**Attachments:** CEDU 2020 and CED 2019 Statewide Forecast Comparison Table 04122021.xlsx

Hi Robert – I attached a worksheet with a table that compares our most recent forecast update with the previous CED 2019 forecast. Let mw know if you have any questions or need anything else.

Best,

Cary: Yes, thank you for the offer. It would be very helpful to me if you could emulate the Table 1 with more recent data.

Thank you.

Robert Lanza

Subject: RE: California Energy Demand Forecast Update, 2020 - 2030

We haven't prepared that type of report for the last few forecast cycles so we don't have that table readily available. We can assemble a similar table using the latest data if that we be a helpful comparison?

Best,

Cary: Thanks for sending... I am also looking for a more recent version of the attached document 2.21.18: *California Energy Demand 2018-2030 Revised Forecast*, specifically an update to the data in Table 1 *Comparison of CED 2017 Revised and CEDU 2016 Mid Case Demand Baseline Forecasts of Statewide Electricity Demand* of the 2018-2030 Revised Forecast document.

Please let me know if an update to the 2018-2030 document is available.

Thanks...

Robert Lanza

Cary: I am looking for a PDF of the *California Energy Demand Forecast Update, 2020 – 2030*. I have located the Notice of Availability for the 2020-2030 document but not the PDF report. Can you please let me know if the report is available? If not can you please let me know if there is an earlier version of the California Energy Demand Forecast Update available?

Thanks...

Robert Lanza
