Designation Categories: A = Attainment

N = Nonattainment

T = Nonattainment-Transitional (for ozone, by operation of law)

U = Unclassified

These designations reflect the year in which the area designation was made, generally based on data from the previous three-year period.

- * State area designations were not changed in this year and no Staff Report was submitted.
- ** State area designations changed only by operation of law and no Staff Report was submitted.

There are two State standards for ozone, a 1-hour average of 0.09 parts per million and an 8-hour average of 0.070 parts per million, both not to be exceeded.

^{***} The Southeast Desert Air Basin was subdivided into the Mojave Desert and Salton Sea air basins in 1996.

These designations reflect the year in which the area designation was made, generally based on data from the previous three-year period.

In 2007, the Air Resources Board reviewed the State NO2 standard. As a result of this review, the State 1-hour NO 2 standard was lowered and a new annual standard was adopted.

There are now two State nitrogen dioxide standards, a 1-hour average of 0.18 parts per million and an annual arthmetic mean standard of 0.030 ppm. Both are not to be exceeded.

^{*} State area designations were not changed in this year and no Staff Report was submitted.

^{**} State area designations changed only by operation of law and no Staff Report was submitted.

^{***} The Southeast Desert Air Basin was subdivided into the Mojave Desert and Salton Sea air basins in 1996.

These designations reflect the year in which the area designation was made, generally based on data from the previous three-year period.

- * State area designations were not changed in this year and no Staff Report was submitted.
- ** State area designations changed only by operation of law and no Staff Report was submitted.

There are three State carbon monoxide standards, a 1-hour standard of 20 parts per million that applies statewide, an 8-hour standard of 6.0 parts per million that applies only in the Lake Tahoe Air Basin (LTAB), and an 8-hour standard of 9.0 parts per million that applies in all other areas except LTAB. The 8-hour LTAB standard is not to be equaled or exceeded, while the other two are not to be exceeded.

^{***} The Southeast Desert Air Basin was subdivided into the Mojave Desert and Salton Sea air basins in 1996.

- ** State area designations changed only by operation of law and no Staff Report was submitted.
- *** The Southeast Desert Air Basin was subdivided into the Mojave Desert and Salton Sea air basins in 1996.

There are two State standards for PM10, a 24-hour average of 50 micrograms per cubic meter and an annual artihmetic mean of 20 micrograms per cubic meter. Both standards are not to be exceeded.

In June 2002, the ARB lowered the State annual standard for PM10 from 30 to 20 micrograms per cubic meter.

Designation Categories: A = Attainment

San Bernardino Co (SEDAB)

N = Nonattainment

T = Nonattainment-Transitional

U = Unclassified

These designations reflect the year in which the area designation was made, generally based on data from the previous three-year period.

A A A A A A

- * State area designations were not changed in this year and no Staff Report was submitted.
- ** State area designations changed only by operation of law and no Staff Report was submitted.
- *** The Southeast Desert Air Basin was subdivided into the Mojave Desert and Salton Sea air basins in 1996.

There are two State sulfur dioxide standards, a 1-hour average of 0.25 parts per million and a 24-hour average of 0.04 parts per million. Both standards are not to be exceeded.
