Jim Watson  
General Manager  
Sites Project Authority  
P.O. Box 517  
Maxwell, CA 95955

Dear Jim,

Representing over 128 tree nut hullers and processors of almonds, pecans, pistachios and walnuts in the State of California, the Western Agricultural Processors Association wishes to express our support for the Sites Project. After the entire state was crippled by several years of drought, it is increasingly evident that innovative water storage projects are needed.

The Sites Project would create an additional 1.8 million acre-feet of storage which would produce up to 500,000 acre-feet of supplies to California's water system annually. This water would be extremely valuable in helping achieve a more efficient and reliable water supply system. Capturing and capitalizing on years of increased precipitation would not only help keep families and farms in business but it would also generate economic growth, produce jobs and help California achieve ecosystem benefits.

We have seen billions of gallons of precious water be lost to the ocean due to the lack of adequate infrastructure. The water challenges that California has encountered over the past several years will continue, however investing in opportunities such as the Sites Project will bring balance and sustainability to the most precious resource in the state.

We look forward to do anything we can to help advance the Sites project.

Sincerely,

A handwritten signature in black ink, appearing to read "Roger Isom". The signature is fluid and cursive, with the first name "Roger" being more prominent than the last name "Isom".

Roger Isom  
President/CEO
