### Opportunities and Constraints Report

Based on public input from community visioning workshops, information contained in the Existing Conditions Report, stakeholder interviews, and direction from County staff, this report (pdf) identifies key issues and opportunities to be addressed in the General Plan and summarizes input provided by participants of the visioning workshops. This Opportunities and Constraints Report (pdf) provides the GPAC, the Planning Commission, and the Board of Supervisors with tools and information for the development of the General Plan Policy Document and associated Land Use and Circulation Maps.

### Existing Conditions Report

The Existing Conditions Report (pdf) takes a "snapshot" of Glenn County's current (2019) trends and conditions. It provides a detailed description of a wide range of topics within the county, such as demographic and economic conditions, land use, public facilities, safety constraints, and environmental resources. The Existing Conditions Report provides decision-makers, the public, and local agencies with context for making policy decisions.

### Welcome

Welcome to the Glenn County General Plan Update website. The County has elected to embark on the process of updating its General Plan, and this website will provide the community with an ongoing resource to provide input, track progress, review resource documents, and participate in this very important project.

Each county in California is required to have a General Plan which serves as a guiding document for the County's long-term growth and development. Glenn County's previous general plan dates back to 1993, and a lot has changed. New housing developments have been built, business and industry is changing, and the county has grown.

The Glenn County General Plan applies to all of the unincorporated area of the county outside of the cities of Willows and Orland, which have their own general plans. The General Plan addresses a range of important community topics like land use, housing, economic development, transportation, parks and recreation, public safety, and more. County staff, elected and appointed officials, business owners, developers, and citizens can reference the General Plan for guidance on what the community values and its priorities.

Looking forward 20 years, how will state and regional trends impact life in Glenn County? What new technologies will change how we live, work, and play? While we can't see exactly what the future holds, we are preparing for it by updating our General Plan!

This General Plan Update is a way for you to share your vision for the future of Glenn County. We need your help in order to make the General Plan a success. What do you love about Glenn County? What opportunities and challenges do you think face the county as it grows over the next 10, 15, or 20 years? Weighing-in on the Glenn County General Plan Update process at workshops and online will help make sure that the updated General Plan conveys the values and priorities of all its citizens.
