

Call To: Glenn County Air Pollution Control District (GCAPCD)

Phone No.: 530-934-6500

Date: 12/21/2009

Call From: Pamela Vanderbilt

Subject: CEQA Air Quality Guidelines in Glenn County

I contacted the GCAPCD and left a message asking about any applicable CEQA guidelines that we should use to conduct air quality impact analysis for projects in Glenn County.

Ian Ledbetter returned my call and left a message, indicating that the GCAPCD has no CEQA-related air quality guidelines. They are not typically asked to serve as a lead agency, rather the county planning department would serve that role. Mr. Ledbetter suggested that we may wish to use Butte County's CEQA guidelines, published in 2008.
