Its physicians performed 0 inpatient and 322 outpatient surgeries.

Details

For more about this hospital, see [hospital details](#). The information shown is provided by the American Hospital Association, which compiles data on all U.S. hospitals through an annual survey and from other sources. Hospital ownership, number of doctors and nurses, volume of births and ER visits, and available services such as sports medicine are just a few examples of data collected by the AHA. Find out more at www.ahadata.com.
