

**Cover Sheet**  
**2019 California Annual Retail Fuel Outlet Report Results (CEC-A15)**  
**Energy Assessments Division**  
**09-22-20**

**Summary:** The following data sheets contain a summary of CEC-A15 results from 2010 to 2019, with county gasoline and diesel sales estimates for 2019.

The intended audience is the general public.

**Source of Data:** Transportation Fuels Data Unit CEC-A15 report.

**Key Caveats:**

1. While all transportation fuel stations are required to report the CEC-A15, staff does not maintain a complete list of fueling stations in California to send notifications of the filing requirement.
2. Estimated results are obtained by matching Board of Equalization gasoline sales totals and Energy Commission diesel sales determinations (which account for both taxable and non-taxable sales of diesel). Staff uses a statistical procedure known as "bootstrapping" to estimate the population characteristics of the unreported and unknown stations. Since large chain operators are easier to notify and collect information from, the estimated population station characteristics are weighted to match independent owners and smaller station chains in order to account for unreported stations.
