Jaqueline,

The .kml file is a portion County Road 69 (it continues nw to where it makes a 90 degree turn to the west), your previous table said I-5 to F there is not a road at that location. It should be County Road 69 from County Road D to west end total length 4.67 miles. The 4% adjusted ADT for this portion is 28. We have a 4% adjusted ADT for County Road 203 from 9 to north end of 507.

Hope that helps

Matthew J. Gomes

Subject: RE: Sites Reservoir Project - Transportation Questions

Good afternoon Matthew,

Sorry, in addition to the question I have below, can you please also provide the name of the roadway located at the .kml file attached? We have identified this as County Road 69, but if you have no record of that road existing, perhaps there is a mistake on GoogleEarth/Maps. The extent of this ~2.25 mile roadway would be utilized to access the north end of the reservoir and the associated facilities, so we would like to make sure we have the correct name in the document and on the figures.

Thanks, talk to you soon.

Good evening Matthew,

Thank you for getting back to me. I will reach out to the Office of Education, and will keep an eye out for additional information from Mardy.

Do you have ADT data for both sections of County Road 203 that you have identified, or should I assume that 1,905 is the correct number for both?

Thanks again for your help, talk to you soon.

Subject: Sites Reservoir Project - Transportation Questions

Good afternoon Matt,

I am working on revising the Sites Reservoir Project EIR/EIS, and have a couple of details regarding Glenn County that I would like to include in a chapter based on comments we have received from reviewers. These items are specifically related to the transportation chapter, and Mike Azevedo at Colusa County recommended I reach out to you first to see if you can point me in the right direction. If you can direct me to the appropriate person to contact regarding the following items, it would be greatly appreciated.

- Is the number of annual users of the County's public transportation system recorded? **Yes Mardy, please assist with this item**
- Is information on school bus routes within the County available? **Glenn County office of education would have this information**
- Can someone at the County confirm the roadways in the table below are appropriately classified? **See below**

2010 ADT for Selected Roads in Glenn County

Roadway	Segment	Roadway Classification	Maximum ADT Capacity ^a	Calculated 2010 ADT ^b	2010 LOS ^c
I-5	Glenn/Colusa County Line to County Road 68	4-Lane Major Freeway	79,200	26,523	B
I-5	County Road 16 to SR 32 E	4-Lane Major Freeway	79,200	26,523	B
SR 32	I-5 to SR 45	2-Lane, Class II Highway	21,200	10,800	D
County Road 68	County Road F to I-5	Rural Minor Collector (2 lane)	11,200	192 196*	A
County Road 68	I-5 to County Line/Norman Road	Rural MAJOR Collector (2 lane)	11,200	232 261*	A
County Road 69 Does not exist	I-5 to County Road F	Rural Local Road	5,500	20	A
County Road D	Glenn/Colusa County Line to County Road 57	Rural Minor Collector (2 lane)	11,200	402 410*	A
Canal Road County Road 203	SR 32 to County Road 9 (Wyo) County Road 9 (Wyo) to end	Rural Major Collector Rural Minor Collector	5,500	1,740 1905*	B

^aBased on LOS F criteria.

using our latest counts with 4% annual growth

^bAcquired from 2010 data or calculated based on 4 percent average annual growth rate.

^cRefer to Tables 26-4 and 26-5 for the LOS criteria.

Thank you, in advance, for your help. I look forward to hearing back from you, have a great weekend.

Regards,

Jacqueline Todak
