Memorandum

To: Office of Planning and Research, State Clearinghouse

From: Jim Watson

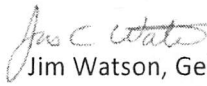

Date: September 14, 2017

Re: Request for Public Review Period Extension for the Draft Environmental Impact Report/Environmental Impact Statement for the Sites Reservoir Project, Sites, California (State Clearinghouse #2001112009)

This memorandum serves as a written request to extend the public review period for State agency review of the Draft Environmental Impact Report/Environmental Impact Statement (Draft EIR/EIS) for the Sites Reservoir Project (State Clearinghouse #2001112009), from the original closing date of November 13, 2017, to a new closing date of January 15, 2018.

Please contact me at (530) 438-2309, if you have any questions. Thank you for your assistance.

Sincerely,

Jim Watson, General Manager
Sites Project Authority

Project Description: (please use a separate page if necessary)
The proposed Sites Reservoir Project would consist of a new offstream storage reservoir with a capacity of approximately 1.8 MAF. The Sites Reservoir would be approximately 12,000-14,000 acres in size and would be created by inundating the area around the unincorporated community of Sites, California, which is referred to locally as Antelope Valley. Up to eleven dams would be needed to create the proposed Sites Reservoir. There would be two main dams: the Golden Gate Dam on Funks Creek, and the Sites Dam on Stone Corral Creek. The Sites Reservoir Project also would include an inlet/outlet structure; a pumping plant, electrical switchyard and overhead power lines; and a tunnel approximately 4,030 feet in length connecting the pumping plant to the reservoir.
