Need an updated species list?

Integrate the environmental review process into your project design

Quickly and easily identify USFWS managed resources and suggested conservation measures for your project.

🐾 Explore species and habitat

See if any listed species ⓘ , critical habitat, migratory birds or other natural resources may be impacted by your project.

Using the map tool, explore other resources in your location, such as wetlands, wildlife refuges, GAP land cover, and other important biological resources.

📍 Conduct a regulatory review

Log in and define a project to get an official species list and evaluate potential impacts on resources managed by the U.S. Fish and Wildlife Service.

Follow IPaC's Endangered Species Review process—a streamlined, step-by-step consultation process available in select areas for certain project types, agencies, and species.

🌿 Perform an impact analysis

For projects or species not covered by the step-by-step consultation process, get a list of potential impacts from your specified project activities to use when making effect determinations.

Receive conservation measures recommended by U.S. Fish and Wildlife Service biologists to avoid, minimize, or mitigate effects to listed species.
