(1) Conversion to Farmland of Local Importance is primarily due to land left idle or land used for dryland grain production for three or more update cycles.

(2) Conversion to irrigated farmland is primarily due to the addition of irrigated row crops and orchards, including nearly 2,000 acres of new orchards near Artois.

(3) Conversion from Urban and Built-up Land is due to a lack of sufficient infrastructure and the use of detailed digital imagery to delineate more distinct urban boundaries as well as a new orchard on former Urban and Built-up Land near Hamilton City.
