:32.680
f4062337-cefb-43b1-9412-9bafdceb0869
I do.

3:38:32.690 --> 3:38:34.80
f4062337-cefb-43b1-9412-9bafdceb0869
You have a monthly status.

3:38:34.130 --> 3:38:39.590
f4062337-cefb-43b1-9412-9bafdceb0869
You have a update on the schedule in the packet and happy to answer any questions you might have for that.

3:38:40.200 --> 3:38:43.350
f4062337-cefb-43b1-9412-9bafdceb0869
Umm, tearing off of Tom's comet.

3:38:43.780 --> 3:38:45.90
f4062337-cefb-43b1-9412-9bafdceb0869
Yes, it does.

3:38:45.140 --> 3:38:47.970
f4062337-cefb-43b1-9412-9bafdceb0869
The time does give folks a little more time to get prepared.

3:38:47.980 --> 3:38:50.570
f4062337-cefb-43b1-9412-9bafdceb0869
It also hopefully gets us to a more.

3:38:52.340 --> 3:38:54.470
f4062337-cefb-43b1-9412-9bafdceb0869
Favorable interest rate market.

3:38:55.270 --> 3:38:57.560
f4062337-cefb-43b1-9412-9bafdceb0869
Uh, But none of us can predict that.

3:38:57.570 --> 3:39:1.960
f4062337-cefb-43b1-9412-9bafdceb0869
I'm waiting for somebody that can do that, but that's not that.

3:39:2.10 --> 3:39:2.960
f4062337-cefb-43b1-9412-9bafdceb0869
That helps too.

3:39:3.210 --> 3:39:9.560

f4062337-cefb-43b1-9412-9bafdceb0869

Anyway, we first of all, we met with the Allen County Board of Supervisors.

3:39:9.570 --> 3:39:18.80

f4062337-cefb-43b1-9412-9bafdceb0869

They came out and did a tour with us and Fritz was kind enough to make time for that, and that was actually very helpful.

3:39:18.90 --> 3:39:33.910

f4062337-cefb-43b1-9412-9bafdceb0869

They did submit a comment letter on the IR kind of last minute, but we met with them and they were very supportive of the project and and look forward to working with the other counties to make this project successful, make working with us to make this project successful.

3:39:34.990 --> 3:39:35.590

f4062337-cefb-43b1-9412-9bafdceb0869

Umm.

3:39:36.120 --> 3:39:44.240

f4062337-cefb-43b1-9412-9bafdceb0869

If I might interrupt, there's one of the supervisors also was the representative to the Delta Counties Coalition, Delta Counties Coalition.

3:39:44.250 --> 3:39:44.720

f4062337-cefb-43b1-9412-9bafdceb0869

Right.

3:39:44.810 --> 3:39:53.100

f4062337-cefb-43b1-9412-9bafdceb0869

So it was a opportunity for him to kind of hear the correct information about how water would affect the delta water from sites.

3:39:53.410 --> 3:39:58.830

f4062337-cefb-43b1-9412-9bafdceb0869

So I think that's a good opportunity and he seemed to be positive about the project.

3:39:58.840 --> 3:40:17.300

f4062337-cefb-43b1-9412-9bafdceb0869

He didn't push back on that at all, so I think it's a good opportunity and it also spoken to the folks at North Delta Water Agency whom you all settled with before a protest occurred on our water right from them and had gotten good reports from them about the project.

3:40:17.310 --> 3:40:29.620

f4062337-cefb-43b1-9412-9bafdceb0869

So I wanted to mention that because that shows you how there are connections out there that you don't even realize when you do things like that kind of indirect positive effects from doing that.

3:40:29.670 --> 3:40:31.410
f4062337-cefb-43b1-9412-9bafdceb0869
So good job to all y'all for that.

3:40:32.220 --> 3:40:52.460
f4062337-cefb-43b1-9412-9bafdceb0869
Umm, the Governor certification was certainly very welcomed and very pleased to see that and we quickly put out a press release that you all received a copy of and that, that, that there are still the one step left where that's going through the.

3:40:54.260 --> 3:40:57.490
f4062337-cefb-43b1-9412-9bafdceb0869
Legislative Joint Budget Committee.

3:40:57.500 --> 3:41:5.890
f4062337-cefb-43b1-9412-9bafdceb0869
I think it's what it's called anyway, so they they're they're they have the ability to either concur or not concur.

3:41:6.540 --> 3:41:8.610
f4062337-cefb-43b1-9412-9bafdceb0869
The governor's decision is final.

3:41:8.620 --> 3:41:9.780
f4062337-cefb-43b1-9412-9bafdceb0869
It's not something that can be.

3:41:10.520 --> 3:41:16.730
f4062337-cefb-43b1-9412-9bafdceb0869
Uh sued over and, but they have up to 30 days for that.

3:41:19.450 --> 3:41:22.320
f4062337-cefb-43b1-9412-9bafdceb0869
Evaluation and we're monitoring that very closely.

3:41:22.330 --> 3:41:33.610
f4062337-cefb-43b1-9412-9bafdceb0869
We don't expect that to occur or result in any changes, but that is the kind of the finality to this whole thing is his action was an actual certification.

3:41:33.620 --> 3:41:48.320
f4062337-cefb-43b1-9412-9bafdceb0869
You saw the signed proclamation, so that does mean that it is complete, but I did just want to flag that one little piece that's still hanging out there and be hanging out there till little early December.

3:41:49.610 --> 3:41:55.260
f4062337-cefb-43b1-9412-9bafdceb0869
Umm, we are scheduling various meetings with folks one on one at Aqua.

3:41:55.930 --> 3:42:2.620

f4062337-cefb-43b1-9412-9bafdceb0869

So again, if you have any of your agencies or anybody wants to meet with anybody from the project team, please let us know.

3:42:2.630 --> 3:42:9.340

f4062337-cefb-43b1-9412-9bafdceb0869

We're happy to schedule something with you and my final comment is that Richard's not here anymore.

3:42:9.350 --> 3:42:17.300

f4062337-cefb-43b1-9412-9bafdceb0869

But Richard Wells, the representative for reclamation on the on the team here, he's retiring at the end of this year.

3:42:17.310 --> 3:42:20.250

f4062337-cefb-43b1-9412-9bafdceb0869

He's been with the federal government end of the month.

3:42:20.340 --> 3:42:21.60

f4062337-cefb-43b1-9412-9bafdceb0869

End of it.

3:42:21.70 --> 3:42:21.750

f4062337-cefb-43b1-9412-9bafdceb0869

What did I say?

3:42:21.840 --> 3:42:24.640

f4062337-cefb-43b1-9412-9bafdceb0869

Your ohh well pushing I guess.

3:42:24.910 --> 3:42:41.120

f4062337-cefb-43b1-9412-9bafdceb0869

Yeah, 40 years of federal service, which is pretty amazing and has really been a major contributor to this project and helped us kind of swing things with the federal government into the place where they are today.

3:42:41.370 --> 3:42:53.100

f4062337-cefb-43b1-9412-9bafdceb0869

Very good position along with the regional director, who I wouldn't be surprised might be doing something similar next year to what Richard's doing this year, but we'll see.

3:42:53.170 --> 3:42:56.500

f4062337-cefb-43b1-9412-9bafdceb0869

They have announced that Adam Nichols will be replacing Richard.

3:42:56.510 --> 3:43:0.830

f4062337-cefb-43b1-9412-9bafdceb0869

So Adam will be working with us mostly on the project, else does it.

3:43:2.40 --> 3:43:3.330

f4062337-cefb-43b1-9412-9bafdceb0869

That concludes my report.

3:43:3.970 --> 3:43:6.60

f4062337-cefb-43b1-9412-9bafdceb0869

One super quick thing, if I should.

3:43:6.930 --> 3:43:10.230

f4062337-cefb-43b1-9412-9bafdceb0869

I did just want to share that we've got Jim Lucky online.

3:43:10.450 --> 3:43:15.90

f4062337-cefb-43b1-9412-9bafdceb0869

Jim is with the ICF team and formerly with National Marine Fisheries Service.

3:43:15.100 --> 3:43:18.360

f4062337-cefb-43b1-9412-9bafdceb0869

Before that, Jim is also retiring.

3:43:18.370 --> 3:43:33.690

f4062337-cefb-43b1-9412-9bafdceb0869

He he kind of retired from ICF and stayed on solely to help the sites project and help us get through all of this effort through our environmental document and get our permitting foundation well set up.

3:43:33.700 --> 3:43:44.270

f4062337-cefb-43b1-9412-9bafdceb0869

So I just wanted to recognize Jim and thank him for all of his work and his willingness to actually continue to work for a number of years, probably more than he anticipated.

3:43:44.750 --> 3:43:45.190

f4062337-cefb-43b1-9412-9bafdceb0869

Umm.

3:43:46.410 --> 3:43:48.20

f4062337-cefb-43b1-9412-9bafdceb0869

Across client on that.

3:43:48.90 --> 3:43:53.460

f4062337-cefb-43b1-9412-9bafdceb0869

I know Jim has been involved number of things in the Sack Valley.

3:43:56.110 --> 3:44:3.60

f4062337-cefb-43b1-9412-9bafdceb0869

Screen and activities in the valley, so I didn't know about Jim retiring.

3:44:3.20 --> 3:44:3.660

Lecky, Jim

Thanks, Allie.

3:44:3.70 --> 3:44:3.900

f4062337-cefb-43b1-9412-9bafdceb0869

Hey Jim, Jeff saw.

3:44:5.630 --> 3:44:7.480

f4062337-cefb-43b1-9412-9bafdceb0869

Jim Jeff Sutton here.

3:44:7.680 --> 3:44:8.130

Lecky, Jim

Hey, Jeff.

3:44:7.520 --> 3:44:17.880

f4062337-cefb-43b1-9412-9bafdceb0869

Gosh, I met Jim when my parents helped start family water lines and doing the small diversion fish green program and he's been instrumental on all those.

3:44:17.890 --> 3:44:26.380

f4062337-cefb-43b1-9412-9bafdceb0869

And on my Red Bluff project as well, which I always call the first phase of sites being completed because we had to do that to be able to divert water for side.

3:44:26.390 --> 3:44:30.540

f4062337-cefb-43b1-9412-9bafdceb0869

So Jim, for all your help over the years on this and other projects.

3:44:30.650 --> 3:44:32.720

f4062337-cefb-43b1-9412-9bafdceb0869

Thank you and congratulations on your retirement.

3:44:33.500 --> 3:44:34.480

Lecky, Jim

So you want me to have.

3:44:34.490 --> 3:44:35.120

Lecky, Jim

Thank you very much.

3:44:39.710 --> 3:44:53.760

f4062337-cefb-43b1-9412-9bafdceb0869

Jim has been a great partner from the fishery community on finding durable solutions when some didn't seem available and folks were talking very well, just been a big part of a lot of successes.

3:44:54.330 --> 3:44:54.850

f4062337-cefb-43b1-9412-9bafdceb0869

Thanks Jeff.

3:44:56.540 --> 3:44:57.50

Lecky, Jim

Thank you, Jeff.

3:44:58.240 --> 3:44:59.740

f4062337-cefb-43b1-9412-9bafdceb0869

Anybody else want to announce their retirement?

3:45:1.110 --> 3:45:1.900

Lecky, Jim

Yes, with.

3:45:3.990 --> 3:45:5.450

f4062337-cefb-43b1-9412-9bafdceb0869

13 months and two weeks.

3:45:6.570 --> 3:45:7.660

f4062337-cefb-43b1-9412-9bafdceb0869

That's debatable.

3:45:7.990 --> 3:45:8.410

f4062337-cefb-43b1-9412-9bafdceb0869

That's all.

3:45:11.640 --> 3:45:12.250

f4062337-cefb-43b1-9412-9bafdceb0869

I had to try.

3:45:14.810 --> 3:45:16.270

f4062337-cefb-43b1-9412-9bafdceb0869

Alright, thank you.

3:45:17.790 --> 3:45:19.210

f4062337-cefb-43b1-9412-9bafdceb0869

Retired in 2016.

3:45:24.700 --> 3:45:26.210

f4062337-cefb-43b1-9412-9bafdceb0869

It's working on this, yeah.

3:45:28.310 --> 3:45:28.600

f4062337-cefb-43b1-9412-9bafdceb0869

OK.

3:45:28.610 --> 3:45:29.480

f4062337-cefb-43b1-9412-9bafdceb0869

Jerry, anything else?

3:45:29.550 --> 3:45:29.940
f4062337-cefb-43b1-9412-9bafdceb0869
Nothing.

3:45:29.990 --> 3:45:30.420
f4062337-cefb-43b1-9412-9bafdceb0869
Thank you.

3:45:30.430 --> 3:45:31.430
f4062337-cefb-43b1-9412-9bafdceb0869
OK, alright with that.

3:45:33.380 --> 3:45:36.320
f4062337-cefb-43b1-9412-9bafdceb0869
Start the timer to 5 minutes.

3:45:36.330 --> 3:45:38.410
f4062337-cefb-43b1-9412-9bafdceb0869
We'll meet and close session.

3:45:40.200 --> 3:45:40.950
f4062337-cefb-43b1-9412-9bafdceb0869
OK, everyone.

3:45:40.960 --> 3:45:41.420
f4062337-cefb-43b1-9412-9bafdceb0869
Thank you.

3:45:44.40 --> 3:45:44.590
f4062337-cefb-43b1-9412-9bafdceb0869
Ah, that's.

4:38:47.640 --> 4:38:48.80
Pryor, Valerie
Read it.

4:38:48.900 --> 4:38:49.270
Pryor, Valerie
Yeah.

4:38:49.280 --> 4:38:50.430
Pryor, Valerie
Hi, welcome back everyone.

4:38:53.90 --> 4:38:57.720
Pryor, Valerie
I would now like a general counsel to report back from closed session.

4:38:57.770 --> 4:38:59.670

Pryor, Valerie

There was no action taken in closed session.

4:39:0.860 --> 4:39:2.510

Pryor, Valerie

Thank you very much, Mr Dowd.

4:39:3.930 --> 4:39:18.310

Pryor, Valerie

I would like to remind people now that the next meeting of the Joint Reservoir Committee and the Authority Board will be held on Friday, December 15th here in Maxwell.

4:39:18.720 --> 4:39:20.10

Pryor, Valerie

Thank you very much for attending.

4:39:20.300 --> 4:39:20.800

Pryor, Valerie

Have a good day.

4:39:21.740 --> 4:39:24.890

Pryor, Valerie

They happy Thanksgiving, dude.
