Maps & Publications

The US Forest Service provides several types of publications and maps to the public. The material is available in many forms: brochures, maps, Recreational Opportunity Guides (ROGs), on such subjects as recreation, sightseeing, wilderness, travel management, and vegetation.

Forest Maps

The Forest Service publishes a variety of map products to help you plan your next adventure or enjoy your next visit! Select the **"Forest Maps" link** above for even more map selections. Also, here is a **helpful brochure about different types of maps and how to read them**.

For example:

You can purchase National Forest Visitor Maps through the [U.S. Geological Survey Store](#) or our partner organization, [Discover Your Northwest](#).

Several types of [mobile compatible maps](#) are available from [Avenza Maps](#).

US Geological Survey website offers USGS Topographic Maps and a wide variety of maps on-line and for purchase.

In general, forest visitor and other kinds of maps may also be purchased at most **Shasta-Trinity National Forest Offices**.
[Motor Vehicle Use Maps \(MVUM\)](#)

The **Motor Vehicle Use Map** displays National Forest System routes (roads and trails) or areas designated open to motorized travel. The Motor Vehicle Use Map also displays uses allowed by vehicle class (highway-legal vehicles, vehicles less than 50 inches wide and motorcycles), and seasonal allowances.

[Access our MVUMs](#)

Forest Publications

Our publications fall into a few broad categories: administrative, general, recreation and research publications. Select the **"Forest Publications" link** for even more opportunity guides.

Highlights

[Recreation Opportunity Guides](#) ...offer tips about Shasta-Trinity recreation, such as bicycling to wildlife viewing and everything in between. The guides are updated once a year in the spring.

[Maps for mobile devices](#)

After downloading and using the app, let us know what you think at SM.FS.R5DigMaps@usda.gov.
