		neck and internal clearance:		
. I		amation need to start process		
•		ults (i.e., more revisions/timing))	
c. P	Page limit waiver	, ,		
	Support from Autho	ority		
5. Actio	on Items		Team	5 mins

Reclamation Discretionary Actions:

- 1) Issuance of a Warren Act Contract to the Project.
- 2) Entering into an agreement for the cooperative operations of the Sites Project with the CVP operations.
- Issuance of a Land Lease to allow for modifying a federal facility and placing non-federal property on federal lands for the Project (modifications to Red Bluff Pumping Plant [this is likely minor and wouldn't require a lease], Funks Reservoir, and placing Sites Project facilities on Federal Property).
- 4) Investing in the Project
 - a. Funding a portion of the construction with federal appropriations
 - Managing Reclamation's Storage Allocation in Sites, providing direction to the Authority on how to operate Reclamation's portion of the reservoir and received the resulting water supply benefits derived from being an investor
 - c. Funding Reclamation's operations costs through federal appropriations
